In the jail office Stevens has jewelry that would make even a wealthy wo man envious. Two diamond rings alone are worth several hundred dollars, all purchased with money earned smuggling opium into the United States, it is said. When he stands in front of the mirror in his cell he often calls the jailer and asks permission to wear some of his jewelry, but the regulations forbid any such privilege. Chicken is the particular food that the smuggler craves. From five to six roasted fowl are brought to the jail every day from a down-town delicatessen to satisfy the cultivated palate of the prisoner. Every time the messenger boy receives a liberal tip for his trip to the building on the Next to chicken pastry is brought into the jail in large quantities. On one trip three different kinds of cake have been brought to the big fellow. Nothing is kept from one meal to another. Whatever he does not eat at once the men in the cell with him are invited to

The jail officials are wondering what Stevens will do on the lonely island where the United States penitentiary is situated. There no first-class hotels and well-stocked delicatessen will satisfy the cravings of a fastidious palate. The same food provided for the other prisoners must satisfy Stevens.

not be depleted for luxuries during the next year. Friends of the big smuggler that have his confidence say that he is a wealthy man, having almost \$100,000 on deposit in one of the Seattle banks. That he could have acumulated this amount of money in the smuggling business is readily believed by the secret service men. For years they have known that he carried on the most extensive operations in opium smuggling, but not until three weeks ago were they clever enough to catch

The substance thus unused has of their dead masters. Sir Edwin owned a pet of this species, which, when begging of his master's deaf father, would always bark louder than

Other evidences that a dog can reason has been collected by Dr. Bucke. One dog whose master had three possible ways of travel from the point where he had missed him smelled for the trail on two of the paths, then followed the third without scenting. This animal's natural inference was that if the other two trails had not been taken, the remaining one must have been. That dogs locate water by the natural slope of the ground is also known. A Steeleton, Pa., dog which had visited friends in Trenton, N. J., went one day to the Steeleton,

Turn Time Backward.

At last there is hope for the army of young, old and middle-aged men who either through early indiscretions, later excesses or exposure find themselves lacking in virile power. How many of you are now reaping the harvest of your folly! At last you are face to face with the realization that nature cannot be deceived, neither does it forget the wrong done it, whether through ignorance or otherwise; but the punishment always corresponds with the amount of abuse committed. Do not, however, lose hope, as there is a cure, thanks to brieflied in the immortality of the dog's soul was expressed by Luther, Plato, Plutarch, Locke, Des Cartes, Condillac, Bishop Butler and Robert Louis Stevenson.

Dr. Bucke's tribute to the dog was in these words: "This pet has taught the children goodness, politeness, symptometry our as to his standing and abilities.

His acceptance of a case for treatment is equivalent to a cure, as he never accepts an incurable one for treatment, and should you decide to doctor with him youmay

be buried near that of this faithful animal. One of Darwin's dogs slept at the foot of his bed, beneath the covering the few rods in the foot of his bed, beneath the covering the few rods. How many of you as the few rods from his dogs. The food of Queen Viotoria's dogs was prepared in a special kitchen.

Belief in the immortality of the dog's soul was expressed by Luther, Plato, Dutter, Plato, Locke, Des Cartes, Condillac, Bishop Butler and Robert Louis Stevenson.

Dr. Bucke's tribute to the dog was in these words: "This pet has taught the children goodness, politeness, sympathy, cheerfulness, companionable-ness, appreciation, patience, gentle-ness, the reward for good nature, interest in and knowledge of all animal lature. It has made them more interested in their fellows and humanity, and has furnished the ideals of life. It is reasonable to believe that
