"just as good" has no regard for your hadgment or your health. It's delicious.

The LONDON LIFE THAW COUNSEL

INSURANCE COMPANY

THIRTY-SECOND ANNUAL REPORT

The thirty-second annual meeting of the shareholders and policyholders of the London Life Insurance Company was held at the Company's Head Office, No. 424 Wellington street, London, Canada, February 11th, 1907. The President, Mr. John McClary, occupied the chair, and there were present a number of shareholders and policyholders.

The notice calling the meeting was read by the Manager and Secretary. J. G. Richter, F.A.S., after which the following report and financial statement were submitted

THIRTY-SECOND ANNUAL REPORT. The Directors of the London Life Insurance Company beg to submit herewith the duly audited Financial Statement of the Company for year

ending December 31st, 1906. During the year 20,272 applications for insurance, amounting to \$3,387,774 40. were accepted and Policies issued therefor.

The net Premium and Interest receipts of the year were respectively \$436,197 79 and \$107,462 38, a total of \$543,660 17, an increase over the New York, N. Y., Feb. 11.-Answerprevious year of \$68,644 75.

The payments to Policyholders, or heirs, for Cash Profits, Surrender Values, Matured Endowments and Death Claims aggregated \$122,655 80, an increase of \$22,875 99 over the previous year.

The insurance in force on the Company's books at the close of the year, after deducting all re-insurances, aggregated \$10,376,413 37, under 66,025 pol-Wagner, superintendent of the State icies, an increase of 5,623 policies, for insurance of \$1,268,788 73 for the year. The Company's Assets, consisting mainly of first mortgages on real estate and other high-class securities, amount to \$2,100,394 27. an increase of \$233,968 47 over the previous year. The interest and other payments falling due during the year were satisfactorily met, and no losses of any

kind were incurred in this connection. The Liabilities of the Company under outstanding policies, and in all other respects, have been provided for in the Company's usual ample manner, the whole amounting to \$1,948,211 17. The surplus on Policyholders' Dr. Wagner stepped aside for cross-Account, exclusive of Subscribed but Uncalled Capital, is \$116.182 50: and after deducting Paid-up Capital, the net surplus over all liabilities of every

nature and Capital, is \$66,182 50. During the year the Company completed the alterations to its Head Office building. The offices are now admirably adapted to the Company's requirements, and the conservative valuation at which the building has been Dr. Wagner's opinion of a hypothet-

taken into account in the Company's Financial Statement makes it a good commercial asset as well.

JOHN G. RICHTER, F.A.S. JOHN McCLARY. Manager and Secretary. President.

investments 14,131 43; All other liabilities 3,668 77 Surplus on Policyholders' premiums, net 54 627 69 account 116,182 52 49.381 02 \$2,100,394 27 \$2,100,394 27 ACTUARY'S REPORT. The valuation of the Company's policy liabilities has as usual been made

affecting agriculture and the farming ner as to the results of his six visits on a strictly Net Premium basis for the "Industrial," as well as for the interests of the Province, and on such to the defendant in the Tombs and his "Ordinary" business. The rates of interest assumed are the same as were subjects he was an authority. From the tests as to the mental condition of adopted in 1900, viz., 4 per cent for all business issued previous to 1900, 31/2 per cent for "Ordinary," and 3 per cent for "Industrial" business issued since 1st January, 1900. Full provision has been made for the estimated liability of the Company

on account of profits not yet due. Owing to the addition of this item to the liabilities, the surplus shown is not as large as would ordinarily be the case. The Company's statement is unique in respect to this item, as the surplus the test of the appreciation of his fusillade of objections to testifying is absolute and subject to no deductions of any kind. Ample allowance has been made for the cost of collecting the overdue

life stood as an example of good Can- clared his observations were so closely and deferred premiums before taking credit for this item in the accounts. If advantage were taken of the Government Standard of Valuation wherever he was known, and especially defendant that he did not know and the liabilities in other respects treated in the usual manner, the surplus on Policyholders' Account would be approximately \$235,000.

Attention should be drawn to the nature of the business written in the A long argument over the point resulted in Mr. Delmas withdrawing any "Ordinary" branch. In that branch out of a total issue of nearly \$2,000,000 few words to what had been so well further questions as too the tests and over \$1,750,000 was Endowment Insurance. Such business will undoubtedly said by the Premier. Mr. Kidd came of his contenting himself with asking Dr. prove most satisfactory both to the Company and to its policyholders a family of strong characteristics and Wagner for his opinion upon the hypo-Of the Endowment business just referred to, the great bulk of it consists

of Reserve-Dividend Policies under which, practically, profits are apportioned man whose views were thoroughly hensive resume of the entire case, inable to place and set aside the reserve on so large a proportion of its new business on this plan out of the current year's earnings indicates a condition of affairs that is most promising for the future welfare of the Company. The amount of new business for the year, computing the Industrial

business on the usual basis adopted by Industrial Companies, is \$3,918,701, or \$530,927 more than shown in the Directors' report. On the same basis the total Insurance in Force would be \$11,178,225, or \$801,869 more than that represented. The method of dealing with this matter does not in any way affect the valuation of the policies.

EDWARD E. REID, B.A., A.I.A., Actuary. The President, Mr. John McClary, in moving the adoption of the

I have much pleasure in presenting the thirty-second annual report of the Company for your approval. The Directors' report and accompanying financial statement are, as

usual, sufficiently full and clear to be readily comprehended. that his act in killing Stanford White You are aware that by an order of the Governor-General-in-Council, was wrong. Here the expert's direct passed in February of last year, a Royal Commission was appointed to examination ended and he stepped inquire into the business of life insurance in Canada.

The personnel of that Commission and the manner in which they discharged their duties are matters of public record. In common with other life insurance companies of this country, the affairs of the London Life Insurance Company were duly inquired into.

It was highly gratifying to myself and my co-directors, and, I am sure, equally so to the shareholders and policyholders of the Company generally, that notwithstanding the very searching inquiry that was made into the Company's affairs, not a single discreditable transaction was revealed. On the contrary, it was most conclusively shown that the business of the Company has been conducted in an honorable manner, and with proper regard to the interests of all persons concerned therein, and that the Company was all that it claimed to be in every particular.

The principal newspapers of the country took a deep interest in the work of the Commission, publishing very full reports of the evidence adduced, and, while freely censuring whatever seemed to be out of harmony with sound practice and fair dealing, were likewise disposed to give credit when credit was due. In this connection the London Life not only escaped censure, but received many very flattering press notices from all over the country on the outcome of the investigation into its affairs. That in a year in which the public mind regarding life insurance was

Bears the Signature Chart Helitairs naturally a good deal disturbed, the Company was able to not only hold its own, as compared with former years, but show large gains in new business and total insurance in force, as well as in premium receipts and other Don't encourage gossips; they talk income, speaks well for the confidence in which the Company is held by calls unpaid was \$8,090. The original better for a little hold-offishness, any- the insuring public, and also for the solid manner in which the business of the Company is being built up. With these remarks, I have much pleasure in moving the adoption of

the report. The Vice-President, Mr. A. O. Jeffery, K.C., LL.D., D.C.L., in seconding

the adoption of the report, said: Having regard to the special conditions referred to by the President, the

large increase in new business written and the total insurance in Birthday candles throw too much force at the close of the year, as shown by the report, is undoubtedly very light on the subject to suit grown satisfactory. The increase in the amount of new business over that of 1995 Dr. Chase's Ointment is a certain and guaranteed cure for each and every for m of itching, bleeding (the larget previous issue), is \$1,026,868, or 44 per cent, and the increase in the amount gained is \$354,000, or 39 per cent. It is gratifying to note that these increases have been shared in by both the "Industrial" and "Ordinary"

The scale of profits in force under the present with-profit rates in the "Ordinary" Branch has been maintained and the estimates issued in 1900 have been fully realized. Many letters received testify to the satisfaction of our policyholders, and the record established has also been a source of great encouragement to our agents. The rate of interest earned on the investments continues to improve.

and without taking credit for any Head Office rental the rate realized during the past year was 5.78 per cent. The wide margin between the rate of interest required to be earned on the reserves and the actual rate earned, insures a large profit in the future.

Although the present reserve standard was adopted only seven years ago, over 70 per cent of the "Ordinary" business is now on a 31/2 per cent interest basis, and nearly 60 per cent of the "Industrial" business is on a 3 per cent basis. The remainder of the business is valued on a 4 per cent basis, as shown in the report of the Actuary, and the Company is gradually Take good care of your family, and accumulating a sufficient extra reserve to place this business on a higher basis

BICKLE'S Anti-Consumptive Syrup is agreeable to the taste, and is a certain relief for irritation of the throat that causes hacking coughs. If used according to directions it will break the most persistent cold, and restore the air passages to their normal healthy condition. There is no need to recommend it to those familiar with it, but to those who seek a sure remedy and are in doubt what to use, the advice is—try Dickle's Syrup. without in any degree disturbing the financial position of the Company. The report was adopted unanimously. A hearty vote of thanks was tendered the Agents and other employes of the Company for the very efficient and satisfactory manner in which they discharged their several duties during the past year.

The following Directors were re-elected for the current year, viz.: John McClary, President; Mr. A. O. Jeffery, Vice-President; Wm. Bowman, A. S. Emery, W. F. Bullen, George C. Gibbons, Thomas H. Smallman, T. W. Baker and Judge Bell.
