Alaska Miner" Gives Good Advice to Those Bound for the Gold Fields.

Is by No Means a Pleasure Trip, But Toilsome and

"A careful examination of the crowd the deck of an incoming steamer will veal the fact that there are many nongst them who have no idea of the nitude of the journey that awaits em before their eyes rest upon the disict for which they are bound.

'We have from time to time warned ose who intend to make the trip that ere was nothing to be gained by startg too early, and it is with a knowledge the suffering it will entail if these sugstions, given in good faith, are disre-rded, that at the risk of repetition we

If the control of the er is susceptible to navigation, it is a vident proposition that, allowing ne for the ice to travel down the river ter it first breaks up, the opening of twigation dates from the time the river aks up in Behring sea.

Experience of the past few years oves that by about May 15 Lake Linnan, the first lake across the sumt, is open for navigation. It will take ew hours to make the trip to Lake nnett, about nine miles, at which ace it is necessary to make a portage, ere is a small stream between Linderulders navigation is unsafe. Compe-nt boat-builders with the experience essary to build boats suitable for ikon navigation are established there e outfit can be put on board, and en assisted by a current of from two ten miles an hour the journey to the

What will be the experience of those o have started now? being obtained at this very moment a thousand men who are toiling over trail from Dyea to Lake Linderman. far as we can learn a large proportion those who came from be angers to the country, and some om who have never known what it is cross a mountain range in the winter, we only taken supplies to last for two three months

What position will these men find mselves in when travel over the ice tomes impossible, and they are com-led to suspend their journey until In the first place the delay occaned in crossing the summit will make at inroads in their slender outfit, but will not be a circumstance to the enr mode of travel will be changed from inter sled to a summer boat or raft. How many of the men who are now their way know anything at all about s? We venture to say that there are dreds who think that they can go ching down the river to the Klondike the ice, and be comfortably encamped some gold-bearing stream before the ter breaks up. This is all a delusion, if they had spent a little time in versation with men here who have de the journey many times, both in ter and summer, this illusion would

been dispelled. Then, again, what provision have y made for building boats or rafts? y cannot tell at what moment they be compelled to abandon their When the Yukon commences to ak up it breaks up very quickly, and rienced men who know the cor who prefer to start early over the ow just where they will make a p during the interim between th ing of winter traffic and the opening there are certain places on the rivhere good timber may be had, and such spots that these e for when they get over the sum-

trom a flood of the lower Japanese into this country than from a flood of Chinese. Of course in some respects the Japanese were much more go-ahead than the Chinese, but they were not to be so depended upon. He must not be taken as defending Chinese immigration in saying that. He simply desired to point out that if there was a flood of cheap Japanese labor British Columbia would be in a worse position than if the province was flooded with Chinese. The resolution was so carefully worded that he thought it could do no harm and it might prove to be of much good, as it would strengthen the hands of the Dominion in effecting such regulations exerciting immigration of the above. minion in effecting such regulations restricting immigration of the char-acter complained of as would prove from communications he had had with tion. They felt that emigration from their country to Canada could be regu-

The amendment was carried by 19

the provisions of that act. He moved the adjournment of the debate until the return dealing with this matter was printed and in the hands of hon. members. The adjournment was agreed to. The Revelstoke Waterworks bill (Mr. Kellie), and the Grand Forks Power and Light Company's bill (Mr. Helmcken) were read a third time and passed.

The Greenwood City Water Company's bill, and the Cumberland and Union

60 cents an acre very low. In some cases 60 cents an acre very low. In some cases now they paid \$2 per acre. The total cost, including the original cost of the debentures, would be about \$450,000. Some hon, members might think it strange

Japanese merchants and officials, that that a measure so important as this was not considered earlier in the session. They felt that emigration from the first that emigration from the session. The bill was ready as far as the government to that emigration from their country to Canada could be regulated by themselves, so that if this was done and regulations were made the province would not have to face the difficulty of being flooded with the lower elements of Japanese labor. He gladly and willingly supported the resolution.

The resolution was carried unanimously.

In the bill was ready as far as the government the government of the bill was ready as far as the government of the beginning of the session, but owing to certain conditions with respect to the holders of this debenture it was unwise to publish the ideas of the government. In one case an option was held on some of the debentures. It was held up to April 10, but had not been taken advantage of, and now they were in a position to place the bill before the house. He thought ject. He would support the amend-

PROVINCIAL LEGISLATURE.

Third Session of the Seventh Parliament.

FIFTY-FOURTH DAY.

WEDNESDAY, April 28, 1897.

The Speaker took the chair at 2 o'clock.

Prayers were read by the Rev. D.

Macrae.

Major Mutter presented the twelfth report of the printing committee regarding documents ordered to be printed.

The smendment and the report was adopted. Set the flat with the second of the Notions of the province. The law as the farmers on Lower Fraser eithered from too mich had selected more than, at most, ten years from April 8, 1893, the furthest date at which, by the report of the printing committee regarding documents ordered to be printed.

The Remendment and the report was adopted. Set the flat with the west of the upper country suffered as much from want of water as the farmers on Lower Fraser eithfred from too mich had selected. Mr. G. A. Kirk to fill the Nelson and Fort Sheppard Subsidy Act, 1892, section 3, the lands were to be selected. The report was received.

Hon. Premier Turner presented.

The managing committee of the Victoria Stock Exchange of British Co-into a scheme that would in the government of the province. The law reports at the farmers on Lower Fraser eithfred from too mich which by the report of the printing committee of the Victoria Stock Exchange of British Co-into a scheme that would in the province. The law reports at the farmers on Lower Fraser eithfred from too mich which was a member of the committee, water. It was then acconsistent from the mich and the water. It was then acconsistent from the mich and the water. It was then acconsistent from the mich and the water. It was then acconsistent from the mich and the province of the unimals to about a from the province. The Lower Fraser eithered from the province of the unimals to about a from the province of the pr

become a free miner shall, as regards his mining property and liabilities con-tracted in connection therewith, be treated as of full age. A free miner's certificate issued to a joint stock com-pany shall be issued in its corporate name. A free miner's certificate shall

not be transferable."

Mr. Smith said such a clause would very much hamper the mining industry.

Hon. Col. Baker opposed the proposed section as being directed against Amerisection as being directed against Americans, who had done so much to open up and develop the mines.

Hon, Mr. Martin agreed with the remarks of the Provincial Secretary.

American citizens had shown great en-

terprise in prospecting and taking up claims. If the United States had adopted an alien labor law it would be a very small policy on our part to follow their example.

American Rheumatic Cure Will Remove it Quickly—A Lady of Highgate Tells What it Did for Her—Permanent Cure

of a Case of Years Standing. Kellie), and the Grand Forks Power and Light Company's bill (Mr. He'mcken) were read a third time and passed.

The Greenwood City Water Company's bill, and the Cumberland and Union Water bill were read a second time and passed through committee and reported complete.

The Kootenay Electric Company's bill was read a second time and partially considered in committee.

The Fairview Power, Water and Telephone Company's bill (Mr. Graham) was read a second time and considered in committee, Mr. Macgregor in the chair.

The bill was reported complete without The bill was reported to be undertaken by municipalities. The municipality of Dewdney was still harder. Those scheme as remedy. The difficulty is to always find the remedy. In rheumatic Cure has been found a certain antidote for this painful disease. It is always effective. Mrs. N.
