Gossip From Chicago.

Kennett, Hopkins & Co. to R. Cochran: The opening was easier on lower cables, fine weather in Northwest and liberal receipts at primary markets. All day long the market seemed likely to break down, touching 98c for Dec. several times, but about 20 minutes before close the old story of the prohibition by Russia of maize exports was fung into the pit and set on fire, as it has done on several occasions heretofore. There is a prevailing dread of being caught short. Hence even those who ridiculed the rumor were just as anxious to get back their wheat as those who accepted and believed it. We do not credit the report and its frequent repetition without any apparent foundation has worn it threadbare. It will probably continue to do duty while it as served the condition about the same as before, except that yield of rye in Germany and wheat in Austro Hungary and Bulgaria is turning out better that expected. Clearances at seaboard are quite liberal and a moderate amount of new exporting and an of the opinion that considerably lower price must resultat ne distant day.

Counselman & Day to J. J. Dixon & Co.: Whe opened dull and easy, reflecting tone of cable as one of cable as a considerably lower price.

Henry Allen to J. J. Dixon & Co.: The market is, to-day exhibited about the same features as upon the recent prior days. Encouraged by a report that the Bank of England directors had concluded not to change the rate of integes, the bulls took a hand in the game and succeeded in putting prices up a fraction, but later they fell off, and at the closing hour nothing had been gained. In London the rumors of a change in the tank rate hal an even more depressing effect, but the fact that the rate was continued at 3 per cent. will unquestionably buoy the market up for another week! Important events seem to be impending calculated to awaken interest or which have a tendency to elevate or depress stock values. Certain causes are at work, it is true, which will work out their
