## About Values

Our home and foreign buyers are men of wide and tested experience, who are thoroughly acquainted with American and European manufacturers and accustomed to purchasing in wholesale quantities at lowest possible prices.

Our own shapes, trimmings and ready-to-wear hats are bought at exactly the same prices as are paid by other Canadian wholesale houses. In this way we save an average of onethird on our requirements, and this saving is positively handed on to our retail customers.

The most satisfactory way for you to know and appreciate just what this will really mean to you is to compare values. Then you will see for yourself that our prices are just as attractive and tempting as our distinctive and becoming styles.
