

WOMAN'S BEST MEDICINE

Mrs. Kelly Advises all Women to Take "Fruit-a-Tives"

HAGERSVILLE, ONT., AUG. 26th, 1913.

"I can highly recommend 'Fruit-a-tives' because they did me an awful lot of good and I cannot speak too highly about them. About four years ago, I commenced taking 'Fruit-a-tives' for a general break-down and they did me a world of good. We bought a good many dollar's worth, but it was money well spent because they did all that you claim for them. Their action is so pleasant, compared with other laxatives, that I found only pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women, on account of their mild and gentle action, and I trust that some other women may start taking 'Fruit-a-tives' after reading my letter, and if they do, I am satisfied the results will be the same as in my own case."

MRS. W. N. KELLY

"Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size, 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

COUNTY OF LAMBTON

Treasurer's Notice as to Lands Liable for Sale for Taxes A. D. 1914

TAKE NOTICE that the list of lands in the County of Lambton liable for sale for arrears of taxes by the Treasurer of the County has been prepared by me and that copies thereof may be had in the office of the County Treasurer.

And further take notice that the list of lands liable for sale as aforesaid is now being published in the Ontario Gazette in the issues thereof bearing date the 27th day of June A. D. 1914, and the 4th, 11th and 18th days of July A. D. 1914.

And further take notice that in default of payment of the taxes in arrear upon the lands specified in said list together with the costs chargeable thereon as set forth in the said list so being published in the Ontario Gazette before the day fixed for the sale of such lands being the 1st day of October A. D. 1914, the said lands will be sold for taxes pursuant to the terms of the advertising in the Ontario Gazette.

And further take notice that this publication is made pursuant to Assessment Act, 4 Edward VII, Chap. 23 and Amendments.

Dated at Sarnia this 22nd day of June A. D. 1914.

HENRY INGRAM, Treasurer of Lambton.

Professional Fees

Four men, a lawyer, a doctor, a banker and a newspaper man, sat down to play a quiet little game of poker in the doctor's apartments, not far from seventy-second street and Broadway, a few nights ago.

During the game the banker, who had a sore throat, asked the doctor to recommend a cure. The doctor obliged, and then reaching over he took a blue chip from the banker's pile and added it to his own.

"What's the idea?" demanded the banker.

"My usual fee for medical advice," replied the medical man.

A few minutes later the doctor asked the lawyer a question involving a point in law. The lawyer rendered an opinion. Then reaching over he helped himself to a blue chip from the doctor's stack.

"My legal fee," he explained.

It was now time for a little refreshment.

"Just leave your cards and chips where they are," said the doctor host, "and we'll adjourn to the buffet for a bite to eat."

When they returned to the card room to resume their game the doctor calmly helped himself to the three blue chips from the lawyer's stack.

"What's the idea now," inquired the lawyer.

"That's for the cocktail," said the doctor. "You can't come around to my house charging for legal advice and expecting refreshments gratis. You've got to pay for what you drink."

And the next morning the lawyer appeared at the doctor's house with an officer and had the doctor arrested for selling liquor without a license.—New York World.

Pills of Attested Value.—Purmelee's Vegetable Pills are the result of careful study of the properties of certain roots and herbs, and the action of such as sedatives and laxatives on the digestive apparatus. The success the compounders have met with attests the value of their work. These pills have been recognized for many years as the best cleansers of the system that can be got. Their excellence was recognized from the first and they grow more popular daily.

At the Kingston district meeting of the Montreal Methodist Conference a resolution was passed declaring that the war entered into by the triple entente is a righteous war, inasmuch as it is a struggle for national existence. The meeting offered prayer that success might come to the armies of the triple entente, and that officers of the British army might have courage and fortitude to complete victory.

All Around The Farm

YOUNG WOMEN ON FARMS.

Every Daughter of the Farmer's Family Can Be of Material Help.

From Bulletin of New York State College of Agriculture.

We know that there is a large amount of work to be done in the farm home, but farmers' daughters in this country are very brave and capable and ready to lend a hand. As a general thing, the young woman has it in her power to make her work all drudgery or she can transform it into a pleasure. How to do this is for her to study out.

It used to be believed and said that the business of the farm ought to be wholly in the hands of the farmer and his sons. It is now understood that the work in the house is an essential part of the farm business, and that in the remainder of the labor of the farm the wife and the daughters have just as keen an interest as have the father and the brothers. Moreover, many a woman is nowadays undertaking the operation of the farm itself and is making good too.

It is quite possible to believe that every daughter can grow to be an aid to her father in his business as a farmer, and that gradually she may enter

THE YOUNG WOMAN ON THE FARM.

into full responsibility for some part of the farm business, or that perhaps if it should ever be necessary for her to do so, she may become a successful manager for all the activities of a farm.

In the farm home of early New England days the labor of the women included not only all the common work that falls to the hands of women in the present day, but also the spinning and weaving, the dyeing and fulling, the dressmaking and tailoring, the candle making and soapmaking and many other industries that now, along with those mentioned, have gone out of the farmhouse and taken up their abode in the factory. In those days the hands of the women were full of wage earning labor.

Today also there are many women, and especially young women, who feel that they need some addition to their earning opportunity, and to these many doors are now opening. The revival of our ancient industries offers an alluring prospect, although this may not be the most practical field.

Is it not generally the most sensible thing to take the opportunity that stands by one's own garden gate? Why not, then, make a careful study of the farm conditions right at hand in order to find out whether there may not be some fruit or vegetable product going to waste that can be utilized by the excellent modern methods of canning and preserving, so that the family may be economically supplied with delicacies all the year round, and some extra quantities may be sold that will bring a good income? Something like this should be possible for any energetic and capable farmer's daughter.

There are now over 6,000,000 country girls in our land. Does it not look as though this body of eager, buoyant young women might add something valuable to the welfare of our rural life?

Potatoes From Maine.

The United States department of agriculture has adopted new quarantine regulations for shipment of Maine potatoes. This is to prevent the spread of powdery scab. The new rules went into effect Aug. 1. The regulations

provide that no potatoes shall be moved from any quarantined area unless they are duly certified as fit for either table or seed use and are packed in accordance with certified rules. To obtain the necessary certificates for shipments growers must apply for inspection by a federal inspector, and all potatoes intended for seed use must be stored and handled according to certain prescribed methods. Lots in which any of the potatoes are found to be infected with powdery scab or any similar disease will not be certified under any circumstances for seed use. They may, however, be certified for table use after the diseased potatoes are removed and destroyed.

DO YOU USE FACE POWDER?

If You Do Be Careful to Keep It From Getting In Your Eyes.

Face powder has its dangers the same as gunpowder. For several years occasional cases have come under the observation of oculists in which the patients, invariably women, complain of vision being blurred, inability to use the eyes for any length of time and severe itching of the lids. The slightest rubbing of the lids produces a marked redness of the eyes and only aggravates the itching. In severe cases the lids are frequently swollen from constant rubbing. There is a sticky, elastic secretion which, when being removed, pulls out in long strings.

Microscopic examination of the secretion reveals masses of what appear to be crystals. Until recently no satisfactory explanation of the presence of these crystals in the eye has been given. Secretions taken from the eyes of two sisters suffering from this peculiar complaint were submitted to the professor of pathology of one of the university medical schools, who found that the crystals came from face powder. Seven other patients in which the same symptoms and microscopic conditions were found all used face powder.

When the powder is applied to the face with a puff a part of the fine dust is driven upward and lodges on the moist eyeball. The powder in the presence of the tears then becomes mucilaginous in character and is not washed from under the eyelids. The powder produces the irritation, which is aggravated by rubbing. Those who use a chamol skin in applying the powder are less liable to cause the fine dust to arise, which probably accounts for the condition not being found in every woman using face powder. The condition is quickly relieved by flushing the eye with boric acid solution. The irritation rapidly disappears when the eyes are kept washed out with a soothing eye wash.—From Journal of the American Medical Association.

TIME IN PALESTINE.

It is So Erratic That Making a Train Is Quite a Feat.

In Jerusalem town time and train time are different, forty minutes different, and both are variable. Train officials say the train leaves for Jaffa at 6:40 o'clock in the morning, but 6:40 o'clock by train time is 7:20 o'clock by town time. One morning when we were starting for Egypt we ordered our carriage for 7 o'clock. Arriving at the station at 7:15 o'clock, we found the train gone and the station empty. At last was routed out an official.

"Where's the train?" we demanded.

"Gone, messieurs."

"Gone? You've changed the hour of the train, then?"

"Non, non, messieurs. The train leaves at the same hour always, but the time has changed. Yesterday 6:40 o'clock train time was 7:20 o'clock town time. Today 6:40 o'clock train time is 7 o'clock town time. No, no"—and he smiled patronizingly—"the train always leaves at the same hour; our trains never change—it is the time that alters itself, not the train, messieurs!"

We sought the telegraph office.

"To the steamer agent to Jaffa," we dictated. "Missed train. Cancel passage on boat for Egypt. Wire date of next sailing for Port Said." This was turned into flowery Turkish and sent. A reply came soon.

"Plenty of time. Your boat will wait till tomorrow afternoon, for the water is so rough she cannot land her passengers and cargo today. Plenty of time if you take the train tomorrow."—Atlantic Monthly.

Impudent Thieves.

The lepro of Mexico is reported to be one of the smartest and most impudent thieves in the world. Brantz Meyer tells of an English traveler, who, within an hour or two, in the principal streets of Mexico, had first his hat hooked from his head by a line from an upper window, and was then accosted by three lepers who divested him of his coat. The three bade him wait, and within a few minutes one returned and handed him a pawn ticket.

"We wanted \$30, not the coat," he explained. "Here is the ticket with which you can redeem it for that sum."—London Mail.

Strength and Beauty

Come With Dr. Pierce's Golden Medical Discovery

This is a blood cleanser and alternative that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and strenuous instead of tired, weak and faint. Nowadays you can obtain Dr. Pierce's Golden Medical Discovery Tablets, as well as the liquid form from all medicine dealers, or trial box of tablets by mail, on receipt of 50c. Address R.V. Pierce, M.D., Buffalo, N.Y.

Dr. Pierce's Great 1008 Page Illustrated Common Sense Medical Adviser will be sent FREE, Cloth Bound for \$1 One-cent Stamps.

GEORGE CHAMBERS

Surprise For Both.
John Burns once paid a visit to a London lunatic asylum. He was taken all over the establishment, and finally arrived at the gardens, where a number of patients were working. Mr. Burns espied among them a man with whom he had some slight acquaintance and was about to speak to him when the lunatic suddenly exclaimed: "Well, I never! You, too! The very last person I thought to see here."—London Citizen.

Use For His Photograph.
Miss Wyse—And I may really keep this photograph of you, Mr. Simpkins? Simpkins (flattered)—Delighted, I'm sure! Miss Wyse (later to her maid)—Marie, take this photograph and whenever the original of it calls tell him I'm not in.

Facing the Problem.
Father—What! You want to marry my daughter? Why, sir, you can't support her. I can hardly do it myself. Suitor (blankly)—C-can't we chip in together?—London Opinion.

Suitable Match.
"That girl has shocking ways!"
"Maybe that's the reason she married an electrician."—Baltimore American.
