Toronto, May 15.—The run at the City Cattle Market today was 62 loads, with 1,084 head of cattle, 95 sheep and lambs, 450 hogs and 285 calves. The night run to-day steadied the market, and prices held just about at last week's level, with a lower tendency at the close of the market. At the same time there was some good prices paid for anything nice, and some fairly well finished export cattle sold at \$5.10, and choice butcher cattle sold at \$4.50 to \$4.75. While these prices show that cattle were no cheaper this week, the steadiness was perhaps altogether due to the lighter run. There would have been a draggy feeling in the butcher market but for the fact that there were a few buyers in from outside points, and these took away surplus that there might have been. A consignment of seven loads of cattle from the Northwest arrived on the market to-day. Among these were some good heavy cattle, weighing in the neighborhood of 1,400 lbs., and this weight down to 1,000 lbs. The lot averaged \$4.45.

Sheep and lamb market firm. Hogs—Market is steady at last week's decline. Export quiet and steady, at \$4.80 to \$5.10; medium export sold at \$4.75 to \$4.85.

Good short-keep feeders, \$4.75 to \$4.80; market quiet. Butchers—Choice picked butcher cattle, \$4.50 to \$4.75; medium heavy butchers at \$4.50 to \$4.60; mixed lots and cows at \$3 to \$3.50; common canners at \$1.50.

Heavy feeders—Good and heavy feeders at \$4.50 to \$4.65. Light stockers—Steady; \$3.50 to \$3.90.

Sheep and lambs—The market is steady for yearling lambs; export ewes are steady to firm. Spring lambs, firmer, at \$3 to \$6.50.

Calves—Good run; market steady; prices range from \$3 to \$6. Hogs—Market weaker; selects, \$7.

Milch cows—Good market for heavy milkers; choice, \$50 to \$60; common, \$30 to \$35.

NERVOUS CHILDREN.

St. Vitus Dance, Neuralgia and Headaches Common Among School Children.

St. Vitus dance is a disease that is becoming more and more frequent among school children. Young people tire the nerves with study and the nerves cry out. Sometimes the trouble takes the form of neuralgia headache, nervous exhaustion, weakness of the limbs and muscles, and what we call being run down. In other cases St. Vitus dance is the result, and the sufferer frequently loses all control of the limbs, which keep up a constant jerking and twitching. There is only one way to cure this trouble—through the blood which feeds and strengthens the nerves. And Dr. Williams' Pink Pills are the only medicine that can make the new rich, red blood that feeds the nerves and strengthens every part of the body. The case of Flossie Doar, of Crowland, Ont., proves the value of Dr. Williams' Pink Pills. Mrs. Doar says: "A couple of years ago my daughter Flossie was dangerously afflicted with St. Vitus dance. She became so nervous that after a time we could not let her see even her friends. She could not pick up a dish, lace her shoes, or make any movement to help herself. She had grown thin and very pale, and as she had been treated by several doctors without benefit I feared she would not recover. A friend advised me to give her Dr. Williams' Pink Pills and after she had used a couple of boxes I could see that they were helping her. We gave her nine boxes in all, and by that time she was perfectly well, and every symptom of trouble had passed away and she is now a strong, well developed girl."

If your growing children are weak or nervous, if they are pale and thin, lack appetite or complain of headaches or backaches, give them Dr. Williams' Pink Pills and see how speedily the rich, red blood these pills make will form them into bright, active, robust boys and girls. You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Co., Brockville, Ont.

POWER FROM ST. CLAIR.

Samuel McClure invents a Wheel Which He Believes will do the Business.

Electric power is in the air; for the past couple of months it has held a conspicuous place in every newspaper of the province and has been the subject of debate in the local house the past week, and while power from Niagara is in the minds of the public generally, there are citizens in Sarnia who even have great faith in the rapids of the River St. Clair at Point Edward as a motive power.

Hon. Adam Beck, when he was here promised to have an engineer report on this and at last council meeting Mayor Barr announced that Mr. Beck would send the engineer to Sarnia very shortly.

Samuel McClure, who lives near Watford, has an inventive instinct, and was to-day this week with a model wheel, which would operate in any moving current, and which the inventor had confidence would do the business in the rapids. The wheel was boxed, as it would have to be put down in the river, and had pumps attached. It was different from the ordinary water wheel in many respects and machinists who examined it had no doubt it would operate, but the great difficulty that confronted its success was the enormous sum of money required to place it. Another difficulty that arises is the large amount of ice that passes this point in the winter time, and the rising and falling of the water with the changes of wind would also effect it.

No doubt these obstacles toward its operation could be overcome, and it is understood that Mr. McClure has the apparatus patented and will have his model in Sarnia to show the government engineer upon his visit here.—Sarnia Post.

Death of Henry Taylor of Plympton.

Another old resident of Plympton has passed away in the person of Henry Taylor, a pensioner from the American War, who died last Sunday evening. He was in his 74th year and had been a cripple for years. He came to this country about 45 years ago and stayed around Plympton for a time. He then went to Port Huron and enlisted in the Michigan volunteers. After the war, he returned to the sixth line of Plympton making his home with Samuel Dobbin, with whom he was at the time of his death. Mr. Dobbin moved to Forest a few years ago, accompanied by the deceased, where he made his home on McNab street. Deceased had never been sick, and though disease set in at the last, yet he might be said to have just slept away the end came so quietly. The funeral took place Monday afternoon from his late residence to Beechwood cemetery, the Rev. A. L. Beverly conducting the services. The bearers were Donald Anderson, I. Pickering, T. Shay, D. Kenzie, G. Proctor, and John Garrett.—Forest Free Press.

Directors—M. Kidd, D. Smith, Bosanquet; J. W. Symington, Plympton; T. Ballantyne, jun., and M. R. Brown. Western Fair Representatives—J. E. Isaac and J. A. Nelles.

The offerings of cheese were very small, the meeting being the first of the year, and there were no sales, though 10 cents was bid. The Lyons factory offered 60 boxes of colored, Malahide 60 and Aylmer 50.

Accident on the Grand Trunk Near Princeton Saturday Night.

An accident that delayed traffic on the Grand Trunk happened Saturday night near Princeton.

A freight train was going east, when the hose pipe, connecting the air between the cars broke, setting the emergency brakes so fast that the cars were thrown completely off the track. Five empties and two loaded cars were derailed. One car contained coal, and another cement. The accident happened in a cut on the single track between Paris and Lynden, and blocked that section of the road for several hours, during which trains were sent around by another route. The loss is estimated at \$500.
