## THE HYAGINTH.

HYACINTHS are among the most beautiful of winter or early spring-flowering plants, adorning alike the parlor, the green-house, and the garden, with their delightfully fragrant blossoms of various colors and tints, at a season when few other plants are in flower. They are also among the most easily cultivated. They are also among the most easily cultivat-ed, growing either in sand, moss, water, or earth, in pots, glasses, or taskets, producing in either as beautiful spikes of flowers as when growing in the open ground.

A splendid stock of Hyacinths and other Bulbs,
