**Canadian National Apple Show**

(Kentville Advertiser, Sept. 2nd.)  
The first Canadian National Apple Show will be held in British Columbia, commencing October 31st. It speaks well for the energy of our Pacific Province that it has taken the lead in this national movement of supreme importance.

The inception and success of this show depends in a great measure upon Mr. Maxwell Smith, Editor of the B. C. Fruit Magazine, who is manager of this show and by his enthusiasm in the work is getting other provinces to make large exhibits.

On Monday, Mr. Smith arrived in Kentville by Bluenose from the west, having but a short time at his disposal here, an impromptu gathering of men interested in fruit was held at the Hotel Aberdeen between Mr. Smith and Secretary S. C. Parker, of the N. S., F. G. A., Mr. R. W. Starr, Wolfville, R. S., Eaton, Judge Chipman, C. O. Allen, J. W. Ryan, President of Board of Trade, Editor, P. Footes and H. Harris, all of Kentville, Fred Parker, Berwick, J. L. Regan, Ottawa.

Mr. Smith immediately outlined his business, which was to interest these men in exhibiting at this National Show. He spoke of its importance, being held at a time favorable to show fruit, and buyers from all over the world would meet the growers there. While British Columbia was starting and financing this first show, it was expected that the next two or three national apple shows would be held East in Ontario and be hoped in Nova Scotia in about two years. If Nova Scotia sent a good exhibit this year, B. C. would return the compliment at a later show. He told what great things Spokane had done with their great apple show the past two years. It was a great success in everything except that it was better to hold a show in different places, and that was why he favored Canada in Nova Scotia at a later date.

British Columbia had placed a price of \$500 for a car load of Gravensteins, that was two hundred cartons, and was especially for Nova Scotia as no other country could compare with the valley in that variety.

Mr. Smith said he grew too many varieties here. Better make a specialty of about four varieties than to have forty. He believed there would be more money for the grower. Hood River district was practically growing only two varieties, but could grow all others well. These varieties they had established a reputation for and obtained the highest prices.

A general discussion followed among the fruit growers present and the situation summed up as to our chances to get a car load exhibit of Gravensteins. All were of the opinion that this year for the first time in our fruit history for many years, a creditable lot of gravensteins could not be found. Growers, who raised five hundred barrels of gravensteins last year stated they could not get one barrel of exhibition apples of the variety in their orchard.

The members of the Executive of the N. S., F. G. A., present, decided to do all possible to arrange for an exhibit in five and ten box-lots in different articles, to make an attempt toward getting a car load of exhibition gravensteins. Capt. C. O. Allen was appointed to look over the county and see if such could be obtained.

We understand that Capt. Allen has searched many orchards and finds the gravensteins so poor, spotted and russeted that in large orchards he was not able to find even one prize apple.

DEGRADING BOOKS.  
Minds fed up on degrading books will turn to degrading thoughts inevitably. "I do love murders," a boy says after reading the popular papers. Who is responsible for this state of mind in the young? The blame can not be laid wholly upon the editors. They, in many cases, give what the people want to read. The tone must be changed quite as much by the readers as by the editors.

If we want to put a stop to bad books or papers we must begin with ourselves. Never read a book or part of a paper about which we should not care to think afterwards. One who feeds his mind upon degrading things does more harm to others than if he took everything that came his way to eat and ended his life.

Mental poison will not die of itself. We need a mental anti-toxin to counteract the effects of immoral literature.

We need to read helpful and inspiring books, telling of men of high ideals.--Bishop Taylor-Smith, at Church Congress.

Keep Minard's Liniment in the house

**Anti-Tuberculosis Notes**

Those who have been following the work of the anti-tuberculosis league the world over, and who know such of the present movement has been inspired by the results achieved by Dr. R. W. Philip, of Edinburgh, will be gratified to learn that the Cullen Victoria Jubilee prize of the Royal College of Physicians, of Edinburgh has been awarded to Dr. Philip in recognition of his contributions to the knowledge of tuberculosis.

The death rate from pulmonary tuberculosis has fallen fifty per cent in England during the past forty years. In New York city during the past twenty years it has fallen nearly forty per cent. During the ten years ending in 1902, there was a fall in the death rate from pulmonary tuberculosis and tuberculous meningitis in children under fifteen years of age in New York City, of over forty per cent. It has exceeded fifty per cent during a period of twenty years. In Prussia it was fifty per cent less in 1908 than in 1885. The fall in Boston Bayard, N. M., over for some years has been fifty-five per cent. In Edinburgh, during the ten years ending 1897 it fell nearly thirteen per cent, and during the following ten years to forty-two per cent. This is surely a splendid record, and we may expect the fall to go on during the next ten years at an even greater rate. Man's greatest enemy is fast disappearing.

The interest in the anti-tuberculosis movement is spreading and intensifying. It is no longer necessary for the private citizen to shoulder the whole burden of the work. In many countries, national, state, and municipal governments are showing an increased disposition to contribute liberally. Thus the United States government operates three tuberculosis sanatoria. One for soldiers and officers of the regular army, at Fort Bayard, N. M., one for seamen in the merchant marine and employees of the coast service, at Fort Stanton, N. M., and one for officers and men of the navy, at Los Angeles, Cal.

The first hospital is conducted by the United States Public Health and Marine Hospital Service, and the third by the navy department.

The city of Cleveland, Ohio, recently voted to issue bonds to the value of \$250,000 in order to establish a sanatorium for tuberculosis in that city.

"Can be depended upon" is an expression we all like to hear, when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy it means that it never fails to cure cholera, dysentery or bowel complaint. It is pleasant to take and equally valuable for children and adults. Sold by all dealers.

Some people are confounding the fall web worm and the forest tent caterpillar with the tussock. The latter does not spin a web in loughs but only a cocoon in some temporary shelter. The web worm, however, is a serious pest. On whatever part of the tree he operates the leaves will not appear again. Such affected branches should be cut off.

DUTIES.  
Not with crash of sounding cymbal, Not with charms of winsome beauty, Do our daily duties come. Stern, full of, and patience trying, Do they meet us on the way; Yet, if noble manhood have we, We are kings--our subjects they.

—Pastor J. Clark.  
Selena, Hants Co. N. S.

**CALEDONIAN CAUTION.**

My Flora is a canny Scot--  
Too canny, truth to tell--  
For though I'd have hit show my lot,  
She'll no commit herself!

I said: "Will you my sweet, cert ha?"  
She answered: "Hoots! You man!"  
I pressed her: "Do you care for me?"  
She said: "I dinna ken!"  
"What! Don't you know your mind?"  
I cried,  
She said: "It's warm the day."

I asked her: "Will you be my bride?"  
She said: "I couldna say."  
"Come lassie, shall it be this spring?"  
She cried: "Yours vera free."  
"Then tell me, may I buy the ring?"  
"Man! Please yourself," says she.  
Before the chancel steps we stood  
St. Giles Kirk tsel!

The parson asked me if I would;  
Of course I said I will.  
But when it came to Flo's reply,  
The nearest that she'd go,  
Was just to murmur cautiously,  
"I wouldna say I'll no."

EFFICIENT EQUIPMENT.  
A well-to-do housekeeper in need of the services of a plumber telephoned to a near-by establishment for a competent man. Answering the door bell she found a typical Irishman.

"Good mornin', ma'am," said he.  
"Good mornin'. Are you the plumber?"  
"O' am."

"Now," she said, "I want you to be very careful in your work, as the floors are all highly polished."  
"Sure, now," he answered, with a deprecatory smile, "don't worry about me, ma'am, I won't slip, I've got nails in me shoes."

A WORK OF TIME.  
"That's a beautiful girl you have in your store," said the man acquaintance. "I've seen her in the window several days as I passed."

"She isn't an employe," the milliner answered wearily. "She's a woman trying to decide on a new hat."

UP IN THE AIR.  
Doctor--"Young man, it will not do for you to stick in an office. You must get out coors--must have air. By the way, what is your occupation?"  
Patient--"I'm an aeronaut."

Miss Theodora Carter is establishing a branch of the Good Cheer Society in Toronto. The purpose of the Society is to spread cheer among the sick. The "good cheer girl" is becoming widely known throughout the continent for her good work. Her parents are wealthy Seattle society people, and she herself has a large fortune.

Valleyfield, P. Q., Jan. 25th, 1910.  
My wife has used Empire Liniment for herself and for my children for the past twelve months and she is more than satisfied of the results of this liniment. We have used it externally and it works quickly, is pure and penetrating and in our opinion has no equal.

**HEAD BLOWN OFF.**

Gun Exploded While Prescott McLeelan, of Brookfield, N. S. Was Drawing Charge. Killing Him Instantly.

Halifax, Aug. 31st--A shocking accident occurred this evening near Brookfield by which Prescott McLeelan, twenty-six years of age, lost his life.

In anticipation of the arrival home of an elder brother, who resides in Montreal, the young man was engaged in cleaning a gun in order that they might go hunting.

He had cleaned a rifle and remarked to a younger brother that he thought he would have time to clean the double barreled gun before tea, and went upstairs to do so. Shortly afterwards the report of a gun was heard. His brother rushed upstairs and found him lying on the floor with a gun needle in his hand and a great gaping wound in his head.

The force of the charge carried missile or missile through the roof of the house. It is believed he was drawing a charge from the gun when it exploded.

Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough appears, will prevent the attack. Sold by all dealers.
