Better, Cheaper, Stronger Than Wood

You can't put a better fence around your property than the Peerless Lawn Fence. It is neat and attractive—strongly and staunchly built. Made from heavy, No. 9 steel wire, well galvanized and coated with white enamel—will stand for years and cannot rust.

Peerless Lawn Fence

is handsome enough for city property and is strong and cheap enough for the farm. It will keep cattle out and stand up under the heaviest snow drifts. Peerless gates are made with an electrically-welded, solid frame—last a lifetime and always look and work well.

We make a full line of poultry and farm fences and gates.
Agents wanted. Write for particulars.

Tree Protected by Wooden Veneer and banked up with earth to prevent entrance of pests at bottom.

PROTECT YOUR TREES

Against Rabbits, Mice and other Vermin

Many young orchards are greatly injured each year by these pests. Wrap the trunks with

Wooden Veneers

and damage will be prevented. These veneers will protect also against sun-scald.

Some History about *Typewriters*

Modern and Ancient

CHAPTER I

SCIENTIFIC Typewriter operation was made possible by the Underwood.

THE Underwood was the first typewriter with the standard keyboard which made scientific and invariable fingering practicable.

ITS mechanical perfection is shown by the fact that it holds all records for speed; has won the World's Championship in 14 successive contests. It has been operated at a rate of 17 strokes a second and 130 words a minute for an hour's continuous writing.

THE Underwood has been the most effective agency in fostering encouraging and developing scientific typewriting, and in increasing the efficiency of typists generally.

ALL the best schools which teach typewriting use the Underwood exclusively.
