and Price List of the most complete
line of Coal and Wood Hot Air
Furnaces and Registers manufac-
tured in Canada.*

Years in advance of all others. The most economical, durable and powerful gas-tight Furnace made. Can be operated as self feeding or fed through the front door. Is fitted with New Dock-Ash gear Grate, the heat grate known as a simple turning of the lever absolutely clearing the fire-surface of all ashes and clinkers. Has large Ash-Pan, Sectorial Fire Pot, a deep sand joint at the hottest part, allowing for expansion, renders this the most durable pot made. The Iboiator presents five times as much surface to the action of the fire as ordinary furnaces, and can be more easily cleaned. This Furnace is made in six sizes, unequaled for efficiency, economy, ease of management, durability. Is corrugated and made very heavy. The flues are of heavy sheet steel (with cast iron ends and collar connections), well riveted together, so as to prevent the leakage of gas and smoke from unequal expansion and contraction. It has been largely in use for several years, and has never failed to give the most perfect satisfaction to purchasers, thus differing and entirely superseding all other wood-burning Furnaces heretofore made. Farmers who have a surplus of wood will find them a great relief from the vexation and annoyances of pulling down and setting up ordinary heating stoves and pipes, wood boxes, etc. We furnish the four larger sizes with either round doors, as shown on cut, or with extra large square doors.

This Furnace, made in six sizes, is unequalled for efficiency, economy, ease of management, durability. Is corrugated and made very heavy. The flues are of heavy sheet steel (with cast iron ends and collar connections), well riveted together, so as to prevent the leakage of gas and smoke from unequal expansion and contraction. It has been largely in use for several years, and has never failed to give the most perfect satisfaction to purchasers, thus differing and entirely superseding all other wood-burning Furnaces heretofore made.
