

slept more quietly at night. However, she was not entirely well. She left the city and I lost sight of her.—*Reprinted from The Kansas City Medical Index-Lancet, May, 1905.*

THE STAGE OF EXHAUSTION.

In the treatment of alcoholism and dipsomania, the physician is called to the case at the stage of exhaustion or prostration and a general derangement of nearly every function. Neurosis, cerebral congestion, cardiac acceleration, gastric and mesenteric disturbance, nausea, retching, intolerance of food, intense irritation, insomnia and an endless variety of morbid sequelae, require prompt attention.

It will be found that antikamnia in combination with codeia will give a most prompt and satisfactory response in relieving all the array of symptoms so distressing and usually so obstinate as to defy all ordinary therapeutical interference. The best method is to administer one Antikamnia and Codeine Tablet (antikamnia gr. $4\frac{3}{4}$, codeine gr. $\frac{1}{4}$) every fifteen minutes to a half hour, until three are taken, then widen the interval to one and a half to two hours, according to the urgency of the symptoms. Under this treatment the circulation will modify, the cardiac pains subside, the tremor, anxiety and morbid vigilance will give way to rest, quiet, calm and peaceful sleep. The nausea and vomiting, together with the irritable coughs which so frequently characterize these cases, will also disappear.

The superior results obtained with "Antikamnia & Codeine Tablets" are due, in a great measure, to the fact that the manufacturers refine and purify all of the codeia which enters into these tablets, and this prevents the constipation, depression and habit which frequently follow the administration of preparations containing ordinary commercial codeia.

BATTLE AND COMPANY'S PLATES.

This company has been issuing for some time a series of very handsome illustrations of the intestinal parasites. The seventh of the series is just to hand. The plate contains twelve figures of the *ascaris lumbricoides*. These beautiful illustrations will be sent any physician desiring them by the publishers, Messrs. Battle and Company, Chemists, St. Louis, Mo.
