Take six hope red peppers, slift them up, and holl their in three pints of strong binegar down to obe quart. Strain it, and bottle for use: It will keep for years.

NOW TO KEEP WARK.

One way not to keep warm is to drink freely of not drinks; to beep the paret of the skinks tend ; to dat more than the lace tightly; wear tight garters, tight sheet, tight gloves, and bundle up with "heaps" of warm clothing; wear muffiers around the neck, and avoid a breath of cool, fresh air; take wine or bitters before meals, and pills to aid digestion after eating. Do this daily, a month or more, and you will be as tender as a tropical house plant, and will take "dreadful colds" on the slightest exposure. Hot drinks just before going out are especially favorable to induce chills; and this is about the way many are trying to cheat nature and to prolong a miserable existence .- Science of Health.

ELECTRICITY! THOMAS' EXCELSION EC LECTRIC OIL!-WORTH TEN TIMES ITS WRIGHT IN GOLD .- Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured bronchitis. fifty cent's worth has cured an old standing sough. It positively cures catarrh, asthma, and croup. Fifty cents' worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most skeptical: J. Collard of Sparta, Ontario, writes, "Send me 6 doz. Dr. Thomas' Eclectric Oil, have sold all I had from you and want more now; its cures are traly wonderful." Wm. Maguire, of Franklin, writes, "I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iona, writes, "Please forward 6 doz. Thomas' Eclectric Oil, I am nearly out, nothing equals it. It is highly re-commended by those who have used it."

J. Bedford, Thamesville, writes—"Send at once a further supply of Eclectric Oil, I have only 1 bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodward, write.—"Send me some more Eclectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reed, Ulverton. P. A REPRESENTATIVE & CHAMPION OF AMERICAN ART TASTE! Prospectus for 1875-Eighth Year.

## THE ALDINE,

The ART JOURNAL of America. ISSUED MONTHLY.

"A Magnificent Conception WondOrfully earried out."

The necessity of a popular medium for the representation of the productions of cur great artists has always been recognized. Art. Bany attempts have been made to meet the wan. The successive failures which so invariably followed each attempt in this country to establish an art ournal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a great artistic and commorcial triumph -THE ALDINE.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellaney of pure, light and graceful literature; and a collection of pictures, the rearest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is found up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a usique and original conception—alone and unapproached—absolutely withou competition in price or character. The possessor of a complete volume can not duplicate the quantity of fine paper and engrevings in any other shape or number of volumes for ten times its cost; and then, there is the chromo, besides!

The national feature of THE ALDINE must be taken in no narrow sense. True art is cosmopolitan. While THE ALDINE is a strictly American institution, it does not confine itself entirely to the reproduction of native art. Its mission is to cultivate a broad and appreciative art taste, one that will discriminate only on grounds of intrinsic merit. Thus, while placing before the patrons of THE ALDINE, as a leading characterist c, the productions of the most noted American artists, attention will always be given to specimens from foreign masters, giving subsor

Besides the chromo, every advance subscriber to THE ALDINE for 1875 is constituted a member, and entitled to all the privileges of
