The married ladies of Hannibal, Missouri, have organized a "Come Home Husband Club." Broomsticks figure among the inducements to come.

During a late hail storm in Port Byron, Mass., a hail stone was found having a piece of moss in its centre. Another was found measuring eleven inches around.

measuring eleven inches around.

Milk is selling at a cent a quart in some parts of Minnesota. This price, says an exchange, will not pay for the wear and tear of a cow's tail in switching flies.

The laziest member of the race for which Mr. Sumner makes constant efforts, lives in Connecticut. He ties his fish line to his dog and when he gets a bits, kicks the dog.

and when he gets a bite, kicks the dog.

Prof. Agassiz has arrived at Panama, on his way homeward. He is amounced to appear at the August session of the American Association for the advancement of science

in Dubuque.

The following notice is posted conspicuously in a newspaper office out West:

"Shut the door; and as soon as you have done talking business, serve your mouth the

same way."
Somebody has discovered that in Charles Sumner's late letter to the coloured voters the pronoun "I" is used no less than eighty-seven times; and "me," "my," and "my-

self," double as many times more.

A worthless fellow fell the other day from the deck of a steamboat on the Mississippi, and was very nearly drowned. His saviours were astounded to hear him shout, as goon as he recovered breath, "Hurrah for Horace Greeley," and naturally discussed the question whether it were not best to throw him

Rev. George Harding, of Indianapolis, defends card playing by saying that "seven up" is a scientific game, useful as a discipline of the mind; while whist indicates the virtues of silence, as euchre teaches that which may be practically adapted to overy-day life, as, for instance, the folly of attempting to go it alone on a weak hand.

The credit system has been carried to a very fine point in some of the Tennesseerural

districts, if we may judge from the following dialogue, said to have recently, occurred between a customer and the proprietor:—"Haow's trade, Square?" "Wa'el, cash trade's kinder dull naow, Ma jor. Betsy Nipper has bort an egg's worth of tea, and got trusted for it till her speckled

pullet lays." Certain temperance tracts were lately placed in the hands of the convicts at the State prison in Auburn, N. Y., which it was hoped would have a good influence upon their minds. Soon afterwards a number of them were discovered in an intoxicated condition. It was found that they had made use of the analysis given in the tracts to show of what deleterious things liquors were compounded, and produced a kind of whiskey which "fetched" them. How they obtained

which "tetched" them. How they obtained the materials is a mystery.

The people of San Francisco are seriously alarmed because of the rapid filling in with mud by tidal deposits along the river front, in the eddies made by the angular form of the bulkhead. The harbour master has just made a series of soundings, from which ir appears that the depth along the harbour front has been reduced in some places, to a front has been reduced in some places to a most alarming extent, there being only a few feet of water where, not long ago, the largest ships were loaded and discharged.

The largest iron steamships ever built in America have just been ordered to be built to the Delaware River iron shiphpilding.

at the Delaware River iron shipbuilding works of Messrs. John Roach & Co., at Chester, by the great Pacific Mail Steamship Company, being two ships, each four hundred feet long and five thousand tons burthen. These vessels are to be placed on the mail line from San Francisco to China and Japan, under the new contract authorized by the last session of Congress, providing for a semi-monthly mail service, instead of a

The American International Exposition will be opened April 19th, and closed October 19th, 1876. It is to be in Fairmount Park in Philadelphia. Architects have already commenced competitive sketches of plans for the building, which is to cover not less than fifty acres of floor to cover not less than fifty acres of floor space. The Marquis of Bute has already offered a complete assortment of metals, minerals and ores from Wales, from the County of Durham and the entire basin of South Water, including Monmouthshire. Also a collection of the manufactures of the South Basin, including Monmouthshire and an exact model of the great "Bute Docka" at Cardiff. These offers have been "accepted with thanks." This is in advance of the official invitation by the United States to official invitation by the United States to other governments, which will not be issued

An Ohio paper tells the following: "Our sheriff, Mr. M. McPhetridge, lost a valuable silver watch in a strip of timber in Davies county, fifteen years ago, and after a thorough search, was unable to find it. The timber has since been cleared, and has been under cultivation about aix years. Six weeks ago, as a little girl of Mr. Wiggsel-worth was planting beans, she found a ail-ver watch with a silver chain attached. After taking it home she gave it to her fa-ther, who opened it and found Mr. McPhe-tridge's name engraved on the inside, and Mr. McPhetridge states that the only damage done to it was where a horse had trodden upon the edge. It is now in good running order, and keeps excellent time. Inside it was as clean and bright as when lost—even the second hand being uninjured."

The President, Mrs. Grant, and a distinguished party are being entertained on Pullman's Island by its proprietor. On Monday the yacht Oriole, of Toronto, dropped anchor opposite; the Island, and the officers and gentleman'of the yacht were promptly invited by Mr. Pullman to come ashore on the Island, and were introduced to the President of the United States and Gen P. H. Sheridan and the other guests. After partaking of the usual courtesies, Capt. Campbell and his crew invited the distinguished parties on the Island to visit the yacht, and the invitation was kindly accepted. The boats were soon put in requisition, and in a few moments the officers and crew of the Oriole were entertaining the President of the United States, General Sheridan, Captain Livermore of the Lake Survey, Lieut. Fred. D. Grant, Mrs. Grant, Mrs. Pullman, and several other ladies and gentleman. The President, Mrs. Grant, and a distin-14. 2.

Contraction of the Contraction

He that can please nobody is not so much to be pitied as he that nobody can please. True; for he who can please nobody must be with persons whom nobody could please, and the fault in that case rests not with him-

A little boy accosted his papa thus: "Papa, are you growing still?"-"No, dear; what makes you think so?"-" Because the top of your head is coming through your hair." The gentleman is getting bald.

MEN OF FEW WORDS.—Some men use words as riflemen use bullets. They say but little, but their words go to the mark. To them truth is more valuable than gold, while pretension is too gausy to deceive them.

The true wealth of a community lies in the integrity of its citizens, and its chief honor arises not from the possession of great riches, but from the possession of true men.

The guardian angel of life sometimes flies so high that it cannot be seen; but is always looking down upon us, and will soon hover nearer to us.

THE ART OF BEING MISERABLE.-Kingsley says :—" If you should wish to be miserable you must think about yourself; about what you want, what you like, what people think of you; and then to you nothing will be pure. You will spoil everything you touch; you will make sin and misery for yourseif out of everything which God sends you; and you will be as wretched as you choose."

TUST PUBLISHED,

The Life, Speeches, Labors and Essays

WILLIAM H. SYLVIS,

WILLIAM H. SYLVIS,

Late President of the "National Labor Union" and Iron Moulders International Union, by his brother J. C. SYLVIS, of Sunbury, E. A. box to book on Labor Reform. A book which should be in the hands of every working man in the United States. The book contains four hundred and fifty-sir pages, with a fine steel orgraving of the deceased; is neatly and serviceably bound, and the price reduced to the Jownst possible figure. A portion of the proceeds derived from the sale of the work is to believed to the young Orphan Family of the deceased, leaving but a trifling margin to cover probable lasses. The late Ws. H. Sylvis was identified with the labor movement in this country, from its earliest conception, and his writings and speeches, it is universally conceded, exercised a marked influence abroad, while to them, more than any, is due the surprising progress which that movement has made here. His Biography is therefore in a great measure a history of the Labor movement, and no man who desires to keep pace with the times should be without a copy.

Price \$1.50 sent by Med. or Formers, organization of the Labor movement has made here. The Biography is therefore the program of the Labor movement has made here. His Biography is therefore and no man who desires to keep pace with the times should be without a copy.

Price \$1 50, sent by Mail or Express, prepaid, on receipt of price.

J. C. SYBVIS.
