

Motions for Papers

An hon. Member: Silly boy!

Mr. Howard (Skeena): Mr. Speaker, I think that probably the shoe would fit in the other place just as well.

Some hon. Members: Oh, oh!

Mr. Howard (Skeena): It is difficult to speak in a jungle, Mr. Speaker, but I shall try.

Some hon. Members: Oh, oh!

Mr. Speaker: Order, please. The House will probably recognize that this point was raised ten minutes ago, and if we had accepted the suggestion of the Chair we should have completed this item of business. I doubt whether much can be gained by pursuing this matter much further. A motion has been proposed by the hon. member for Fundy-Royal but this motion cannot be put to the House under Standing Order 43 unless we have unanimous consent to revert to motions. I have to inquire whether there is unanimity in reverting to motions for the purpose of putting the motion advanced by the hon. member for Fundy-Royal.

Some hon. Members: Agreed.

Some hon. Members: No.

Mr. Speaker: There is not unanimity.

Some hon. Members: Oh, oh!

Mr. Speaker: The motion proposed by the hon. member cannot be put. I would respectfully suggest to hon. members that perhaps we might continue with the order of business. A point of order has been raised and there has been consideration of it, which has been constructive I am sure, on the part of all parties on both sides of the House. I ask the co-operation of all hon. members to allow the Chair to pursue the business. We might be able to save a few seconds here and there in processing these notices of motions.
