4. The property owners were notified that these applications for assistance had been approved on the following dates: (a) 30/9/69, (b) 30/10/70, (c) 10/12/69, (d) 10/12/69, (e) 21/8/73, (f) 10/1/73, (g) 17/9/73.

*RIGHTS OF NATIVE PEOPLE TO FISH IN BRITISH COLUMBIA

Question No. 3,039—**Mr. Clark (Rocky Mountain):**

What is the position of the government concerning the rights of native people to fish for food in British Columbia?

Mr. William Rompkey (Parliamentary Secretary to Minister of the Environment): Mr. Speaker, the answer to this question is as follows. The government has not restricted the rights of status Indians to fish for food in British Columbia waters except as required for conservation. Escapement through the commercial fishery is calculated to permit adequate spawning returns and also to provide for the needs of the Indians that historically have fished the runs for food. Open periods for the food fishery are established as requested by the Indians wherever possible. In the case where Indians are commercial fishermen, food fishing is permitted with commercial gear during certain periods when the commercial fishery is closed.

PROVINCIAL EGG MARKETING BOARDS AND CANADIAN EGG MARKETING AGENCY

Question No. 3,078—**Mr. Clarke (Vancouver Quadra):**

1. In each month from January to September 1973 inclusive, how many eggs were caused to be destroyed by (a) each of the provincial egg marketing boards (b) the Canadian Egg Marketing Agency?

2. In each month from January to September 1973 inclusive, how many eggs were sold by (a) each of the provincial egg marketing boards (b) the Canadian Egg Marketing Agency to industrial users (not for re-sale as whole eggs to consumers) and at what prices?

Hon. E. F. Whelan (Minister of Agriculture): 1. No eggs have been destroyed. (Destroyed being interpreted as junked, put in garbage, etc., and lost for human consumption.)

2. (a) Provincial Egg Marketing Boards, (each of the 10 provinces has such a Board) had total control of egg marketing in their provinces prior to early June when the Canadian Egg Marketing Agency began to function in the area of surplus removal. The exception was British Columbia which withheld participation in the Canadian Egg Marketing Agency until October 29. Thus, the records requested for British Columbia, and for the other provinces from the period January to May inclusive, are held within the provincial board offices. (b) Records of Canadian Egg Marketing Agency operations, June to September

[Mr. Dubé.]

inclusive, show that no eggs were sold from the provinces of Alberta, New Brunswick, Prince Edward Island or Newfoundland. Sales of surplus eggs to industrial users from Saskatchewan totalled 90,255 dozen and from Manitoba 4,833,810 dozen. Sales from Ontario, Quebec and Nova Scotia were respectively 3,965,065, 1,037,062 and 478,920 dozen. The prices of these sales varied over the months and depended on the grade of egg involved, whether small, medium, large or extra large size. The range in prices was from 29 to 65 cents per dozen.

STUDENT SUMMER EMPLOYMENT IN GREY-SIMCOE CONSTITUENCY

Question No. 3,089—**Mr. Mitges:**

How many high school and university students were registered for summer employment in May, June, July and August, 1973, in each of the Canada Manpower Centres in the constituency of Grey-Simcoe and, of this number, what was the number who received employment from each Canada Manpower Centre?

Mr. Mark MacGuigan (Parliamentary Secretary to Minister of Manpower and Immigration): In the constituency of Grey-Simcoe, the following activity was recorded by the two CMCs for the months of May, June, July and August 1973, with respect to student registration and placement.

	Post-secondary	Secondary	Total
Owen Sound CMC			
Registrations	303	521	824
Placements	187	457	644
Collingwood CMC			
Registrations	114	502	616
Placements	133	410	543

These figures represent only the activity of the two CMCs in this constituency and do not reflect the full activity of students living in this riding with our department since they may deal with other CMCs, such as Midland for example. With respect to registrations, it might be mentioned that a large number of university and other post-secondary students register for employment in April or earlier.

AVAILABILITY OF CANADIAN WINES IN CANADIAN PACIFIC AIRLINES

Question No. 3,093—**Mr. Cossitt:**

1. Is the Minister of Transport aware that wines produced in Canada are not available on any flights of Canadian Pacific Airlines?

2. Since Canadian Pacific Airlines is one of our two major international air services, does the government believe that it should make available Canadian wines to the travelling public?

3. Has the government ever discussed this matter with Canadian Pacific Airlines and, if not, does it intend to do so in the interests of promoting a Canadian-produced product?

Hon. Jean Marchand (Minister of Transport): The Minister of Transport does not advise Canadian Pacific Airlines on internal management matters of this nature.
