

PAPERS FOR THE PRESENT TIME.

We hope to issue two of these papers each month. They will make in all some EIGHTEEN 16-page papers, uniform in size and style, so that when completed they can be bound in book form. The papers will be prepared by well known evangelical ministers and others—among whom are the following:—Revs. Dr. J. H. Brookes, W. J. Erdman, G. Cochran, P. McF. McLeod, H. M. Parsons, G. C. Needham, Robert Cameron, Albert Erdman, Vice-Chancellor Blake and Dr. Lyman H. A. Atwater.

Terms—5c. each, or \$2.75 per 100; complete sets, 60c. *post paid.*

The subjects treated in this and the following papers, have been assigned to different Christian ministers, evangelists, and laymen, well and widely known for their deep devotion to the truths termed evangelical and scriptural. Each paper will be found distinct and complete in itself. Each writer is responsible for his own sentiments as uttered, and for *none* of the others.

Having this separate and independent treatment, it is believed the great doctrines here presented will have a wider distribution and reception among the people. The selected themes bear upon those great truths of Scripture which seem just now most imperilled by the assaults of the foe. It is in the earnest belief that many readers desire to know the divine meaning of many doctrines, about which much debate and distrust have recently arisen, that these "Papers for the Present Time" have been prepared, and now are to be issued. We heartily crave the blessing of Him who has revealed the true God, and by His Spirit exhorts us to "earnestly contend for the faith which was once delivered unto the saints"
