

What is News?

News can only be that which is true — confirmed fact, evil exposed, and constructive good made known. Not rumors of the worst. Nor accidents, scandals and crimes of the day, with grewsome details.

The gossip of a community does not constitute news, but a statement of the substantial progress of a world does.

The Christian Science Monitor
An International Daily Newspaper
looks first for fact.

Constructive fact it enlarges upon.

And it is entertaining as well as true, thorough and fearless.

This motive and method has given it a universal news service, a world-wide circulation, an international advertising patronage.

The Christian Science Monitor is \$9.00 a year by mail, or may be obtained at news stands, hotels and Christian Science reading-rooms. A monthly trial subscription by mail anywhere in the world for 75c; a single copy for 3c stamp.
