TWENTY-SEVENTH  
SECOND PLACE DOUBTFUL  
CHAMPLER 135,000 AHEAD IN GREATER CITY  
BUT MAY LOSE UP STATE

Governor-Elect Hughes Says His is a Victory for Sobriety and Decency; but People Will Not Tolerate Indifference to Public Wrongs.

New York, Nov. 7.—At midnight tonight there was still doubt as to who is elected lieutenant-governor of New York. Sixteen counties had not reported the official count at that hour, but on the face of the figures in hand at that hour the result seemed to favor Lewis Stuyvesant Chanler on the Democrat-Independence League ticket.

Whatever the result may be, the figures will be close, and until complete official returns have been made by all the counties now missing, it will be impossible to do more than to guess at the winner.

The total vote for the state, so far as returned, including the Democratic stronghold of the City of Greater New York, for lieutenant-governor, is Chanler 69,224; Bruce 519,478.

It appears that, outside of the candidates for governor and possibly for lieutenant-governor, the Democratic ticket is elected in the majority of the Greater New York, Chanler's majority over Bruce 134,841, and this big lead Bruce must overcome in the up-state counties. Among the missing counties is Westchester, which gave Hughes 8,000 plurality.

Republican state headquarters, while expressing the belief late tonight that Bruce would pull out ahead of Chanler, would give no figures. Chairman Woodruff said:

"On looking over returns of the some 40-odd counties, we find that Mr. Bruce has run ahead of Mr. Hughes by 600 votes, and I believe he is elected. At the present time I do not care to give any opinion regarding the rest of the ticket."

The Independence League headquarters claim the whole ticket, with the exception of Mr. Hearst, for whom they have elected. At Democrat state headquarters, no predictions or estimates were given out.

Governor-elect Chas. E. Hughes tonight gave out this statement:

"It is a victory for sobriety and for decency in the administration of government. But the people will not tolerate indifference to public wrongs. They desire neither exaggeration nor inflammatory attacks on the one hand, nor moral or political obfuscation on the other hand.

The election is a rebuke to demagogical methods, and it is also impressive in its demands for responsible leadership. I shall address myself to the task of securing the administration of government with the interest of the people, confident that I may rely upon the support of all good citizens, not only those who voted for me, but also those who, in the intensity of their desire to do abuses, voted for my opponent.

"To the work of ensuring, to the extent of my power, the just administration of the government of this state, I shall devote myself unservedly."

"While perfectly well, I am weary from the labors of the campaign, and I want a few days of perfect quiet. For this reason I am going to the mountains for a little outdoor life and undisturbed rest. There is nothing of political significance in the trip; it is simply to get away from the city and breathe fresh air. When I return I shall close up my business affairs and at once prepare for the important duties to which the people have assigned me."

The governor-elect left tonight with a party of his election workers for Lake Champlain. Woodruff's Administration, forty miles south of Montreal. He is due in Montreal at 8:30 tomorrow morning.

DEMOCRATIC GAIN 23.  
Chicago, Nov. 7.—Revised despatches to the Associated Press up to 8:45 a.m. today, including returns from some very close districts, show that with nineteen districts missing the Republicans have elected 212 members of the sixtieth congress, and the Democrats 138.

The Democrats made gains in the following states: Illinois, 4; Indiana, 2; Iowa, 1; Missouri, 5; Nebraska, 1; New York, 1; New Jersey, 1; North Carolina, 1; Ohio, 2; Wisconsin, 1; Maryland, 1; Pennsylvania, 5.

The Republicans gained one in Kentucky and one in Maryland.

PORT ARTHUR'S BOOM.  
Port Arthur, Nov. 7.—(Special.)—By the passage of a by-law today by exceedingly large majority, Port Arthur will secure two large industries.

One is the Seaman Kent Company of Meaford, and the other the Meisel Manufacturing Company of Port Huron, manufacturers of farming implements.

OTHERS AGREE, CASH READY BUT MAGISTRATE REFUSES BAIL FOR M'GILL

In Spite of Attorney-General and Crown Attorney, Col. Denison Declines to Release Prisoner—A Shareholder's Letter.

The refusal of Magistrate Denison to allow the release of the late Ontario Bank manager, Charles McGill, on bail, in the face of the acquiescence of the attorney-general and Crown Attorney Corley, on the request of E. F. B. Johnston, M.C., has developed a situation that is almost unique.

In the meantime, pending a turn in his fortunes, Mr. McGill is an occupant of a cell in the jail behind the Don. It is not thru any lukewarmness on the part of his friends, for, so Mr. Johnston says, the added bond of \$25,000 required, is forthcoming at any time. Of the original bondsmen, P. C. Larkin and J. W. F. Fairweather are willing to advance further amounts of \$7500 each, and J. Gough \$5000 more, while John McGill, a brother of the accused, is prepared to furnish the remaining \$5000. It is stated also that further bondsmen by residing in the city are available.

"It is simply a question as to whether the attorney-general or Col. Denison controls the situation," said Mr. Johnston, last night. "Who have done all the pressing we can. It is a question of who owns the administration of justice."

A meeting of the Ontario Bank shareholders committee was held in the office of Cephas Goode yesterday afternoon, when a letter was read from D. E. Cameron, owner of 21 shares of Ontario Bank stock, in which he asks:

"What right had the directors to sell the bank without the authority and consent of the shareholders, who own the institution, and who are responsible ultimately to its depositors and bill holders? As well might my hired man sell my farm in my absence without my knowledge and consent. The object was to protect the other banks and prevent a panic. If the other banks were so cautious on this point, why did they not put up the money to make good the loss instead of sacrificing the interests of the shareholders? And then it seems to me that the directors are grossly improvident ones. The Bank of Montreal secured for a paltry \$150,000, a business the good will of which was worth perhaps a million dollars."

"(d) If the sale to Bank of Montreal is to be approved by the shareholders and to stand, the Bank of Montreal will be required to furnish a good and proper equivalent for the good will of the business of the Ontario Bank; (2) while it is perhaps not wise to precipitate arrangements should be made and steps promptly taken to bring suit in the court against the directors with the object of holding them personally responsible for the losses incurred; (3) steps should also be at once taken by injunction or otherwise, as the law may provide, to prevent the directors transferring their property to evade ultimate responsibility."

"It seems to me, however, that the directors, who pride themselves upon being honorable men, should not compel the shareholders to take such drastic action, but should voluntarily make good the extraordinary losses incurred, or such portion thereof as they are reasonably able to pay. It is a disgraceful approach the shareholders in such a commendable spirit. I for one would be in favor of meeting them in a like amicable spirit, and in a friendly compromise, and thus avoid the expense, delay, loss, ill-feeling and annoyance of prolonged and vexatious litigation."

ALBERTA IRRIGATION.  
(Canadian Associated Press Cable.)  
London, Nov. 7.—At the annual meeting of the Alberta Railway and Irrigation Co., Col. Woodhouse, who estimated the net profits for the year at \$343,980. After paying interest on 5 per cent. debentures there remained a balance of \$4,225,000 last year. The minimum selling price of irrigated land is now \$20 per acre.

PARTY MEN KNOCK PHONE POLICY STRAIGHT ISSUE IN CONVENTION

At Convention of Municipalities, Mayor of Brandon Attacks Manitoba Government Scheme—Bell Company Active Improving Its Service.

Portage la Prairie, Man., Nov. 7.—(Special.)—The government's telephone policy is the chief question before the convention of Manitoba municipalities now in session.

Mayor Fleming, Brandon, one of the leading Liberals of the province, made a bitter attack at 40-day session, calling upon the convention to keep its hands off. He declared that it was a straight party issue and asked the convention not to consider the problem now. There was a sure, he said, that the government's scheme would be remunerative, and then the province would have to make good. The scheme was for the benefit of three of the biggest municipalities and at the expense of the rest.

KING RICHARD BORDEN: "A horse! A horse! My kingdom for a horse!"

Electric Employees Offer To Quit Cataract Employ

Such an Event Would Shut Off Heat, Power and Light of Hamilton, St. Catharines and Other Towns—No City Cars Are Running.

Hamilton, Nov. 7.—(Special.)—The event of the day has been an offer by the Electrical Employees' Union, employed by the Cataract Power Company, to walk out at any time when requested by the strikers of the Street Car Company. This will mean cutting off light, and, to some extent, heat and power from the City of Hamilton, the Towns of Grimsby, St. Catharines, Welland, Thorold, Merriton, Niagara Falls, Beamsville, Winona and Stony Creek.

As yet the strikers have not given the word, as many of their good friends in Hamilton would be greatly inconvenienced. There are some, however, who insist that the men should not hesitate to use this powerful weapon to force a settlement as soon as possible.

The persistent rumor that the Cataract Power Company has sold out delays action on every side. Manager Greene feels unable to move, not knowing how long he may be in even nominal authority; the men are waiting for the new man to take his place, and the citizens advise delay, hoping that the new company and the new management may be more competent.

Mr. Greene was appointed without having had any experience as a city street car man; on the other hand it is claimed by his friends that he is handicapped by orders from higher up.

The streets are almost deserted, having been cleared by the local militia, who marched up and down James-street, fully armed, between 7 and 8 o'clock. The people retreated and are staying quietly in their homes. They realize that the civic authorities are predisposed towards the company.

The Deering cars were stoned tonight and a mail car, on its way to Burlington, was derailed by a plank placed between the tracks and a switch rail just east of the city.

The company made no attempt to run any city cars, although it is stated that the attempt will be made to-day.

BLOOR ST. VIADUCT BOOMS OFFICIALS ARE BUSY ON REPORTS

Controller Shaw is Latest Member of Council to Declare That the Project Will Be Realized Some Day—Report on Possible Land Damages.

The project of a viaduct from Bloor-street to Danforth-avenue is being more seriously considered as a civic undertaking at the present time than ever before. The mayor, controllers, aldermen and civic officials spoken to on the matter by The World, unite in the sentiment that such a viaduct would be of benefit to the city, but all are not agreed that the time is ripe for carrying out the work.

Controller Shaw is the latest member of the board to declare his version, or, at any rate, his partial winning over.

"It is an idea that will be realized in time," he said yesterday, adding that he thought the plan was a little premature as yet. He wanted to see the trunk sewer and Yonge-street bridge built first, and a car line laid thru Garrison Commons into the eastern entrance of the exhibition ground.

The Land Damages.  
Assessment Commissioner Forman, acting under instructions from the board of control, is getting ready a report on the effect on land values likely to be caused. Within the last few days he has looked over the ground, and he now has the survey department at work making calculations as to the relative cost and advantages of viaducts at Bloor-street and points farther south, such as Howard-street and Wellesley-street.

Mr. Forman thinks that great benefit would accrue to the township and would like to see a meeting of the township council take place for determining how much Chester would be willing to contribute towards the cost. He estimates that there would be immediate and material appreciation in the value of the township property on Danforth-avenue, and he does not think the Sherbourne-street or Glen-road bridges would offer any obstacles. They would simply be interested by the viaduct after the manner of street intersections.

Alternative Routes.  
The commissioner pointed out that the viaduct, as an extension of Wellesley-street, suggested by the city and never as an alternative proposition, would mean that the eastern end would be at a point about 100 feet south, between Spadina and Hogarty-avenues. A second proposition was a viaduct from Howard-street in a northerly direction to Castle Frank, thence spanning the narrowest part of the valley.

A whole lot of other things require looking after before the proposed viaduct's turn comes," said Mr. Forman, who saw advantages in the scheme, but was afraid the land damages would be considerable, particularly on property on Dale and—Hick-street, flanking the edge of the ravines on the north.

Mr. Frost is preparing a report on the cost and nature of construction. A year ago he estimated \$300,000 as the approximate cost of the viaduct, not including land damages.
