

LATEST RUN OF KAMADORE

Prospecting the Engleue Concessions.

Boston Man Alleged to Have Found "Pay-Dirt" in Shoal Lake Sandstone... Complimentary Remarks of Roseland Miner Regarding Two Toronto Mining Brokers-Notes.

According to the last issue of the Canadian Mining Gazette of London, Eng. the Mikado Gold Mining Co., limited, have announced the receipt of a cablegram from their Lake of the Woods manager, stating that during the 21 days ended Sept. 3 last the mill crushed 687 tons of ore, yielding 265 ounces of gold, exclusive of tailings.

The Engleue Concession. Block "A" of the Engleue concession, comprising about 500 acres on Rainy Lake, Ont., is now so marked out on a plan of different colors and lines that the capitalists in England may find out by looking at it just what the formation is on any particular acre.

Mr. Sullivan, who has forwarded his report to headquarters in England, refuses to divulge the results of his search for the precious metal. In the Duluth Sunday News-Tribune appears the following: G. W. Pelton and Dr. I. Brown of Boston, who were sent out by Francis, Rice & Co. of that city, bankers, to make a report of the outlook for placer and quartz gold in the Seine and Rainy River districts, passed through Duluth recently on their way home.

Mr. Pelton says he found numerous diggings of a profitable nature, but has nothing substantial about the discoveries, but they have sent to Boston 21 samples of pay dirt that pays 25c to the pan, or \$50 a ton. At the Shoal Lake the prospectors found an amount of sand that passed from \$3 to \$8 a ton. Mr. Pelton says he is much impressed with the possibilities for profitable quartz mining in these districts, and is quite enthusiastic over the matter.

The McGowan Gold, Silver and Copper Mine, Parry Sound. Mr. George Montford, of Rossett, Ont., has secured an option of the McGowan Gold, Silver and Copper Mine, Parry Sound, and intends placing before English capitalists and placing the necessary preliminaries are arranged. A recent sample of ore taken from a newly discovered vein assayed \$3,351.68 per ton. The assay on copper has been reported, but it is said that it will go fully 25 per cent.

Torontonians in Rossland. From Rossland Miner, Sept. 24. Captain J. C. Currie of the Forty-eighth Highlanders, Toronto, is at the Allan. Captain Currie, who is the senior member of the firm of Currie & Kitley, broker, and is also the president of the Toronto Mining and Industrial Exchange. He is credited with having done more than any other man in the country for perfecting the exchange, which has for its object the handling of Rossland stocks particularly. Captain Currie is delighted with the look of the country and he is more than ever satisfied with the future of the mines here.

J. Hugo Ross of Fox & Ross, one of the best known brokers in the city and is stopping at the Allan. Mr. Ross is no stranger here, as he has been coming here for three years past. In all that time, however, the camp never looked anywhere like so well as at present, he says. Mr. Ross, who is one of the most active of the brokers on the Toronto Mining Exchange, says that all the money needed to develop the properties here will be forthcoming. He predicts a steady, upward tendency in the stock market from now on.

G. I. R.'S HEALTHY CONDITION.

English Journals Predict a Future of Prosperity for Canada's Great Railway Trade With China. London, Oct. 4.—The business journals as a rule comment most favorably on the half-yearly report of the Grand Trunk Railway Company, issued yesterday. The Financial Times says it exhibits a healthier condition than for years past, and affords justification for regarding the future with cheerfulness. The Financial News says the report undoubtedly is a very satisfactory showing, and that the shareholders must admit that they own a heavy debt of gratitude to the new management.

Unsatisfactory State of Trade. There is general complaint among British merchants of the unsatisfactory state of the trade with China, because of disturbances there, and recent cable despatches from commercial centres as from other districts in China are far from encouraging.

Billiard Tables and Accessories. To mention billiard tables suggests the name of Samuel May & Co. of Toronto, who have been associated with the game for the last forty years. And why pray? Simply because they have supplied billiard tables and accessories from the Dan to Beersheba of the country in such numbers that they have become synonymous terms.

Paris, Oct. 4.—At the session of the American Peace Commission yesterday, the name of Samuel May & Co. of Toronto, who have been associated with the game for the last forty years. And why pray? Simply because they have supplied billiard tables and accessories from the Dan to Beersheba of the country in such numbers that they have become synonymous terms.

Many Diplomatic Changes. New York, Oct. 4.—A Paris cable today says: It is probable that the Cabinet Council, which will be held tomorrow, will discuss the question of cabinet changes. Comte D'Aubigny is mentioned as likely to be appointed Ambassador to the United States. Patrice de Camille is expected to be transferred to Constantinople, and Jules Cambon, the present Ambassador to Washington, will be sent to Madrid.

The Church Flock. Mr. T. L. Church, who is a candidate for the presidency of the Osgoode Literary and Legal Society, has announced the following ticket: First vice-president—David Mills, son of Hon. David Mills. Second vice-president—A. Laurison. Hon. J. C. Currie, President of the Toronto Mining and Industrial Exchange. He is credited with having done more than any other man in the country for perfecting the exchange, which has for its object the handling of Rossland stocks particularly.

R. M. Stensmark Gallia. On the last trip of the Beaver Line Royal Mail steamer Gallia, Montreal to Liverpool, Captain William Stewart and his officers were presented with the following testimonial: R. M. Stensmark Gallia, Sept. 24, 1898. We, the undersigned, salute and congratulate you on the occasion of your return from your voyage from Montreal to Liverpool, desiring to express our appreciation of the kindness and courteous attention which you and your staff have shown to the passengers of the Gallia.

Keen Contest Predicted. London, Oct. 4.—The Paris correspondent of the Times predicts a keen contest and expresses the belief that the American commissioners will consent to compromise rather than embark in a fresh conflict to inflict a cruel wound upon Spain's national pride. The Paris correspondent of the Daily News says: The Spanish Commissioners are cordily courteous and seemingly unflinching in their non-surrender attitude respecting the Philippines. They apparently fully appreciate the difficulties of the Republic party in America, and their army mismanagement and the resulting natural desire to get the work of the commission concluded most speedily. These circumstances encourage the Spaniards to remain obdurate.

Business in a Healthy State. Winnipeg, Man., Oct. 4.—Mr. B. Oester, now here, says the business of the west seems to be in a healthy state. He says the intention is to place the M. & N. W. Railway in first-class condition. Sir William Van Horne's special, at one place between Fort William and Winnipeg, ran 47 miles in 48 minutes.

Must Appear. Chief Justice Armour has refused to set aside the order directing Mrs. Curry to attend for examination with regard to the assignment of Mike McConnell. Mrs. Curry is McConnell's father-mother and there is a question unsettled regarding the transfer of a promissory note to her.

ANOTHER SOURCE OF REVENUE.

Everybody in Santiago to Be Taxed and Every Business to Be Licensed. Santiago de Cuba, Oct. 4.—General Wood proposes to inaugurate a system of municipal taxation, making the taxes retroactive to Sept. 1. The funds of the customs house cannot legally be taken for municipal improvements because 25 cents per barancae of the present surplus is \$100,000. Consequently another source of revenue has to be obtained. There has been a law to tax and license every business enterprise by the American troops these taxes have not been collected. Now, however, the minister has decided to inaugurate a system which is badly needed for local improvements. It is the policy of General Wood to spread all the expenses of the city upon Santiago, which is the exact opposite of the system adopted by the Spaniards. Water in the dry season costs 25 cents per barancae. General Wood's plan is to bore artesian wells and obtain a plentiful supply of water.

General Calixto Garcia called on General Wood yesterday. He proposes going to Washington to advocate General Wood's \$30 plan of disbarring the Cuban army. KEEN FIGHT EXPECTED. Reported intention of the United States to hold the Philippines. Cases Construction in Spain. Madrid, Oct. 4.—The reported intention of the United States to hold the Philippines has created almost a state of stupefaction here, and it is semi-officially announced that Spanish business men are working vigorously to combat any such action, which, it is claimed, the terms of the peace protocol preclude.

Ideas of Merritt and Dewey. Paris, Oct. 4.—At the session of the American Peace Commission yesterday, the name of Samuel May & Co. of Toronto, who have been associated with the game for the last forty years. And why pray? Simply because they have supplied billiard tables and accessories from the Dan to Beersheba of the country in such numbers that they have become synonymous terms.

CORNWALL NEWS. Torontonians Going to Glangary—Lost Boy Found—Personal Notes. Cornwall, Ont., Oct. 4.—(Special)—Dr. V. H. Lyon, who for the past year has conducted business as a dentist in Alexandria, is leaving this week for Ottawa. His successor will be Dr. S. F. D. Reid of Toronto. Dr. Lyon is a gentleman of high experience in the profession, who arrived in Ottawa last evening. Dr. Lyon returns to Ottawa to resume his practice to-day.

Married in Wisconsin. An event that will interest many Glangarians occurred at Medford, Wis., where James A. McDonald, formerly of the 148th Regiment, was married to Miss Helen Baker, daughter of Mr. and Mrs. J. H. Baker of Medford. The bride is a very charming young woman, and the groom is a well-known and successful business man. The ceremony was performed by Rev. Father Sheehy of Medford, and was a very charming affair.

The Lehigh Valley Railroad Will Run a Special Excursion From Suspension Bridge to Washington, Oct. 10-12. Tickets good for 10 days, going and returning via Philadelphia and Baltimore. Tickets good from 7.20 a.m., 7.05 and 9 p.m. trains. Through sleeper on 9 p.m. train. Some time ago, Mr. W. A. Coosa, Mr. C. Gregory, the 12 year old son of H. Aubrey of the Alexandria Hand Laundry, left home. Despite every effort that could be put forth, he was not found. He was located at St. Constant, in Laprairie, Que., where he was working for a farmer. He returned home with his mother.

Is This a Bare-Faced Fake? Borough of Brooklyn, New York, October, 1898. J. Dowdwalte, 30 King-street West, Toronto, N.Y., Oct. 4.—The Court of Appeals has decided the famous Gould case, in which George Gould refused to pay taxes on shares of stock left by his father, which he claimed that they were exempt from duties performed and not a gift. The decision was that the taxes on the shares or interest of George J. Gould, in the amount of \$12,750, as this modified affirmed with costs to the appellant comptroller.

South African Literature. We have just received from Mr. R. M. Melville, general passenger agent, copies of several publications relating to South Africa. One of them is of considerable volume, entitled "Guide to South Africa for the use of tourists, sportsmen, invalids and settlers." It is a work of 400 pages, full of accurate and valuable information concerning the whole of this interesting country. In the book are several up-to-date maps.

High-Class Picture Sale. The attention of the Toronto art-loving public is directed to the announcement made in these columns of Roberts & Sons' annual collection of English oil paintings and water color drawings, which are to be sold by auction at their gallery, 70 King-street west, Tuesday and Wednesday, Oct. 11 and 12, at 2.30 p.m. We are informed that the collection contains many works of a highly important character, and Mr. Roberts is confident of placing before the public an exhibition of high art, such as has not been seen in this city at any previous time. The pictures, new, high in value and after Thursday, Oct. 6, Mr. Roberts trusts that their reception by the public will be such as to bring him in a continuing to make the annual Art Sale a prominent feature of his business. All art lovers should attend the exhibition. It will well repay them.

Subornation of Witnesses. Sidney H. Slocom has been committed for trial for having sought to bribe witnesses to swear falsely against Dr. Eustace of Claremont in a case which the grand jury returned a bill and indictment against. The matter was referred yesterday afternoon to the Deputy Attorney-General, but with the same result.

The Largest Medical Practice in Canada.

they couldn't help telling their friends, and in three months Dr. Sproule's practice was the largest in Canada, as the doctor himself, he remained six months in Toronto, and then went back to his headquarters at Newport, Vermont, where he is now directing his largest medical practice in the world in Catarah and Chronic Diseases, assisted by a trained staff of assistants.

BEHEIVED CATARRH COULD NOT BE CURED. For many years I was like thousands of others, of the fixed conviction that Catarrh was incurable. I had read all the advertised "cures," been treated by many reputable specialists and had numerous remedies prepared by druggists, all of which proved useless as far as curing my Catarrh was concerned. In April, 1896, I wrote to Dr. Sproule, on the recommendation of a business friend whom he had cured, asking if he could cure Catarrh.

He replied in the affirmative, and requested me to write him a full history of my case, I did so, and upon receipt of my letter he immediately sent me a box of his medicine, which I used with my usual feeling, I must confess, that I was simply throwing away money to a "quack," but I had spent so much I thought, better try again, as I was very anxious to be cured. The rest of my story is simple. I used his remedies four months and he cured me. I positively affirm that for two years I have not had a trace of Catarrh, after suffering several years with running at the nose, drooping in my throat, having an itching in my throat, aching in my forehead, scabs in the nose, enlarged tonsils, bad breath and dry hacking cough.

OLD NEW YORK BANK IN TROUBLE. Its Capital Impaired and an Early Liquidation Advised—Troubles of Wool Exchange Responsible. New York, Oct. 4.—The Tradesmen's National Bank of 200 Wall-street, did not open for the clearing house, of which it is a member, to-day. This fact led to an investigation and it developed that the bank is in serious trouble. The clearing bank committee visited the bank yesterday and after a careful examination of its securities, found its capital impaired and advised an early liquidation. The Tradesmen's National Bank is one of the oldest and one of the best known institutions of its kind in the United States, and is a member of the Tradesmen's National Bank Association.

PRINCESS CHIMAY'S PICTURES. Her Photographs in Fishings Are No More Objectionable Than Those of a Semi-Nude Statuette. Berlin, Oct. 4.—The Prussian Court of Appeals differ in the matter of the Princess of Chimay's photographs. The Berlin courts say that the photographs of the Princess in fishings are no more objectionable than nude or semi-nude photographs of a statuette. The Leipzig court regarded the Princess's photographs as indecent, as the form is too fat. The pictures will be suppressed and another order from Leipzig was issued.

Clouds of Insects Pass Over a Kansas Town. Wichita, Kans., Oct. 4.—Several hours before sunset last evening there began to arrive here, flying low over the city, a cloud of insects, comprising grasshoppers, wasps, bald hornets, several varieties of bees, and a host of other insects. They were drifting slowly with a slight breeze towards the southeast, the light flying wasps and hornets clustering in great numbers about the peaks and eaves of higher buildings. The cloud of winged creatures, extending into the air to limits of vision overhead, was passing for hours. It is thought the insect pestilence is due to the forest fires in Colorado, the insects, it is supposed, being driven from their haunts in advance of the flames.

GOULD MUST PAY. Taxes on Stock Left by His Father. Albany, N.Y., Oct. 4.—The Court of Appeals has decided the famous Gould case, in which George Gould refused to pay taxes on shares of stock left by his father, which he claimed that they were exempt from duties performed and not a gift. The decision was that the taxes on the shares or interest of George J. Gould, in the amount of \$12,750, as this modified affirmed with costs to the appellant comptroller.
