Heavy Arrivals in the West and a Blockade at Buffalo

News About Australian and Argentine Crops.

Friday Evening, Dec. 9.

No wonder that the Liverpool wheat market has been weak lately. The shipments to four and wheat from the United States and Canada during the last two weeks which were consigned to ports in the Atlantic Kingdom, amounted to 1,257,000 bushels. This is nearly 1,000,000 bushels more than the fortnight's requirements of foreign wheat, which are estimated at 1,200,000 bushels.

At Liverpool to-day this month's delivery closed at 48s. 6d. and the market was very close to the limit of the month's delivery.

Chicago received 1,257,000 bushels of wheat in 12 months.

Paris wheat declined 20 to 25 centimes and Paris flour 5 to 8 centimes.

The grain blockade grows weaker at Buffalo. Nearly 2,000,000 bushels, including several Port William cargoes, have arrived, making 5,000,000 bushels of grain now at Buffalo.

The elevators are full, and there are as yet few cars to relieve the congestion.

Broomball cables that the Australian surplus was 3,000,000 bushels, half of which would go to Europe.

Broomball cables: An Argentine correspondent cables that the harvest there is threatened, owing to the greenness of the wheat. The wheat crop is large, as far as is known. The Argentine harvest is satisfactory, and promises a good yield.

Broomball cables: Wheat cargoes are expected. Cargoes of 30,000 bushels are expected.

Ocean freighters for December are firm at 50d per bushel for grain from New York to Liverpool, and 45d for wheat.

Livestock market: Chicago grain was also a little weak.

Paris declined 10 per cent at Liverpool.

Receipts of wheat at Liverpool the past three days, 343,941 bushels, all American.

Corn same time, 126,770 bushels.

Argentine wheat shipments this week were all, as against 800 bushels last week and none the corresponding week of last year.

Corn shipments, 872,000 bushels this week.

Estimated receipts of grain at Chicago for Saturday: Wheat 190, corn 450, oats 250.

The Board of Directors of the Chicago Board of Trade refused on Tuesday the application to have wheat futures delivered on contracts for regular wheat.

A cargo of No. 1 Duluth, northern, spring wheat, 100,000 bushels, was shipped and consequently cannot be delivered on December contracts.

Several other cargoes have had to be blown and screened to enable them to pass.

Broomball cables: Official estimate of British wheat crop, 73,028,000 bushels, compared with 75,018,000 bushels in 1932.

Australia, crop prospects less favorable.

Antwerp cables: Argentine prospects excellent. Another cable from Liverpool says: Argentine prospects worse.

World's stocks, 1933, 70,101,000 bushels; 1932, 77,500,000 bushels.

From the above, it appears that the commercial stocks of the world on Dec. 1, 1933, increased over those on Aug. 1, 1933, 6,751,000 bushels, while in the same four months of 1932 the increase was 75,420,000 bushels.

The world's stocks on Dec. 1, 1933, were 10,164,000 bushels less than on Dec. 1, 1932.
