Appointed Three Clerks.

Assessment Commissioner Hall, with the Cornsent of Mayor Teetzel, has appointed Richard Wodehouse, Adam Hunter and Archie Massie temporary clerks in his department. The commissioner's idea is to have the assessors working outside all the time, while the new clerks will attend to the clerical work in the office. They will be employed from three to five months each year. The departure is regarded as an economical one by the Assessment Commissioner.

Harton Ratepayers Excited.

There was a lively meeting of ratepayers of Barton at the Mountain View Hotel this evening to consider the question of Santon at the Mountain View Hotel this evening to consider the question of Trolley-street. There came near beling a fistic encounter, excitement running high for a time. Aid. Neiligan of the city was present and is said to have called J. N. Lake, one of the speakers, a liar for saying he never appeared before the City Council regarding a request to compel the City Street Railway for place tracks on Wentworth-street to the Incline Railway. The chairman, Frank Wilkinson, requested the police to eject any person who did not keep order.

On another occasion Watson Truesdale Intimated that it was almost an insult for Ald. Neiligan's to want, to advise the rate-payers what to do in the matter, as he had not a dollar invested in the country and very few dollars in the city. Ald. Neiligan replied that he had never made an assignment, and there was more disorder.

A resolution, against the granting of the request was passed almost unanimously.

THE TWO AMENDMENTS.

Mr. Clarke's amendment, adopted by the Conservatives in caucus, read:

That, in view of the widespread charges of incompetency, misconduct and corruption in the administration of public affairs connected with the Yukon, it is the duty of Government to appoint, without delay, an independent judicial commission to make a thorough investigation into that subject and report the result. Mr. Bertram's amendment, which was

adopted, was as follows:

That we have observed with pleasure that on receipt of complaints against some of the officials in the Yukon district, His Excellency's Government took prompt action to enquire into the matter of such complaints, and have appointed Mr. William Oglivie as commissioner for the purpose. Having entire confidence in the integrity and ability of Mr. Oglivie, we are safisfied that his enquiry will be impartial and thorough, and will place His Excellency's advisers in possession of such information as is necessary to enable them to do justice to all parties concerned.

ing at 8 St. Lawrence-street, was taken into custody last night on two serious charges, one of criminal assault and the other of highway robbery.

The complainant is Maggie Holland, a young woman whose home is in Brantford. She alleges that she came to this city from Hamilton yesterday afternoon and was brutally assaulted and robbed of \$7.75 in money and a gold ring on West Front-street, just after she left the train. Coleman has been identified. Dr. King was in attendance on the young woman last night. P. C. Drury made the arrest. Dr. George, the principal of the college, reported that a chair had been endowed by a gift of \$40,000 from Mrs. Miner, Montreal; also that an inspectorship in sociology had been founded by Col. Burland, Montreal.

In regard to the Foreign Missionary Society, it was reported that a doctor and a mechanic will be sent to the station in Africa next July, when Mrs. Currie and Miss Melyllie return to their field of labor.

Praised Co-operation. Mr. Metcalfe, Montreal Board of Trade, said he very much preferred a permanent standard, made up by the inspectors.

Sir Henri Joly thought there was a confusion between a permanent grade and a permanent sample. He understood they wanted a permanent grade and an annual visible sample.

Praised Co-operation.

Rev. T. Leggette, Edgar, read an able paper on "Co-operation." He spoke of the subject in regard to industrial concerns, and applied the principle to the spiritual sphere and to present day church work.

Congregational Principles.

In the evening a platform meeting was held, under the presidency of Rev. J. P.
Gerrie, at which several earnest addresses were delivered. The most notable was that of Rev. H. E. Mason, Georgetown, whose entering into its composition, and no mixed cargo shall carry a straight grade certificate.

The Third Resolution.

Present Mission

The Third Resolution was that when inspectors are called out to inspect grain shipped from what are called mixing elevators, they shall be governed in their inspection of such grain by the general standard of grades in force at the public warehouses, and no grain will be allowed to pass inspection that is not fully up to the general average quality of the different grains coming out from the regular bins of the public warehouses, provided that grain may be cleaned only (not mixed) under the supervision of an inspector or his deputy at any elevator without cotang under the above regulation. This was adopted.

There were several other resolutions, that the fee system be abolished, and that ail public elevators be under Government control and supervision, which were adopted, and the meeting separated.

Next Monday's Great Concert.

The announcement made yesterday morning that Madame Schumann-Heink, the greatest living contralto, was to sing once.

In Toronto before returning to Germany, after her tremendous New York and Washington successes, created more interest among the music-loving people of this city than any announcement made in recent seasons. Among those who have sung to Toronto audiences recently have been numbered some of the most famous artists of this continent, but the reputation of Schumann-Heink is European. There had appeared to be not the slightest chance that she would be heard in Canada. In fact, even in the United States, she sang in only three or four of the greatest cities.

Madame Schumann-Heink's selections were received by telegram last night, and will be Next Monday's Great Concert.
