LITTLE GIANT THRESHING ENGINE—Economic,  
cheap and durable, facts which are borne out by  
the following:—To Mr. G. C. Morrison. "This is to  
certify that I bought one of your portable horizontal  
engines, which has given entire satisfaction. I have  
threshed some very heavy winter wheat with it, using  
only thirty pounds of steam. I have had some experi-  
ence in upright engines, but never found any of them  
to do similar work under one hundred pounds, which  
shows remarkable economy in your "Little Giant."  
We have "fired up" after dark with hemlock, and it  
never emitted a single spark. In one day's threshing  
the engine only consumed half a cord of soft wood  
and seven barrels of water, which proves that the  
"Little Giant" is the best horizontal engine made.  
(Signed), J. YATES, Hatchley, Ont." The "Little  
Giant" is manufactured by G. C. MORRISON,  
opposite the Great Western Railway Station, Hamilton.
