A SUBURB THAT'S GROWING

Pottersburg To Be Known Hereafter as London Junction.

Remarkable Progress Being Made—All the Comforts of a City.

The petition, so largely signed by residents of Pottersburg, to have the name of the postoffice changed to "London Junction," has been granted by the postmaster-general. Notification of the approval has been given the petitioners through Inspector Hopkirk, the new name to be used after Jan. 1, 1899, which affords the people of the place much gratification.

The district adjoining the city known as Pottersburg has been undergoing many changes during the past few years, that are fast making it a desirable place of residence, as well as a place that must soon be of considerable importance.

The features that go to make it a desirable location for the planting of industries are very apparent. It is situated at the junction of the G. T. R. and C. P. R., the stations of which are in close proximity. This, of itself, will be of great importance in the industrial future of the district. The street railway runs past the Asylum avenue, on which the C. P. R. station is situated, to the G. T. R. station, opposite the postoffice. Land is procurable in lots adjoining the railways, some of which have been gone over and reported favorably of by companies seeking new spheres of operations, but who found greater inducements, by way of bonus, in richer districts. The fact that the Canadian Packing Company has enlarged and improved their extensive factory during the past summer, and that they find it the right point to bring their animals to from all parts of the west, speaks on its behalf. As a place for the planting of industries, it will soon be well known.

The demand for residences far exceeds the supply. Some business men have already noted this, and are preparing to erect suitable houses for those seeking homes. Mr. Jabez Metcalfe has commenced the erection of six handsome homes, some of which will soon be ready for occupation. His energy in this respect is to be commended. This year six houses is the record for the place, but indications are that this number will be more than doubled next season. More than a dozen houses could be rented at the next two weeks if they were available. Lots are advancing in price in the preferred locations, so that early investment will be more profitable.

The locality is higher than the greater part of the city. The soil is of a dry, sandy nature, while the aspect is quite picturesque. On the north are the beautiful grounds of the Asylum, that will always afford a restful and pleasant view. To the south is the rural district, skirting the Hamilton road, around which the south branch winds, and which is dotted with beautiful groves bordered by well-cultivated fields. This part has become the fashionable drive and bicycle run from the city. The locality is a healthy one. Many persons state that they receive a new lease of life by coming to the locality, as they did not enjoy good health before.

The privileges to be enjoyed are greater than in many suburban districts. A 12-minute service is given on the electric railway, thus making it equal to outlying parts of the city. There is a good two-roomed school, of which Mr. Kennedy is principal, who received so many votes, recently, for assistant in Talbot street school. A third room will soon be needed, as the children now fill the present rooms. The school is central. There is a handsome, neat, church, the Hamilton road, around which the south branch winds, and which is dotted with beautiful groves bordered by well-cultivated fields. This part has become the fashionable drive and bicycle run from the city. The locality is a healthy one. Many persons state that they receive a new lease of life by coming to the locality, as they did not enjoy good health before.

The postoffice facilities are good, as mail is taken off and put on the Toronto trains, as well as received from the city. Mr. T. Buchanan, postmaster, has a telegraph office in connection. Mr. R. Tremaine, the principal storekeeper in the place, is an energetic man.

Three months ago the place was favored by the incoming of a medical practitioner. Dr. Laurie came there with a good reputation as a gentleman and a doctor. He had a large and remunerative practice in Cobocok, but wished to be near the metropolis of the west. In gynecological cases and

MAN'S THOUGHTLESS INHUMANITY

To His Stomach, Causes Untold Suffering and Misery.

But Dodd's Dyspepsia Tablets Restore the Health and Strength the Creator Gave—They Cure All Stomach Diseases Except Cancer.

A tired, weak, worn-out stomach makes a man a crank, a woman a scold, and life a misery. You should not know that you have a stomach. If it is healthy and strong you won't know it, for it will never trouble you.

There is no wonder that the stomach so often wears out. From our earliest childhood we persistently abuse it, and overwork it.

We sicken it with "candies," freeze it with ice cream, parboil it with scalding hot tea, or coffee; choke it up with tough, half-masticated meat,

in diseases of children he has had marked success, not to speak of his surgical work. He has been eight years in practice, has traveled extensively, so that he is well fitted to bear the great responsibilities of his noble profession. He is already doing well, and is winning the esteem of all with whom he comes in contact.

People from country towns and rural districts seeking desirable locations should visit this rising suburb.

THE OVERDRAFT IS INCREASING

Board of Works' Appropriation Small in Comparison With the Outlay.

Finance Committee Sends Another Batch of Unpaid Accounts to the Council—Sympathy for the Meritton Sufferers.

Another batch of accounts against the board of works came before the finance committee last night, and payment was refused, the appropriation having been overdrawn. The amount by which No. 2 committee has exceeded its appropriation is now about \$5,000, said Chairman Winnett. The accounts were referred to the council.

Two petitions for remission of taxes were dealt with, one from Mary Jane Harris being granted, and one from Mrs. C. Beckett being laid over. An account from the Mimico Reformatory board, for the keep of R. Kervin for two weeks, was not paid. The clerk will notify the board that the committee does not consider the city liable.

In reply to the communication from Mr. Lawrence E. Skeay, asking relief for the Meritton sufferers, the secretary will express the committee's sympathy.

Accounts to the amount of \$10,418.95 were passed.

The usual grant of \$120, to partially cover the assessment on Hellmuth College for city water, was recommended.

The members present were Ald. Winnett (chairman), Graham, McPhillips, Nutkins, McCallum, O'Meara and Secretary Pope.

CHURCH UNIT Discussed by the Episcopal Convention.

Close Sympathy and Kinship With the Church of England in Canada.

Washington, Oct. 15.—Church unity was again the topic before the House of Deputies of the Episcopal convention yesterday, the discussion being on Rev. Dr. Huntington's proposition to broaden the scope of the church by permitting bishops to take under their spiritual guidance outside congregations not conforming strictly to the Episcopal liturgy.

The resolution which represented the American church at the last general synod of the Church of England in Canada reported in detail on their reception in Canada, and spoke of the close sympathy and kinship between the two daughters of the English Church.

Among the resolutions presented and referred were those for co-operation between the English and American church in the establishment of churches on the continent of Europe for restoring the original text of "Rock of Ages" and other hymns.

A petition urging a radical change in the Prayer Book was summarily tabled against the protest of Rev. McKay Smith, of the mission station, that in all constitutional bodies petitions were of right received and respectfully considered.

At 2:30 p.m. both houses adjourned in order to permit the bishops and deputies, some 40 in number, to start on the pilgrimage to Jamestown Island, near Richmond, Va., where 200 years ago the church was first established in America.

PRESBYTERIAN MISSIONS.

Toronto, Oct. 14.—Statistics just compiled by Rev. Dr. Warden of the Presbyterian home mission expenditure for the past six months exceeds \$39,000. This is considerably in excess of last year, owing principally to the big outlay in connection with the Klondike. The estimate for this year is \$32,000. The statistics show a year's contributions from Britain having decreased noticeably. The work in the mining districts of British Columbia will necessitate an addition of at least \$5,000 to the revenue. The expected immigration to the west of Lake Superior will necessitate the opening of many new mission fields. The building of the Crow's Nest Pass Railway and the Rossland-Penticton line will mean greatly increased expenditure, and the committee will be asked to subscribe more liberally.

THE C. E. CONVENTION.

Hamilton, Oct. 15.—The provincial Y. P. S. C. E. convention decided to hold the inter-provincial convention at Montreal next year. It was announced that Miss Lottie Wiggins, who had been re-elected to the position of junior superintendent, had resigned, and Miss Whitworth, of St. Marys, had been elected to fill the vacancy. Before final adjournment banners were awarded to Huron, Ontario and Wellington. Rev. Francis E. Clark, the founder of the C. E. movement, was presented with a picture of the 1898 convention committee, as a token of appreciation. The address of the evening was delivered by Rev. Dr. Clark, his subject being "The Brighter of Christian Endeavor." The consecration service was a fitting close to this grand convention. The attendance was the largest that has ever been held in Canada. 850 delegates registering, representing 192 societies and 100,000 Christian Endeavorers.

THE DEFENSES OF CANADA.

Formidable Works To Be Constructed on the St. Lawrence—United States Offset to Esquimaux.

Montreal, Oct. 15.—Col. Dalton and his colleagues, of the imperial defense board, are busily engaged in Montreal and vicinity. They have been examining the mountain and both banks of the river, and it is understood that they will recommend the construction of extensive range batteries on Mount Royal and to erect powerful works at St. Lambert and Caughnawaga, as an interior defense to a long line of powerful detached forts covering the strategic points of the frontier.

A SET-OFF FOR ESQUIMAULT.

Victoria, B. C., Oct. 15.—The United States will shortly begin to fortify Port Angeles with the object of setting off the fortifications now being erected by the British Government at Esquimaux, which is only 18 miles away, directly across the straits. The United States naval authorities as the best location on the Pacific coast for the use of the navy. The citizens recently sent a letter to Senator J. S. Wilson, opposing the scheme, and saying that the trade arising from the straits, an English war vessel could sail from Esquimaux, and in ninety minutes be in undisputed possession here. Supplemented by her fortifications and warships at Esquimaux, England would be in absolute possession of the Straits of Fuca, and the entire commerce of the straits and sound would be at her mercy, and every city and interest on the straits and sound imperiled.

Without Money and Without Price.

Dr. Chase Offers Free Treatment for Anyone Who Cannot Afford to Pay for Medicine.

During his half-century of practice in medicine Dr. Chase never charged for his services where the patient could not afford to pay. He was known as "the poor man's friend," and besides offering his services free, contributed very liberally to charitable institutions.

The manufacturers of Dr. Chase's family remedies, following the example of the Grand Old Doctor, offer free treatment to any who are unable to pay for the same. The only condition is that a certificate be presented from some minister showing the patient to be worthy this benevolence.

The record of Dr. Chase's Kidney-Liver Pills, Ointment, Catarrh Cure, and Syrup of Linseed and Turpentine has been unparalleled in the history of medicine. The cures performed are frequently more like miracles. That these celebrated remedies are offered to the needy without money and without price is due to the noble example set by the celebrated old doctor, who has won the praises and gratitude of this great American continent by his free treatment of the poor.

in any month, and also in many others failures for the quarter were the smallest in any quarter.

With actual payments through clearing houses 19.7 per cent larger than in the same week of 1897, it cannot be said that business is in any sense falling off, and yet many are complaining because the output of goods as profit is smaller than was formerly realized in good times.

The wheat business is more active, with prices about 2 cents higher for spot, and nearly 3 cents for the December option. Very heavy purchases have been made within the past few days. It is especially interesting that, in spite of the general disposition of farmers to hold back their wheat, the western receipts have been for the week much larger than last year.

The price of spot cotton is a sixteenth lower than a week ago, and the January option has also lost a few points, while there is a weaker tone in the market for goods. This is partly due to the official admission that the prices for print cloths, now a sixteenth below 2 cents, cannot be sustained without a selling agency, which is now proposed.

The iron manufacture again reports a small increase in weekly output.

Failures for the past week were 205 in the United States, against 223 last year, and 25 in Canada against 36 last year.

BRADSTREET'S REPORT.

At most western centers an improvement in the retail and jobbing trade in seasonable drygoods, clothing and shoes is reported, and more seasonable weather at the south is responsible for some relaxation of the absurd quarantines, which have done so much to cripple trade in that section.

Good export demand on general European account, smaller shipments from Russian and Danubian points, less favorable reports regarding Russian and Australian crops, and an undoubtedly active home market for wheat for filling, superinduced by the active foreign call for flour, have all worked to strengthen the price of wheat this week, and sympathetic reflection is found in the improved call for other cereals at slightly better prices. This improvement in demand for breadstuffs is especially encouraging in view of the rather unfavorable showing made in September, when exports of breadstuffs, provisions, cotton and mineral oils combined, aggregated a total of \$18,000,000 less than September of a year ago, lower prices and smaller quantities shipped alike working to reduce the volume of export trade.

Another favorable feature in the foreign trade situation, too, has been the generally satisfactory progress in developing trade with our new possessions in the Atlantic and Pacific. Large orders on Cuban account are said to have been placed recently in New York, and heavy shipments to Manila and other Pacific Ocean points, with the reported starting of new lines of steamships to Honolulu and Australia, all bear testimony to the energetic efforts of American business men to build up our trade abroad.

Earnings and bank clearings continue to furnish favorable measures of current business, showing as they do healthy increases over corresponding periods one year ago, when activity was especially marked.

The general tone of prices is firm, all the prominent cereals figuring in the list of advances, while cotton, the south's great product, is conspicuous because of the decrease in prices shown for the week, owing primarily to the heavy crop movement, foreshadowing another very large yield. Business failures for the week number 23, against 163 last week, 196 in this week a year ago, 279 in 1896, 293 in 1895, and 253 in 1894.

Doctoring on a Business Basis

Medicines, more than anything else in the world, stand solely upon their merits. Nobody uses a worthless medicine but once, and there is no subject more generally discussed than diseases and their remedies. Only the best survive the crucial test of popular experience. One of the few remedies with half a century of successful practice to its credit is Shiloh's Cough and Consumption Cure. It is sold on a positive and business-like guarantee. The following is printed on the outside wrapper of every bottle:

"You must acknowledge that it would be the height of folly to guarantee this medicine, unless we have positive evidence that it will relieve and cure these complaints. While there are many other good remedies, the proprietors have not the faith to guarantee them. All we ask of you is to use two-thirds of the contents of this bottle faithfully, then if you can say that you are not benefited, return the bottle to your druggist, and he may refund the price paid, only requiring you to write your name and address in this blank space as evidence of good faith, and as a record which we desire to preserve. S. C. WELLS Company, Proprietors, Le Roy, N. Y."

Shiloh's Cure stops the ravages of the germs of consumption by destroying them and enabling the affected parts to heal. The tonic properties of Shiloh strengthen the weakened mucous membranes and enable them to throw off the deadly bacilli. Taken in connection with special nourishment, hygienic living, and clothing in pure wool, the sufferer from incipient consumption is sure of a complete recovery. Shiloh's Cure is for sale by all druggists at 25c., 50c. and \$1.00 a bottle throughout the United States and Canada. In England 1s. 2d., 2s. 3d. and 4s. 6d.
