projector gas and shell bombardment in the history of the western front. From early last night until early this morning our heavies and nowitzers raifed shells upon the hostlle battery positions, using gas and high explositives. While at 2 o'clock this morning over 1,200 drums of lethal gas were projected against the enemy trenches and support areas, in an intensive concentrated bombardment of the Lens area, immediately north of Lens.

Bombardment followed bombardment at great and lesser intervals, in a sclentific, carefully-thought-out program of organization, and to silence the enemy guns and kill the enemy guns and kill

while some estimate of the likely damage may be gathered from the results of a similar shoot on April 8, in which 22 out of 32 of the enemy batteries were put out of action, and have not since fired a shell.

In the midst of this destructive operation special units carried out a projector gas bombardment against Lens In the few seconds occupied in releasing the gas, flares went up all along the enemy front line. The men in our trenches could distinctly hear cries of distress from the enemy caught without masks.

only to be met with a heavy retaliation from our 18-pounders against his most vulnerable positions. To add to the liveliness, our trench mortars and machine guns kept up a harassing fire all night.

With such gas and artillery activity.

With such gas and artillery activity. with such gas and artillery activity, awrd and left to their fate. These things lished annout with such gas and artillery activity, awrd and left to their fate. These things lished annout Government.

With such gas and artillery activity, there has also been more infantry action since my last cable. It has largely been of a local nature, in which our patrols and raiding parties have again and again entered the enemy positions, often to find that the foe had retired. In one patrol encounter our men drove the enemy out of his post and captured a machine gun, a number of rifles and other souvenirs.

With such gas and artillery activity, awrd and left to their fate. These things are beginning to turn up in all sorts of places, Paris having collected a large number of bundles which came from many points along the line.

Saved the instruments.

Iron beds and other heavy things had to be abandoned and in some instances considerable stores of medicines, but most of these were destroyed, and a torch was applied to the huts. The precious surgical instruments were destroyed. GEN. MAURICE PROMOTED

TO A FIELD POSITION

VON KUEHLMANN TO QUIT

Mr. GORTON SAYS

NUJOL LABORATORIES, STANDARD OIL COMPANY (New Jersey) BAYONNE, NEW JERSEY.

I am 74 years of age, and had chronic constipation for years. Have suffered much at times trying to get relief by using physics. Now I use Nujol every morning just an hour before eating, and find it sure to give relief without griping pains of any kind, It leaves no bad results.

I cannot say too much in favor of Nujol as the best remedy for constipation, sour or burning stomach; it gets away with those troubles right away. My friends use it with the same results, never fails, no griping, no physicing, no inconvenience. I surely recommend it to all sufferers from constipation, old or young. Hurley, South Dakota,

Yours truly, January 3, 1917. J. B. GORTON.

Mr. Gorton's letter is a valuable endorsement of Nujol to every sufferer from constipation. In all cases Nujol is a gentle, natural aid to normal bowel-action.

Don't merely tell your druggist, "Give me something for constipation." Insist on Nujol. You then protect your health against harmful pills and salts-you run no risk of making the bowels dependent on laxatives and cathartics. There is not a single drug in Nujoli It is a safe remedy for young and old that makes you "regular as clockwork."
