

UNSAFE TO LEAVE SHOES
ANYWHERE IN GERMANY

BERLIN, via London, July 19.—The time-honored custom among hotel guests depositing one's footwear in the

corridor outside the door, to have it polished, is likely to come into disuse for the time being. The growing demand for shoes, even cast-offs, has encouraged thefts of footwear in hotels. In order to rescue hotel guests from

their predicament in the case of such losses, the Imperial clothing bureau has ordered that purchasing certificates be issued without the ordinary restrictions whenever the applicant is able to prove that he has been robbed of his boots in a hotel.

PEACE ONLY

but must refuse to permit ourselves to be involved in a world war through Austria-Hungary disregarding our counsel. The man who wishes to kindle a world war does not write like this, but like a man who is laboring and has labored for peace to the utmost.

Forced to Fight.

"The concentration of the Russian army compelled Germany to seize the sword. There was no choice left to us, and what is true of the war itself is true also of our weapons, particularly the submarine. We deny the accusation that the submarine warfare is contrary to international law and violates the rights of humanity." (Applause.)

"England forced this weapon into our hands through an illegal blockade. England prevented neutral trade with Germany, and proclaimed a war of starvation. Our faint hope that America, at the head of the neutrals, would check English illegality was vain, and the final attempt we made by an honorably intended peace offer to avoid the last extremity failed.

"Then Germany had to choose this last measure as a counter measure of self defence. Now also I must carry it through for the purpose of shortening the war. (Applause.) The submarine war is accomplishing all and more than all it is expected to. False reports which found their way into the press as a result of the secret session of the Reichstag, evoked for a time a certain

"ANURIC"!
THE NEWEST
DISCOVERY IN CHEMISTRY

This is a recent discovery of Doctor Pierce, who is head of the Buffalo Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Doctor Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "Anuric," manufactured by Dr. Pierce, or send 10 cents to Dr. Pierce for a large trial package. If you suspect kidney or bladder trouble, send him a sample of your water and describe symptoms. Doctor Pierce's chemist will examine it, then Dr. Pierce will report to you, without fee or charge.

Note—French scientists affirm that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid, and is a harmless but reliable chemical compound that may be safely given to children, but should be used only by grown-ups who actually wish to restore their kidneys to perfect health, by conscientiously using one box—or more in extreme cases—at a time (thanks to Doctor Pierce's achievement) is by far the most perfect kidney and bladder corrector obtainable.

feeling of disappointment, which ended at a particular time.

"The 'Brave Submarine'." "I declare, in fact, that the submarine accomplishes in the destruction of enemy tonnage what it should. It impairs England's economic life, and the conduct of the war month to month in a growing degree so that it will not be possible to oppose the necessity for peace much longer. We can look forward to the further progress of the brave submarine with complete confidence. (Hearty applause.)

"I desire to send home greetings to our troops on all fronts, land, sea, air and undersea. What our troops, under the leadership of great commanders, have accomplished in three years is unprecedented in the world's history. Our thoughts also turn to our true allies, a brotherhood in arms, which, cemented and tested in heated battling, will not be dissolved. Germany will hold fast in faithful alliance to its treaties and agreements."

"Military Situation Good." "It is reported from the supreme army command that the military situation is very good. The great Anglo-French spring offensive in the west has been shattered by our armies, which show their unbroken power and superiority."

"In the east, in consequence of the confusion in Russia, the attack of Russian millions did not materialize, and there is comparative calm."

"Only after false reports and incitement by Russia's allies had stirred the Russian soldiers did the present offensive develop. Its goal was Lemberg and Drobovitz. General Brusilov, with all his enormous sacrifices, has gained only a slight advantage. A half an hour ago I received the following telegram from the field marshal: 'Provoked by the Russian offensive in Galicia a strong attack was inaugurated there today under the personal leadership of Emperor Leopold of Bavaria. The German troops, supported by the Austro-Hungarian troops, broke through the Russian positions near Glogow. General Brusilov's gains, therefore, have been equalized.'

"Refers to Greece." "Greece was forced by violence to enter the war against us. Our common front with the brave Bulgarian stand firm."

"Italy, even through the eleven-month battle against our war-torn Austria-Hungarian brothers, will not be able to attain the goal of its breach of faith—the possession of Trieste."

"We look without serious concern upon the optimistic sentiment in the Entente countries caused by America's intervention. (Applause.) It is easy to reckon how much necessary to transport an army from America to Europe, how much tonnage is required to feed such an army, and how much England is scarcely able to feed and supply their own armies without influencing the economic situation still further. After our previous success we shall be able to master the situation also through our fleet, particularly the submarines. That is our firm conviction and assurance. We and our allies, therefore, can look forward to any further development of military events with calm security. (Applause.)

"Anxious for Peace." "The burning question in our hearts, however, is how much longer the war is to last. With this I come to a matter which stands in the center of all our interest and all our proceedings today. Germany did not desire the war in order to make violent conquest, and therefore, will not continue the war a day longer merely for the sake of such conquest. It could obtain an honorable peace."

"The Germans," he said, "wish to conclude peace as combatants who have successfully accomplished their purpose and proved themselves invincible first. A condition of peace with the inviolability of Germany's territory. No parity was possible with the enemy demanding the cession of German territory."

"Give and Take." "We must, by a spirit of give and take, guarantee conditions of the existence of the German Empire upon the continent and overseas," continued the chancellor.

"Michaelis' words on this point required a careful reading, and are capable of various interpretations other than a surface one. His remarks indicate a willingness to make peace only as victors, and in his use of the words 'give and take' and 'give and take' (the German words *verhandeln* and *auegleich*). He revivifies the Reichsmann ideas of readjustment of the frontiers and colonial possessions by bargaining rather than the restoration of the status quo. Peace, he said, must offer the foundation of a lasting reconciliation of nations. (Loud cheers greeted this statement.)

"Fears Economic Offense." "It must be continued, 'as expressed in your resolution, prevent nations from being plunged into further enmity through economic blockades, and provide a safeguard that the league of the armament does not develop into an economic offensive."

"These aims may be attained within the limits of your resolution, as I interpret it. (Cheers.) We cannot again afford to have our loyalty steadily hatched out our hands once. It met no response, but with the entire nation and Germany, the army and its leaders in accord with this declaration, the Government feels that if our enemies abandon their last fortresses and their aims at subjugation, and wish to enter into negotiations, we shall listen honestly and readily for peace to what they have to say to us. Until then we must hold out calmly and patiently. Times Are Severe."

"The present time is, in regard to food conditions, the most severe we have experienced, and in the month of July has been the worst. Drought has delayed and wants exists in many cases, but I can declare with glad confidence that relief will shortly set in, and the population can then be supplied more adequately."

"Nothing can yet be said about the harvest, but the fact is already established that the harvest of potatoes will be better than is believed. Straw is indeed short, but the development of the kernels is excellent, and we shall, as in 1915, reckon upon an average harvest. In the wide regions of the empire, rain has fallen, and everywhere in time enough to bring potatoes. "We hope for a good potato crop, and if we utilize the increase from Rumania and other occupied territories, the shortage of fodder with which we should otherwise be confronted will be overcome. If it has been proved in these three years, even in the case of a bad harvest, as in 1916, that Germany cannot be starved out at all."

"Internal Clashes." "With rigid appropriation, limited rationing, and an adequate supply, it gives us an inestimable advantage over England. A painful experience in wide areas has shown that on account of war conditions, relations between the town and country populations becomes a source of trouble. Enlightenment here is an absolute necessity."

"Urban population must appreciate the great difficulties under which agriculture suffers through war conditions. On the other hand, the country population must be made to understand thoroughly how important industry in great cities has been and is. If that is done, a rapprochement will follow, and each will do for others what he can and what is his duty. The successful experiment of transferring hundreds of thousands of city children to the country may perhaps build the bridge, but we must take pains in every way to see that this conflict of views is moderated, alleviated and ended."

"Dodge's Reform Issue." Chancellor Michaelis declined, owing to his shortness of time in office, to state exhaustively his position on internal questions, accepted the Imperial manifesto of July 7 upon the Prussian franchise, and believed in closer relations of the Government with the big parties in parliament. He said he was willing to call men possessing the confidence of parliament to executive posts, but not in any way to surrender control of the Government.

In his remarks regarding internal questions, the chancellor said: "You cannot expect me, as I have been in office only five days, to express my views today exhaustively and finally on the pending questions of internal policy. It goes without saying that I stand upon the ground of the Imperial rescript of July 11 concerning the franchise in Prussia. I consider it advantageous and necessary that closer touch should be established between the great parties and the Government. I am ready, so far as this is possible, without impairing the federal character and constitutional basis of the empire, to do everything possible to impart to this co-operation more life and efficiency."

"Don't Share Power." "I also consider it desirable that

Reliability Test

THE GRAND PRIZE OF THE OTTAWA-PRESCOTT
HIGHWAY RELIABILITY TOUR GOES TO
DR. R. E. VALIN AND HIS McLAUGHLIN D-SIX-45

Sixty-five motorists driving cars of all makes started on June 28th in the Reliability Tour from Ottawa to Alexandra Bay via Prescott and Gouvenor, N. Y.

The McLaughlin D-Six-45, driven by Dr. R. E. Valin, emerged with a perfect score of 1000 points from the grueling tests to which all were subjected. So keen was the competition for highest honors that Referee Edenburn had to devise special tests in which the McLaughlin proved its superiority.

McLaughlin supremacy in points of Power, Easy Control, Efficiency and

Economy has again been established by this Tour.

The results of the tour reflect credit on Dr. Valin as well as on Canada's Standard Car.

The Reliability Tour was not a road race nor a speed test. No professional chauffeurs took part. Owners drove their own cars and the tests brought out the best both in car and driver.

Canadians who want the joys of motoring, without the annoyance of mechanical trouble, will heed the lesson brought out by this tour and make their new car a McLaughlin.

Added to these is an unparalleled list of the biggest popular hits—twenty-six such hits as "Till the Clouds Roll By," from "Oh! Boy!," catchy and tuneful, sung by Anna Wheaton, star of "Oh! Boy!" and James Harrod, operatic tenor; and "Oh, Johnny!" the hit of "Follow Me," rendered by Elizabeth Brice, Keith vaudeville star; also twelve great dances, including two long awaited innovations, ten-inch dance records at 85c, just as brilliant and perfect in rhythm as the famous 12-inch Columbia dance records!

Then there are song gems by Lucy Gates, Vernon Stiles, and two well-loved classics by Charles Harrison; two hymns by Rodeheaver; whistling, Scotch dialect and talking novelties; and bell, saxophone, cornet and Hawaiian guitar instrumental recordings completing a list that is undoubtedly the greatest in popular appeal ever offered. Every record a HIT—and you can prove it today at any Columbia dealer's in the city.
