FREE TO MEN UNTIL CURED.

All men, with very few exceptions, were made strong, and should be so through life. Many have abused this privilege and through dissipation have become weaklings, puny, lack confidence, can't face the slightest difficulty, have drains, losses, impotency, varicocele, rheumatism, lame back, etc., and a mere plaything in the hands of their associates. How deplorable! But all these men can be made strong, and their lives saved, if they will only turn to the right source. Electricity cures these cases, have been cured thousands of times, year for nearly forty years. So positive an aid of what my world-famed Dr. Soper Electric Belt will do that if you will call or send for one you can use it.

OFFICERS MAKE BIG HAUL UP THE HUMBER

Recover a Lot of Stolen Goods—Death of North Toronto Resident—County News.

HUMBER BAY, Aug. 25.—(Special).—County Constable George Simpson, the well-known officer who keeps watch over the Humber Bay and Mimico district, and who for the past two weeks has been keeping an especially sharp lookout up the Humber River, was amply rewarded for his diligence. About two weeks ago a large quantity of goods, amounting in value to \$150, were stolen from Mrs. Cornish, and to the value of about \$20 from Mrs. A. B. Rea. Constable Simpson found the stuff hidden away, and which was all identified to-day by the owners. The officer was accompanied by Mr. Tavenor, George May and George Smith. Accompanied by Detective Black and another officer, Constable Simpson to-night made other discoveries. The first was a valuable launch, which was found in the marsh, completely hidden from sight. Some time ago a valuable gramophone, valued at \$100, was stolen from the residence of Mrs. Magann at the foot of Dowling-avenue, on the lake shore. This was recovered together with a number of records. The booty recovered is supposed to be all the work of the same gang, and but for the good and persistent work of Constable Simpson and the others would probably never have been recovered. Mr. Rea reports the loss to-night of his gasoline launch, which was taken out of Mimico Creek.

Rifemen Continue to Lead by a Good Margin, But Changes Are Promised.

The Queen's Own Rifles continue to lead the parade for The World's Shooting Trophy. The Royal Grenadiers, Governor-General's Body Guards and Highlanders are doing their utmost to overcome the lead, but the riflemen seem to have established themselves in the favor of the public, and it will require quite a number of votes to get in advance of the boys in rifle green. However, the Guards, Grenadiers and Highlanders have not given up hope by any means, and there will be important changes in the standing of the corps in a couple of days. The Royal Grenadiers say that the cup is to become a permanent trophy for the annual matches of that regiment, and the Highlanders want to hang it up as a Tyro trophy, but in the meantime the Q.O.R. have nailed it to the mast and will require a good number of votes to move it from the position it now occupies. The G.G.B.G. are out scouting and there will be things do heard before the next review. The Guards have an eye on the trophy, and the corps which beats them out in the final will have to be on the alert before review.

STILL ANOTHER FAILURE FOLLOWS WALL ST. 'WASH'

A. O. Brown & Co. Go Under and Affairs Are Tangled—Toronto Clients Are Protected.

NEW YORK, Aug. 25.—A. O. Brown & Co., one of the largest brokerage houses in this city, announced their suspension on the Stock Exchange this afternoon.

The transactions of the firm in the remarkable stock market of last Saturday have been under investigation by the authorities of the Stock Exchange and to-day it was announced that transactions had been made for the firm's account under the rule which provides that where a firm is unable to deliver stock sold to another broker the purchaser may buy in the stock at the expense of the firm failing to make delivery.

At the height of the boom markets of several years ago, A. O. Brown & Co. did an enormous business, said to have been larger than any other brokerage house at one time. There were five branch offices in this city and many others throughout the country, but after the panic of last fall many of the out-of-town branches were closed. At the present time, however, the firm have offices in Buffalo, Chicago, Cleveland, Detroit, Erie, Utica, Toronto, Ont., and Paterson, N.J. The firm was organized in 1802. Its members are A. O. Brown, Leas Stout, E. F. Buchanan, Samuel C. Brown and W. Rhea Whitman.

D. W. Noel has been named as assignee. No statement of assets and liabilities is available as yet, but it is presumed that the figures will be large as the firm is generally supposed to have had a heavy interest in the market.

Badly Tangled. A representative of the suspended firm gave out this statement: "The affairs of the firm are badly tangled, and it was felt necessary to suspend in order to straighten them out."

The effect of the suspension upon the stock market was not so violent as anticipated by those who knew how largely an amount of stocks A. O. Brown & Co. owed to other firms. The volume of trading increased rapidly for a short time in financial circles. No general movement in either direction.

E. F. Buchanan, a member of A. O. Brown & Co., made a statement in regard to the firm's position, just before going into conference with the assignee. He said he could give no idea of the firm's liabilities or assets, but the failure was not a serious one and the firm hoped to pay 100 cents on the dollar and resume operations before long.

Announcement Causes Excitement

The announcement of the suspension of the firm was made about 1 o'clock yesterday and caused quite a stir for a short time in financial circles. The branch office here was in charge of J. Lorne Campbell with headquarters at the corner of York and Toronto streets. He said he had any statement to make said, "I have only received the bare information of the suspension from my firm and know nothing further. Accounts with Toronto brokers were very small at present and any losses here will only be of a paltry nature."

Montreal, Aug. 25.—(Special).

A. O. Brown & Co. retired from Montreal on the 24th inst. and reduced the number of its branches throughout the States. The failure will not entail any loss to Montrealers as the local accounts were all settled at the time of the withdrawal.

A QUICK RECOVERY.

Hamilton Woman Finds Runaway Boy by a Queer Chance.

John Bradley of Hamilton is a bad young man. For the second time in a month he has run away with young Eric Greenwood of 23 Baillie-street, Hamilton.

And seek he coaxed him away and his family were very anxious until one of the crew of the steamer Macassa told his mother of seeing Bradley on her son's take passage down to Toronto last Friday. She came down on the Macassa yesterday morning and spoke to P. C. Bell (122) of the matter. He directed her to the detective office in the city hall.

When she met John White on Bay-street
