Guarding the Grain

Turks' Home Troubles Will Keep Them From Other Operations.

LONDON, June 22.—Reports have been received here that a serious uprising against the Turks is in progress in Arabia, and that the rebels have captured the Holy City of Mecca. The London newspapers declare that the rebellion is certain to have an important bearing on the way especially or tant bearing on the war, especially as regards the participation of Turkey.

regards the participation of Turkey. The l'ost says:

"The uprising is due to recent wholesale executions of the Mohammedan and Syrian notables and well-known religious leaders, and also to the spread in Arabia of a feeling that the Turks have abdicated their position as the protectors of the Mohammedans and have become the vassals of Germany."

The Graphic says: "The revolt is a smashing blow at Turkey, and the capture of Mecca is an event which will shake Turkish prestige to its foundations."

A Reuter despatch from Cairo says

A Reuter despatch from Cairo says the rebels, in addition to taking Mcc-ca, have captured Jiddah, the chief seaport of Arabia, and Taif, 65 miles southeast of Mecca, and have proclaimed independence of the Arabs from Ottomer rule

claimed independence of the Arabs from Ottoman rule.

Sweeping Successes.

According to this despatch, the grand sheriff of Mecca, the chief magistrate of the Holy City, proclaimed his independence, and was supported by the Arab tribes of the west and central parts of the country. He began operations about June 9 and won signal success. It is said the garrisons of Mecca, Jiddah and Taif swrendered, with the exception of two small forts at Taif, which are still resisting. At Jiddah, 45 officers, 1400 men and six guns were captured. Medina, 249 miles northwest of Mohammed, is closely besieged, and all communications to Hejaz are in the hands of the grand sheriff.

It was stated in London that the rising at Mecca was preceded by a similar insurrection at Kerkela, about 55 miles southwest of Bagdad in Mesopotamia, which is a sacred city be-

sopotamia, which is a sacred city because it coatains the tomb of Hussein, a grandson of Mohammed. All the Turks were driven out of Kerbela.

Pan-Arab Movement.

The revolt is the outcome of the socalled pan-Arab movement, which has been gaining impetus since 1913. It aims at the abolition of alleged Turkish misrule, oppression and maltaxation, at the ejection of the Turks from the withle of the Arabian peninsula GRAND TRUNK RAILWAY

ALLEGED DUE SALESMAN RAILWAY ALLOWED TO CONNECT LINES

Suburban Company Can Link Up Dundas and Guelph Tracks.

CITY TURNED DOWN

Railway Board Sees No Rea. son to Withhold Permission Sought.

The City of Toronto was turned lown flat by the Ontario Railway Board in an important judgment hand. Board in an important judgment handed down yesterday with regard to the application of the Toronto Suburban Railway Company for the approval of the board of its deviation of Dundas street line to link up with its trunk line to Brampton and Guelph. The city opposed this on the ground that "the radial or interurban cars of the company would be operated over its street surface tracks which are now within the City of Toronto, and that the intermingling of the company's local and thru traffic would unduly interfere with the local service and would introduce conditions of danger that could not be tolerated."

The board replied that the company

troduce conditions of danger that could not be tolerated."

The board replied that the company had the right to do so, and the board had no power to deprive them of that right. And, further, that the board had observed that in Buffalo, Detroit and Cleveland a condition similar to that opposed by the city was in operation with success.

No Reason to Refuse.

The judgment declares that "the board sees no valid reason upon which it can withhold the approval sought! Referring to the powers granted to the company in the act, the board says: "No language could be plainer than this, that one purpose of the company's act in 1904 was to enable it to construct branch lines. Against such enabling provisions, what can it avail to urge, as it has been urged, that the applicant's railway was originally and now is a local street railway and therefore cannot be connected with the later western extension, which is in the nature of a trunk railway destined to transport, not local, but thru traffic?

"If the legislature has chosen by this enactment to authorize the linking together of the applicant's project as originally designed and constructed—a purely local street railway—with a more ambitious enterprise subsequently launched of a trunk or interurban railway, it does not rest with this board to say it nay."

After reviewing the provisions of the act by which the opposition of a nunicipality can be overridden by the board, the judgment says plainly "It will not suffer the undertaxing to be frustrated by the opposition of purely local interests, and has vested in the board power to order a deviation in the event of any municipality proving recusant."

The bourd therefore orders the suffer the cusant."

event of any municipality proving re-cusant."

The board therefore orders the con-struction of the deviation.
