View of Lord Curzon.

It is expected that the official conventions adopted at the international labor conference held under the league of nations in Washington will be before the government shortly. Some weeks ago the conventions were handed to the secretary-general of the league of nations for transmission to the various states represented at the conference. How the work of the labor conference is regarded by the British government is indicated in statements made by Lord Curzon, foreign secretary, at the first meeting of the council of the league—a full report of which has been received by the authorities here. Referring to the conventions and recommendations adopted by the conference, Lord Curzon said: "There is every hope that within twelve months the provisions of these instruments will be placed on ARMSTRONG—On Monday, February 16, 1920, at 57 Bloor street east, Toronto, of pneumonia. U. S. Prohibition Has Turned Bahamas Deficit Into Surplus

Nassau, Bahama Islands. Feb. 16.—Prohibition in the United States, which caused enormous amounts of liquors to descend almost like an avalanche upon this city, has transformed the Bahamas government's financial conditions as if by magic from a deficit to a comparatively huge surplus, provided labor for large numbers of unemployed Bahamans, and put more money in circulation in this little British colony than has been the case for many years. Sir William L. Allardyce, governor of the colony, made this known officially in an address, formally opening the 1920 session of the Bahamas legislature.

Original estimate of the colony's revenue was \$272,000 for the year and

Original estimate of the colony's revenue was \$272,000 for the year and expenditures \$526,000, with a deficit of \$154,000, to be made up thru increased taxes and duties. With the banishment of wines and liquors from the United States. Nassau became one of the havens of refuge for wet goods, being one of the nearest foreign ports, outside of Canada and Mexico. Half a dozen vessels brought full cargoes and the duties from these wines and liquors have restored the Bahamas government's fall of fortunes, due to the war, from a deficit to a surplus, three times as large as the expected deficit. of about \$555.000.
