

FOR SIX UNBROKEN UNIVERSITY GRADS

Toronto University Confers Degrees in All Faculties on Students.

TROUBLELESS YEAR

The red letter day in the lives of some six hundred young men and women attending the Toronto University came yesterday when they received their degree in the various sciences at the annual convocation exercises held in Convocation Hall. The seating capacity of the huge amphitheatre was taxed to capacity by former graduates, friends and relatives of students who had assembled to do honor to the class of 1920.

Following the graduating procession came the staff of the university and a number of prominent invited guests, including Sir Charles Townshend, K.C.B., LL.D., all attired in their robes of office, and followed by Sir William Meredith, chancellor of the university.

The mock list of the hall had been reserved for the women graduates and they presented a sight that will long be remembered, clad in their white graduation gowns, and each wearing one of their bearing a large sheaf of roses.

Doctors of Philosophy. Professor James McMurrich, head of the anatomical department, presented the first five graduates of their degrees of doctor of philosophy. Four candidates for doctor of medicine and two for the doctor of pedagogy were presented by Prof. J. H. Madson, head of the faculty of education, and respectively, thirty-nine former graduates returned to their alma mater to receive the degree of master of arts, while out of the six hundred graduates, two hundred and twenty-six were awarded their bachelor of arts degree. The faculty of medicine was well represented by sixty-one candidates, two of the class being young women. The faculties of applied science, forestry and agriculture, the latter situated at Guelph, Ont., had over two hundred graduates. The faculty of dentistry were awarded their degrees, but only a few of the class were in attendance at the official function.

At the conclusion of the graduating ceremony, Sir Robert Falconer announced the list of medals, prizes and scholarships that had been awarded by the senate of the university of Toronto for the academic year of 1920. The completed list is as follows:

Prizes. The All-sons historical essay prize, no award given. The G. W. G. prize, an award of twenty dollars from the funds of this prize in recognition of considerable work. The Queen's bursary, ten pounds, Miss H. M. Macmillan. The Anna Howe prize in household science, Miss E. W. Eastcott. The Scholastic prize, The Knox scholarship for 1919, M. D. C. Tait.

Scholarships. The Alexander Mackenzie scholarships in political science, I. C. M. Vining; A. F. Anna, The A.A.A.S. scholarships in mathematics and physics, H. G. Smith. The A.A.A.S. scholarships in physics, Miss M. F. Case and W. H. McArthur. The Lester Wilson scholarship in biological and physical science, Miss E. W. Eastcott. The Daniel Wilson scholarship in biology, J. Laughton. The Daniel Wilson scholarship in chemistry, W. C. Mackenzie. The Noble Daniel Wilson scholarship in geology and mineralogy, H. K. Swann. Awarded by the senate of Victoria College.

Medals. Governor-General's silver medal in modern languages, G. E. Unwin. Medal in mathematics in classics, Miss M. A. Dickinson. Prizes. The square French prose prize, Miss M. A. Dickinson and Miss H. K. Swann (equal). The Hamilton Flisk Biggar scholarship (physical and biochem. sciences), N. S. Clark. The Hamilton Flisk Biggar scholarship (chemistry), A. E. H. Westman. Awarded by Trinity College.

Fourth year.—The governor-general's silver medal for the best degree in science, N. D. Bush (mechanics). The Edward Wilson gold medal (physics), J. N. D. Bush. The J. J. Madson gold medal (mathematics and list. moderns), Miss E. M. Thornton. The gold medal (modern history), H. M. Macmillan. The gold medal (political science), E. H. McKinnay. The E. J. Sanford gold medal (philosophy), W. H. Moser. The silver medal (mathematics and physics), G. M. Shrum. The Geo. A. Cox gold medal (natural science), Miss E. W. Eastcott. The W. J. Robertson prize (Can. const. hist.), H. D. Lang.

Third year.—The George John Elwell scholarship (philosophy), E. W. Jewitt. The Hamilton Flisk Biggar scholarship (chemistry), A. E. H. Westman. Awarded by Trinity College. The governor-general's bronze medal for the best degree in science, Miss W. P. Scott. The public scholarship, W. Dawson. The Prince of Wales' prize for the highest first-class honors in classics, J. B. West. The Prince of Wales' prize for the highest first-class honors in political science, D. A. C. Martin. The prize for the highest first-class honors in commerce and finance, T. Oakley.

Third year.—The Wellington scholarship in classics, C. E. Phillips. Awarded by St. Michael's College. Fourth year.—The M. J. O'Brien prize in philosophy, J. L. Keogh. The Dockery prize in English of the past course, Miss P. T. Roman.

Third year.—The Dockery prize in English of the past course, T. S. Melady. A Year of Peace. Sir Robert Falconer then went on to say that the graduating class of this year was vastly different from those of the past five years, as they were the first that had completed their studies in a year that was free from the troubles and anxieties that had been experienced by the classes held during the war.

A large number of the class now graduating were men who had seen overseas service and it was a remarkable fact that these men had made a great record in their final examinations. He based this on the fact that education does not alone consist of book knowledge, and these men, by reason of their experience in active war regions were able to discern quickly the essentials of their studies.

On behalf of the board of governors, Sir Edmund Walker and Professor C. A. DeLury, M.A., presented to the university two portraits of Robert Gaspar Wright, M.A., D.Sc., Edin., LL.D., vice-president of the faculty of arts, 1901-1902, and Alfred Baker, M.A., LL.D., dean of the faculty of arts, 1912-17. These paintings are from the brushes

FIREMAN INJURED; CHINAMAN BURNED

Laundry Fire, Caused by Overheated Stove, Results in Two Casualties.

Fireman Allison, of No. 3 hose wagon, Yonge street firehall, had an artery in his arm cut last night, and Ching Song, 29 Howard street, was burned about the hands and face by fire which broke out in a laundry at the Howard street address from an overheated stove. The fire spread to Nos. 27 and 31 and the loss by damage to these three places was estimated at \$1,000.

The stove was situated against the wall, and when it became overheated the walls ignited and the laundry was in flames. Song ran to the cash drawer and while taking the money out was burned about the face and hands. He was attended by firemen of Rose avenue hall. Fireman Allison was injured when the glass panel in the front door was broken. His arm was bandaged and he was rushed in one of the fire cars to the General Hospital.

No. 27 Howard street is occupied by Miss Clara Wilson and No. 31 by L. White & Sons, cleaners and dyers. The fire alarm was recorded at 7:30 last evening.

REFUSE HIGHER FARES TO LONDON RAILWAY

City Council Votes, Six to Three, Against Granting Concession Sought.

London, Ont., June 4.—By a vote of 6 to 3, the city council tonight, at a special meeting, rejected a bylaw to permit the street railway to advance its fares to five cents, and seven special tickets for 25c. On this bylaw was to be based an agreement with the company, the increased revenue to go toward increased wages for the men, and any surplus to be placed to the credit of the city as a special fund. The question may be brought up again at the regular meeting on Monday. The street railwaymen will wait until then before deciding on whether or not they will strike.

ICE CREAM MANUFACTORY IS ABLAZE IN HAMILTON

Hamilton, June 4.—(Special).—The old warehouse of Burke Bros., ice cream manufacturers, on Sheaffe street, was almost completely gutted by fire tonight. The alarm was turned in at 9:35 and the blaze was not under control until after 11 o'clock. Heroic work on the part of the department kept the fire from spreading to surrounding buildings. The loss could not be estimated.

GERMAN PARTIES AT DAGGERS DRAWN

Election Meetings Broken Up and Reports of Plot Wreck Booths.

Berlin, June 4.—The newspapers report that passions are running high at public meetings in various parts of Germany, citing a meeting at Bergen, on Ruegen Island, where the Nationalist chairman was badly thrashed, knives used, and the meeting broken up, and a meeting of the people's party at Luboe which was broken up by a free fight. The rightist newspapers charge the radicals with irregular methods. The Tageszeitung asserts the coalition parties are paying their election expenses from the public moneys. Vorwarts reports that all is going well for the Social Democrats in the industrial region. Die Freiheit reveals an alleged plot to wreck the election rooms and destroy the ballot boxes. Elaborate precautions are being arranged for the safety of Reichstag at 508, but the building's capacity is 450 and no suggestions have thus far been offered as to how the surplus could be accommodated.

MEN'S SOCIETY MEETS

The final meeting of the executive committee of the United Men's Societies of the Church of England was held in the schoolroom of St. Stephen's Church on Thursday, with Mr. George Garrett in the chair. A note of regret was passed for the continued absence of the president, A. N. Howard Moore, on account of his serious illness. After a general discussion, in the course of which it was pointed out that on account of the bishop having left for him it would not be possible for him to be present at the first annual gathering. Nevertheless, it was hoped that this gathering would be one that would lead to the fostering of a fellowship of one church with another in the city of London, which was associated with the Anglican churches affiliated or not with the United Society. This will be a basket picnic, to be held in Exhibition Park, with headquarters at the horticultural building, on Wednesday, June 9.

Alfred Palmer, Eight Years Old, Fights Early Morning Fire

Alfred Palmer, aged eight years, 34 Geary avenue, played the part of a real hero at 1 o'clock this morning, when he jumped out of bed, and looking out of the window, saw a stable in the rear of his home on fire. The little fellow awakened every person in the house up by calling out, then running downstairs and out into the yard, he threw two pails of water on the fire. In the meantime a fire alarm was sent in, and the firemen put out the blaze. The loss being \$20. The fire was caused from spontaneous combustion.

ALEXANDER WILL NOT ABDICATE

London, June 4.—Rumors which have been circulating that King Alexander of Greece contemplates visiting his father, former King Constantine, and that it is his intention to abdicate, are denied by the Greek minister at London. He declares that no change in the present status of Greece or King Alexander is looked for.

SCORE UNPRECEDENTED PRICE REDUCTIONS ON SUITINGS.

This radical clearance sale of High Class Suitings has put an impetus into trade that is the very best proof that could be had of the confidence in the genuineness of the price reductions and the high quality of the merchandise—these for example: English worsteds, regular \$50.00, for \$33.50. Irish serges, regular \$75.00, for \$52.50. and Scotch tweeds, regular \$65.00, for \$44.50—Scores, Tailors and Haberdashers, 77 King West.

REFORM LIQUOR INSPECTION.

Montreal, June 4.—Because of serious infractions of the prohibition law in Quebec, the provincial government has decided to reform its system of inspection of liquor selling. Fifteen inspectors, stationed in the stores of authorized vendors, have accordingly been dismissed.

Of Amesby Brown and Wily Grier, respectively. An open-air garden party was held at the rear of the main building on the conclusion of the exercises. The music of this function was provided by the 48th Highlanders' Band.

DELIBERATE INSULT TO THE PRESIDENT, SAY THE DEMOCRATS

U. S. House Backs Up Senate Resolution Regarding Armenia.

WILL TAKE NO ACTION

Washington, Saturday, June 5.—Republican leaders in the house early this morning reversed their decision not to call up before adjournment, the senate resolution declining to grant authority to the president to accept a mandate over Armenia, and Chairman Porter of the foreign affairs committee announced the resolution would be voted on during the day.

Washington, June 4.—Decision not to take action on the senate resolution denying President Wilson's request for authority to accept a mandate over Armenia was reached tonight by Republican leaders of the house.

Speaker Gillet told Republican members of the foreign affairs committee, who had reported it favorably, that some members wished to abandon action on the measure because they did not wish to arouse dislike of persons sympathetic with Armenian aims.

Democratic members of the committee expressed opposition to the senate resolution in a report tonight to the house. The report declared the language of the senate resolution to be "a direct, deliberate and gratuitous insult to President Wilson." The report added that the measure "injects the spirit of political partisanship into a question of importance to peace and civilization."

GERMAN PARTIES AT DAGGERS DRAWN

Election Meetings Broken Up and Reports of Plot Wreck Booths.

Berlin, June 4.—The newspapers report that passions are running high at public meetings in various parts of Germany, citing a meeting at Bergen, on Ruegen Island, where the Nationalist chairman was badly thrashed, knives used, and the meeting broken up, and a meeting of the people's party at Luboe which was broken up by a free fight. The rightist newspapers charge the radicals with irregular methods. The Tageszeitung asserts the coalition parties are paying their election expenses from the public moneys. Vorwarts reports that all is going well for the Social Democrats in the industrial region. Die Freiheit reveals an alleged plot to wreck the election rooms and destroy the ballot boxes. Elaborate precautions are being arranged for the safety of Reichstag at 508, but the building's capacity is 450 and no suggestions have thus far been offered as to how the surplus could be accommodated.

The Times' message remarks that while refusal of the triple alliance's support for the Nationalist party in the strike in Ireland, is not certain regarding this case. The principle involved is that of a body of people, the prospects of which are not supported is also declared to be good.

THREE HUNDRED TEACHERS JOURNEY TO GUELPH COLLEGE

Hamilton, June 4.—Hamilton's school teachers today to the number of about 300, under the direction of Inspector James Gill and Geo. L. Johnston, president of the teachers' institute, journeyed to Guelph, where they were the guests of the Ontario Agricultural College authorities. The trip was taken in place of a meeting of the institute.

No Monopoly in Exchange For Loan by U. S. to Italy

London, June 4.—A Reuter despatch from Rome says the statement that the Italian Government is obtaining a loan of thirty billion lire in the United States, in return for the tobacco monopoly, is semi-officially denied. The despatch adds that the government never has entertained the idea of ceding any monopoly.

Additional Boat Service Between Toronto and Port Dalhousie.

Announcement is made that the Niagara, St. Catharines Line will have a double daily boat service between Toronto and Port Dalhousie, commencing about the middle of June. A twin screw steel steamer of approximately the same dimensions and speed as the "Dalhousie City" has been added to the line, and the increased service thus provided will offer every facility for the handling of picnics and excursions.

Charter Eight More Ships For Government's Marine

Ottawa, June 4.—(Canadian Press). A further list of eight Canadian government merchant marine vessels are chartered this week as separate companies, as has been the practice of the merchant marine of the past. The vessels granted charters during this week were: Canadian Prospector, Victor, Farmer, Importer, Cruiser, Commander, Pathfinder, Exporter,

LAKES WOULD HAVE TO NAVIGATE BY WORLD

Important Forecast Made at Joint Waterways Com- mission Sitting.

MEETS AT DULUTH

Duluth, Minn., June 4.—Eighty per cent of the world's tonnage would be available for lake and ocean traffic at once if the proposed Great Lakes-St. Lawrence tidewater, channel was open. C. C. West, vice-president of a shipbuilding company at Manitowoc, Wis., told the International Joint Waterways Commission here today.

He said this passage of vessels, plying between all the ports of the world, could enter Duluth harbor if the channel project went thru. He explained that the lake ports were built, generally speaking, to accommodate ships of twenty-two feet draft.

"There are now plying between ocean ports 12,500 vessels of less than 1,500 tons capacity," he said. "There are 3,231 vessels of between 1,500 and 3,000 tons; 5,000 between 3,000 and 7,000 tons; 3,000 between 7,000 and 15,000 tons, and 238 vessels of more than 15,000," he added. This does not include passenger ships and the proposed St. Lawrence channel would accommodate vessels of from 6,000 to 7,000 tons burden.

IRISH ADVISED TO RESUME WORK

Pending Decision of Congress Called to Consider Question of Transport.

London, June 4.—Reluctance of the trade unionists to support the Irish munitionists is further shown in the fact that James Henry Thomas, M.P. for Derry and general secretary of the National Union of Railwaymen, has advised the Dublin strikers to resume work, pending the congress which is to be called to consider the question. Irish delegates have arrived in England in connection with this matter, and have been permitted to address the Transport Workers' Congress, now sitting at Southampton.

Thomas Farrer, president of the Irish Trades Union Congress, who is among the delegates, said that if the British labor leaders denied the blockade of munitions munition longer there would be no need for any action. Mr. Johnson, another member, declared that if an attempt was made to run troops through Ireland, the trains would be stopped, and that "then there would be war," which would mean, added Mr. Johnson, that during the autumn and winter no Irish food would reach England.

Not Favorable to Proposal. The attitude of the Dublin strikers toward the suggestion of Mr. Thomas that they should be discharged from their dispatch to the London Times. The strike committee, the despatch states, discussed the matter but no statement was issued. It is expected the matter will take a definite turn toward the suggestion of Mr. Thomas that they should be discharged from their dispatch to the London Times. The strike committee, the despatch states, discussed the matter but no statement was issued. It is expected the matter will take a definite turn toward the suggestion of Mr. Thomas that they should be discharged from their dispatch to the London Times.

THREE OF THE FOUR BUDGET RESOLUTIONS

(Continued From Page 1).

Toronto and Kingston Votes. Practically all the public works estimates were passed. An item of \$265,000 for the enlargement of the educational block, Royal Military College at Kingston, caused some comment, but the item carried. The amount of \$425,000 was voted to complete station A in Toronto. Mr. Reid stated that this postoffice was being built in connection with the railway terminus in that city. The total cost of the building was estimated at \$1,414,000, and \$1,379,000 has already been expended.

Mr. J. J. Dennis respecting the director of coal operations was introduced by Hon. Arthur Meighen at the opening of the house this afternoon. Mr. Meighen deferred explaining the bill until second reading.

Hon. C. J. Doherty moved that the bill to amend the criminal code (French version) be discharged from the order paper, and referred to special committee. The motion carried.

Aid Yukon Mining. Second reading was then given to the bill to amend the Yukon placer mining act, and the house went into committee on this bill.

Hon. Arthur Meighen explained the provisions of the bill, which provides for changed conditions in the Yukon as regards placer mining, allows prospectors one year in which to prospect leased claims, and to stake claim for the lot he wishes to mine.

The bill was given third reading and the house went into committee on a bill to amend the inspection and sale of the customs tariff of 1915 and 1916. The bill was given third reading.

THE HOUSE THEN WENT INTO COMMITTEE ON THE BUDGET PROPOSALS.

Amendments to schedule A, of the customs tariff, 1917, were first considered. The following items were added to the free list: books on the application of science to industries of all kinds; bibles, prayer books, psalm and hymn books, religious tracts and Sunday school lesson pictures; stereoptypes, electrotypes and celluloids of books, and bases and matrices and copper shelves for the same, whether composed wholly or in part of metal or celluloid; typewriters and writing appliances especially adapted for use only by the blind, under regulation prescribed by the minister of customs and inland revenue.

Section two of the resolution provides for striking out several chapters of the customs tariff of 1915 and 1916. Sir Henry Drayton said this would have the effect of repealing the extra 7-1/2 per cent war tax. Answering Jacques Bureau, Three Rivers, Sir Henry Drayton stated that neither gas nor electric companies would be affected by the sales tax of one per cent. He did not look upon gas or electricity as manufactures in that sense.

The resolution carried and the amendments based thereon were given first reading and the committee took up the business profits tax.

Profits Tax Injustices. Sir S. W. Jacobs (George Etienne Cartier) drew attention to the apparent injustice whereby the business profits tax exacted a sum greater on the same profits in the case of smaller capitalization. He knew of one company in Montreal who invested half a million and borrowed another half million. On a profit of half a million dollars, they were taxed \$450,000.

Sir Henry Drayton explained that it was not always possible to apply such a tax as this with absolute fairness to everybody.

Would Tax the Hydro.

Ernest Lapointe (East Quebec) drew attention to the fact that publicly-owned industries were escaping a tax which bore heavily upon a similar industry, privately owned. For instance, the chief electric power company of Quebec province paid nearly \$700,000 last year in federal taxes, while the Hydro-Electric in Ontario

SUGAR FROM BRITAIN TO U.S.

London, June 5.—The London Times reports that large consignments of sugar are being shipped from Great Britain to the United States, some of these shipments it says, has recently arrived from the West Indies.

Dineen's Hats

The Dineen Co. represents the most important factories in Europe, the United States and Canada who produce Felt Hats, Silk Hats, Straws or Panamas. Just now their stock is at its best, and you have the opportunity of selecting a choice from the world's most famous makers.

- Straw Hats \$2.50 to \$6.00.
- Felt Hats \$2.95 to \$10.00.
- Panamas \$4.00 to \$20.00.
- Silk Hats \$8.00 to \$12.00.

The W. & D. DINEEN Co., Ltd.

140 Yonge Street, Toronto.

THREE OF THE FOUR BUDGET RESOLUTIONS

(Continued From Page 1).

Toronto and Kingston Votes. Practically all the public works estimates were passed. An item of \$265,000 for the enlargement of the educational block, Royal Military College at Kingston, caused some comment, but the item carried.

The amount of \$425,000 was voted to complete station A in Toronto. Mr. Reid stated that this postoffice was being built in connection with the railway terminus in that city. The total cost of the building was estimated at \$1,414,000, and \$1,379,000 has already been expended.

Mr. J. J. Dennis respecting the director of coal operations was introduced by Hon. Arthur Meighen at the opening of the house this afternoon. Mr. Meighen deferred explaining the bill until second reading.

Hon. C. J. Doherty moved that the bill to amend the criminal code (French version) be discharged from the order paper, and referred to special committee. The motion carried.

Aid Yukon Mining. Second reading was then given to the bill to amend the Yukon placer mining act, and the house went into committee on this bill.

Hon. Arthur Meighen explained the provisions of the bill, which provides for changed conditions in the Yukon as regards placer mining, allows prospectors one year in which to prospect leased claims, and to stake claim for the lot he wishes to mine.

The bill was given third reading and the house went into committee on a bill to amend the inspection and sale of the customs tariff of 1915 and 1916. The bill was given third reading.

THE HOUSE THEN WENT INTO COMMITTEE ON THE BUDGET PROPOSALS.

Amendments to schedule A, of the customs tariff, 1917, were first considered. The following items were added to the free list: books on the application of science to industries of all kinds; bibles, prayer books, psalm and hymn books, religious tracts and Sunday school lesson pictures; stereoptypes, electrotypes and celluloids of books, and bases and matrices and copper shelves for the same, whether composed wholly or in part of metal or celluloid; typewriters and writing appliances especially adapted for use only by the blind, under regulation prescribed by the minister of customs and inland revenue.

Section two of the resolution provides for striking out several chapters of the customs tariff of 1915 and 1916. Sir Henry Drayton said this would have the effect of repealing the extra 7-1/2 per cent war tax. Answering Jacques Bureau, Three Rivers, Sir Henry Drayton stated that neither gas nor electric companies would be affected by the sales tax of one per cent. He did not look upon gas or electricity as manufactures in that sense.

The resolution carried and the amendments based thereon were given first reading and the committee took up the business profits tax.

Profits Tax Injustices. Sir S. W. Jacobs (George Etienne Cartier) drew attention to the apparent injustice whereby the business profits tax exacted a sum greater on the same profits in the case of smaller capitalization. He knew of one company in Montreal who invested half a million and borrowed another half million. On a profit of half a million dollars, they were taxed \$450,000.

Sir Henry Drayton explained that it was not always possible to apply such a tax as this with absolute fairness to everybody.

Would Tax the Hydro.

Ernest Lapointe (East Quebec) drew attention to the fact that publicly-owned industries were escaping a tax which bore heavily upon a similar industry, privately owned. For instance, the chief electric power company of Quebec province paid nearly \$700,000 last year in federal taxes, while the Hydro-Electric in Ontario

ESCAPED TAXATION ALTOGETHER, BECAUSE IT WAS PRIVATELY OWNED.

Sir Henry Drayton said there was no tax on electricity nor on the consumer of electricity. The house was not talking about a tax on electricity, but about a tax on the business profits. The Hydro-Electric was not operated for profit; therefore there would be nothing to tax in taking the excess profits of private companies, the only persons hit were the shareholders. In the case of the Hydro-Electric, there were no shareholders to hit.

Taxation of C.N.R.

Hon. W. S. Fielding asked if the excess profits of the Canadian National Railways would be taxed. Mr. Vien (Lombiere) asked why, if Canadian National Railways were subject to municipal taxation, the Hydro-Electric should not be subject to federal taxation.

Sir Henry Drayton replied by asking a question. Did Mr. Vien, he asked, not think ten per cent a reasonable return. "Yes," replied Mr. Vien.

"Then," responded Sir Henry, "if these companies make more than 10 per cent, why should they not be taxed?" The resolution was carried, and a bill passed upon it introduced.

Add to Income Tax Act.

Amendments to income tax act, which provide for an increase of five per cent on incomes of \$5000 and upwards, were next taken up.

Mr. J. J. Dennis (Joliette) made a plea for those persons who had not submitted returns of incomes during past years.

Sir Henry Drayton said it was obviously improper that the act should be looked upon as a mere invitation to pay taxes. As a result of issuing writs, collections had been increased by 100 per cent.

Every effort was being made to collect taxes which should have been paid in past years. He stated that, since the 1917 returns had been made, some \$6,000,000 had been collected.

Replying to Dr. Sheard, Sir Henry Drayton said the taxpayer could secure a court of revision at any time.

Pleas for Farmers

J. J. Denis pointed out that such citizens as farmers who failed to pay their incomes in 1918, were now confronted with the necessity of delivering themselves up for the government's penalty if they made their report for 1919. He thought the government should extend some sort of amnesty to those who failed to report last year, so that they might at once be collected and pay up arrears, but escape the penalty.

Sir Henry added that people who had made no returns in 1917 and 1918 might at once be collected and admitted their fault would not be subjected to a penalty.

The Resolutions were adopted and the bill to amend the income tax act was forthwith given first reading.

Give Soldiers Preference.

Second reading was given to Hon. Mr. Rowell's bill to amend the civil service act. In the committee stage, proposition amendment was read providing that returned soldiers, formerly civil servants, may be placed on the eligible list without competition.

L. E. Peasow (North Renfrew) objected that provision was not made for what soldiers who were away. Mr. Rowell said that, as general rule, civil servants overseas had been advanced regularly in position and salary when changes were made. The object of this clause was to enable the returned soldier to regain his position on the list of eligibles without competition.

In reply to questions by Mr. King, Mr. Rowell said the cost of classification, application of classification and re-organization of printing bureau was, up to date, approximately \$140,000.

The bill was reported and will be read a third time later.

LEAGUE WILL DISCUSS BOLSHEVIKI IN PERSIA

London, June 4.—The Persian premier again has telegraphed. Firouz Mira to ask the league of nations to hold a special meeting to consider the action of the Bolsheviki in Persia. It is understood that a special meeting of the league council will be held in London next Friday.

ELECTRIC FIXTURES

5-room outfit, extraordinary value, \$19.95. HIGH EFFICIENCY LAMP CO. 414 Yonge St. Open Evenings.

ROBBED CIGAR STORE IN SIGHT OF HUNDREDS

New York, June 4.—While hundreds of commuters were entering the Hudson terminal station in Fulton street during the rush hour tonight, two armed robbers entered a cigar store directly opposite, held up the clerk at the point of a revolver, and riddled the cash register. This is the second time within two weeks that the store has been robbed, the thieves employing the same methods on the previous night. When the robbers found less than \$100, they forced the clerk to show his bank book to prove he had made a deposit during the day, and then explained that was all they had been getting "all day." According to the clerk, one of the men left his revolver on the counter and returned for it while the other waited in a taxi, in which they afterwards escaped.

PERMIT "JAY-WALKING"

Winnipeg, June 4.—The city council will not pass a bylaw making "jay-walking" an offence, as requested by the crown prosecutor, E. B. Graham, because pedestrians, under the common law of England, have the inalienable right to walk where they please," declared Mayor C. F. Gray today.

MARTIAL LAW IN ATHENS ONLY

Athens, June 4.—Martial law, which was proclaimed on Tuesday, there has only applied to this city. No censorship has been imposed.
