NO RECORD HERE

Registrar Has No Account of McMillan Marriage in Which it is Said Divorce is Sought

A despatch from Boston, published this morning, stated that Mrs. Celia M. McMillan was petitioning the Suffolk County Superior Court for divorce from her husband, John McMillan, both former residents of this city. The despatch stated also that the couple had been married here on November 22, 1900.

Inquiry by the Times this morning from Inspector J. B. Jones, failed to bring any trace of the people and showed no record of the marriage, not only during 1900, but during the period of ten years from 1895 to 1900.

LINE OF FREIGHT STEAMERS FOR ST. JOHN RIVER

Plan Being Worked Out But is Not Advanced Sufficiently for Definite Announcement

A freight line for the river is one of the possibilities for next year. It is understood that behind the scheme are some of the largest shippers along the river between here and Fredericton. An official of one of the river steamship companies is spoken of as having been offered the management of such a line, but when asked today by a Times man, he would not discuss it other than admit that the scheme was being worked out.

From what can be learned from other sources the plan is to run two trips a week between St. John and Fredericton. There would be two boats and they would be built especially for freight purposes, being constructed similar to freight boats on the Thames with engines and machinery away aft giving almost the entire length of the boat for freight.

LUMBERING CONDITIONS BAD SAYS MR. KILBURN

Home After Trip to St. John Headwaters - Andrew Rainsford Critically Ill

Fredericton, N. B., Nov. 25.—(Special)—The John Kilburn, who lately returned after a trip to the St. John headwaters, says that conditions for lumbering in that section this season are the worst experienced in years. There has been no snow and continued wet weather has put the tere-roads in frightful condition.

Hiszen Government has appointed N. J. Smith, a special game warden, to watch for violations of the law about the city.

Andrew Rainsford, of Kingsclear, brother of H. B. Rainsford, clerk of the legislature, is critically ill.

FERRY CANNOT DO THE BUSINESS

Ten Teams Left at One Trip This Morning For Lack of Room

Evidence of the increased business brought to St. John through the winter port steamers is plainly seen these days in Water street and around the ferry slip. Every morning this week there has been a lengthy procession of teams lined along this street, heavily laden with merchandise of different kinds.

As the ferryboat Western Extension, cannot accommodate many, fully a dozen teams are left behind each trip and have to wait for some one to say "next" when they take their turn and are conveyed across.

At one trip of the boat this morning ten teams were left on this side, there being no room for them on board.

ALD. POTTS CALLS COMMITTEE TOGETHER

A meeting of the ferry committee will be held tomorrow afternoon to consider a number of matters connected with the ferry system.

Chairman Potts, when asked the purpose of the meeting, said it was to consider matters that were not looked after while he was away, on account of Ald. Scully and Belyea leaving the committee.

Speaking of the change in the positions of Captain Harry Lord and Mate Mabee, he said it had been recognized for some time that Mr. Lord's eyesight was not as good as it should be, for the responsible position he held, and as it was desired to retain him in the employ of the department on account of his long and valued services, it had been arranged to have him perform the duties of mate and Mr. Mabee assumed the position of captain. The chairman said he understood Mr. Lord was well satisfied with the arrangement.

The police were called in and placed him under arrest.
