

feet. I know the cell occupied by Julie Breton ; there was no gaslight near it.

ULRIC ANTOINE BELANGER, Medical Doctor, eleventh witness, said :

The document (marked A) which I produce is an authentic list taken from the Registers of the Beauport Lunatic Asylum, of the patients who were present in the Asylum at the time of the fire on the 29th January last, and who are missing to-day. It is to my knowledge that the newspapers have published a notice requesting the public to give information of the discovery of any of the patients who might have escaped from the Asylum at the time of the fire. No such information has since been received. The above mentioned list contains twenty-six names of so many of the patients who are missing.

HYPOLITE LESSARD, twelfth witness, and one of the keepers, said :

At about half-past seven on the night of the fire, I was requested by Mr. Vincelette to help the nurses, Annie Carl and Catherine Hurley, in transferring Julie Breton from one cell to another, that is to the last cell she occupied. Another keeper, named Sylvain, accompanied me, but he did not come as far as the cell. The nurses above named having opened the door of Julie Breton's cell, told her I came to transfer her to another cell, she answered : " Very well, I will go by myself." I walked in the direction of the new cell followed by her, and she entered it alone. She was then in her night gown. She did not make attempt as if to take something before going out of her cell. She went out quietly and entered her new cell in the same manner.
