

COLPORTAGE COMMITTEE.

During the past year the Conference Colporteur travelled for six months on the northeast coast. He started from St. John's on the 20th of May, and visited Greenspond, Fogo, Twillingate, Moreton's Harbor, Tizzard's Harbor, Exploits, Little Bay Island, Little Bay, Bett's Cove, Tilt Cove, Nipper's Harbor and several other settlements in Notre Dame and Bonavista Bays, finishing his tour on the 7th of November. Despite the depression of trade and the lack of money consequent upon the failure of last season's fishery we succeeded in disposing of books to the amount of \$872 15 a showing which proves the faithfulness, efficiency and zeal with which he discharged his difficult and onerous duties.

Public Meetings in aid of this work have been held this year at Carbonear and Bonavista District Meetings and also at St. John's during the Conference Session, and the following amounts raised in support of the Committee's operations.

The Conference commends this undertaking to the favorable attention and support of our people, and as this work has been made a great blessing to our outlying circuits and missions, it has many claims on the sympathy and generosity of all who love pure literature and sound doctrine.
