Montreal Herald Predicts Over-throw of Borden

Conservative Rule in Federal Politics  
Results in Wild Ory of Extravagance  
and Scandal as it Did in Provinces

(Montreal Herald)  
The striking victory achieved by the Liberal party in the British Columbia election was not unexpected even by the Conservatives themselves. The administration given to the province under Conservative government has been characterized by an orgy of wild expenditure and an utter disregard of the rights of the common public. For the people to have condemned the shocking mismanagement and the wholesale bartering away of valuable public rights perpetrated by the administration which has now gone under would have been tantamount to having identified themselves with proceedings which were a disgrace to the province and to the dominion. The Conservative heads did their best to brazen out the situation; they did

# Little Boy Nine Months Old Had Dysentery

Dysentery is one of the worst forms of bowel complaint. The pains in the bowels become intense, the discharges occur with great rapidity, and are very often accompanied by blood, and the sufferer becomes very weak and languid.

Unless these discharges are checked, death may ensue in a very short time. There is only one remedy to use in all cases of dysentery, and that is Dr. Fowler's Extract of Wild Strawberry. It will cure when all other remedies fail.

Mrs. J. Leslie McKee, Redvers, Sask., writes: "I used Dr. Fowler's Extract of Wild Strawberry for my little boy who was about nine months old. He was awfully bad with dysentery. I had him laid down for three days and nights until when his father took him for a minute. He had both the diarrhea and vomiting. I had tried everything until my husband got Dr. Fowler's and three doses cured him."

Dr. Fowler's Extract of Wild Strawberry is the remedy you want. Do take any other when you ask for it. Manufactured only by Dr. T. M. Wilson Co., Limited, Toronto, Ont. Price 25c.

# The Treatment of Influenza or La Grippe

It is quite refreshing these days to read of a clearly defined treatment for influenza or La Grippe. In an article in the "Lancet," Dr. James Bell, of New York City, says he is convinced that the treatment is both unnecessary and injurious. When called to a case of La Grippe, the patient is usually a child who occasionally has a fever, but who is otherwise perfectly well. Dr. Bell then orders that the bowels be opened freely with a cathartic, or citrate of magnesia. For the high fever, severe headache, pain in the back, and other symptoms, he gives three hours of rest, followed by complete relief. Let us take a case of La Grippe. their best to secure another lease of life which would have enabled them to "complete their work." But the rising tide of public indignation has been too much for them. Sir Richard McBride was shrewd enough to see what was coming, and he secured himself a government berth in England so that he might at any rate save for himself a little from the impending wreck. A desperate attempt to rehabilitate the party after his departure has proved an ignominious failure. According to the returns so far not one of the ministers has been able to save his seat. WHAT BRITISH COLUMBIA HAS DONE THE DOMINION WILL DO WHEN THE NEXT GENERAL ELECTION COMES. For just as Conservative rule in the provinces everywhere resulted in a wild orgy of extravagance and scandal, so has Conservative rule in the realm of federal politics.

# TRIBUTE TO A WOMAN

When the Lusitania went down to its watery grave, taking one of our prominent writers and his wife, leading papers published a remarkable literary tribute previously paid by the husband to the wife. This was because she had been such a helpmate to him in carrying out his ideals. Thousands of women have the ambition to be such helpmates to their husbands, but lack the necessary health. Every such woman should remember that Lydia E. Pinkham's Vegetable Compound is the one remedy which will restore health and strength, the unrivaled medicine for women's ailments.

# A Message to Mothers Weak, Anaemic, Nervous, Run Down

ONLY a mother knows how hard, sometimes, is the burden she has to bear. Day by day, patiently and cheerfully, she shoulders the manifold responsibilities of the home—often neglecting herself in the effort to care for the welfare of others. And although she hides her own cares and anxieties behind a smiling face, there comes a time when her health gets undermined, her vitality diminishes, her cheerful face becomes care-worn—she feels she cannot go on any longer. It is cases like this that Wincarnis excels as a wonderful effect. Wincarnis promotes new strength, new blood, new nerve force and new vitality. Because Wincarnis is a tonic, a restorative and a blood builder and a nerve food, that is why over 10,000 doctors recommend Wincarnis. Mothers! Don't let your daily burden run your health. Don't let your cares and anxieties spoil your looks. Don't suffer needlessly. Wincarnis can give you the new health you need. The ingredients of Wincarnis have been recommended by the medical profession

# Be Careful What You Wash Your Hair With

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain undiluted coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and few quints will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair grows quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

# This Will Remove Hair or Fuzzy Growths

(Toilet Tip).  
A safe, certain method for ridding the skin of ugly, hairy growths is as follows: Mix a paste with some powdered deodorant and water; apply to hairy surface about 2 minutes, then rub off, wash the skin and the hairs are gone. This is entirely harmless and seldom requires repeating, but to avoid disappointment it is advisable to see that you get genuine deodorant.

The minister was shaking hands with a new member of his congregation, a girl fresh from Sweden, and said, cordially: "I would like to know your address so I can call on you."

"That's true, but I'll say this much for him—he always pays it back with interest."

# Sir James Watson's Opinion Considered Most Valuable

He says that the commonest of all disorders, and one from which few escape, is Catarrh. Sir James firmly believes in local treatment, which is best supplied by "Catarrhosone." No catarrh of Catarrh can exist where Catarrhosone is used; it is a miracle-worker, relieves almost instantly and cures after other remedies fail. Other treatments can't reach the diseased parts like Catarrhosone because it goes to the source of the trouble along with the air you breathe. Catarrhosone is free from poisons, it leaves no bad after-effects, it is simply nature's own cure. Beware of dangerous substitutes offered under misleading names and meant to deceive you for genuine Catarrhosone which is sold everywhere, large size containing two months' treatment costs \$1.00; small size, 50c.; trial size, 25c.

# TURKEY WILL PERMIT RELIEF FOR SYRIANS

Ottoman Government Yields To  
Pleas by Washington for Starving People

Washington, Sept. 19.—The Turkish government, in a communication received at the state department, consents to shipment of relief supplies from the United States to famine sufferers in Syria. The action reverses the previous attitude of Turkish officials, who had refused to permit the privilege to make food distribution of the supplies which already have been offered in large quantities by Syrian and Armenian relief societies, would be made under the Turkish plan, through the port of Beirut. State department officials believe that inasmuch as the French government has been anxious to get such supplies through and may itself contribute, assent of the Entente Allies for passage of shipments through the blockade of Turkey may be confidently expected.

The department regarded Turkey's action was especially timely, since Oct. 21 and 22 have been named in a proclamation by President Wilson as relief days for raising further funds and supplies for Syrians and Armenians.

The consent of the Ottoman government with respect to Syria does not apply to Armenia, but negotiations are being continued for similar concessions. As forwarded by the embassy at Constantinople, the Turkish communication fixes only one condition, that supplies for Syria be distributed from Beirut through the Red Cross and Red Crescent Societies.

Syrian and Armenian relief organizations with headquarters at New York were notified of Turkey's action by the state department. In her previous communications regarding Syria, Turkey had insisted that there was no urgent need for relief supplies there. Advances from other sources, however, convinced the state department that many of the inhabitants had been reduced to starvation.

# Ton Shell Went Through House

Fired From Sixteen-inch Gun, it  
Penetrated Armor Plate and  
Sand

Washington, Sept. 19.—Word comes to Washington today that a 16-inch solid steel shell, said to be the first ever fired from a naval gun of that calibre, went through a plate of armor and a thick sand bag backing at the naval proving grounds at Indian Head, Md., on the Potomac River, about thirty miles from Washington, and struck the house of an employe of the proving grounds some distance away, inflicting considerable damage. Mrs. William D. Swann and her two children, who were in the house had a narrow escape.

The ordnance officers say the test has great importance as showing the tremendous power of the new naval gun, the largest in the world for naval purposes. Up to this time the 16-inch gun used on the British dreadnoughts of the Queen Elizabeth class have been the largest on any warship. The shell was fired with a small charge of explosive. The thickness of the armor through which the shell went is not disclosed, but it was said that with a full charge the shell could have penetrated from five to ten inches of armor at a distance of 20,000 yards. The shell weighed 2,100 pounds.

Mrs. Swann was preparing the mid-day meal and had gone from the kitchen to the dining room a few minutes before the shell struck the house. With her were her two children, Gladys, eighteen, and Essie, four. Gladys was about to open the door from the dining room to the kitchen when the shell struck. It ploughed through the kitchen and demolished the porch outside, falling within a few feet of the porch steps. The shell was red hot.

# How To Prevent Acid Stomach and Food Fermentation

BY A NEW YORK PHYSICIAN.  
"My experience in the treatment of stomach diseases has forced me to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach, aggravated by food fermentation. Hyperacidity irritates the delicate lining of the stomach, interferes with and retards the proper digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all cases—and they comprise a great majority of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating from one to two teaspoonfuls of Eno's Fruit Salt, which is the most effective antacid and food corrector I have ever found. The excess acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy normal manner. Be sure to ask your druggist for Eno's Fruit Salt, which is the form of magnesia especially recommended for acid stomach conditions."
