### CRAWFORD DISMISSED

Mayor Murray Notifies Former St. John Man That His Services as Chief of Police are No Longer Required—Insurance Being Paid

Campbellton, N. B., July 15.—(Special)—Today will see the first movement of the provincial board of health towards improving the sanitary conditions of the ruined town of Campbellton, which are in a dangerous state and apt at any time, unless proper care is taken to cause an outbreak of contagious disease.

It was a revival of the old days of the town. The call for the fire will therefore precede the march about the city, and thousands of men, women and children filled the streets.

These towns were followed by the "Junior Serenades," the "Intermediate Serenades" and the "Senior Serenades." Those who were to lead the three-mile walk were allowed to ride in ambulances.

## ENGINEERS ARE SECURING DATA

### For International St. John River Commission

### MEET IN VAN BUREN

Investigation Will be Continued Tomorrow—Much Important Work Has Been Done and is Being Done at the Present Time

Hamp, Me., July 15.—Tomorrow morning the International St. John River commission, which is conducting a thorough investigation of the conditions and use of the St. John river, together with the question of the advisability of methodical construction of the waters of the tributaries, meets for an important session in Van Buren. All the commissioners for both the American and Canadian governments, together with counsel and stenographers, will be present, and it is understood that considerable testimony will be taken. Among other things expected to come up at this session of the commission is the matter of the development of power purposes of Grand Falls on the St. John, which has its effect on the investigation of the river.

When the commission was originally appointed it was given authority to investigate the International St. John only as far as the prevailing conditions and use of the river, the appointment of the commission growing out of difficulties among the lumbermen on the river. Since that time the authority has been extended. First the commission was given the added power to investigate the feasibility of creating storage basins for the storage of water for the driving of logs, and now it has received authority to investigate the storage question in relation to the development of the river for power purposes as well as the lumber industry.

Two competent engineers have been sent in on the St. John and are following along with the log drive, observing all points in the river where the conditions for log driving are the worst, with the reporting on the commission growing out of difficulties among the lumbermen on the river. Since that time the authority has been extended. First the commission was given the added power to investigate the feasibility of creating storage basins for the storage of water for the driving of logs, and now it has received authority to investigate the storage question in relation to the development of the river for power purposes as well as the lumber industry.

### FRENCH'S REPORT CONDEMNS CANADIAN MILITIA, SAYS TIMES

London, July 15.—A correspondent of the Times understands that if Gen. French's report is published it will disclose a state of military inefficiency in the dominion that will probably be a revelation to most Canadians. The correspondent of the Times adds:

"I believe it will be found that Gen. French in the first place condemns the whole existing conception of strategical requirements of the Canadian Militia. This is coupled with the non-existence of a sound peace organization and effective staff, suggested from the very outset that the dominion defence forces are in a bad way if such a staff as exists does not understand report is published it will disclose a state of military inefficiency in the dominion that will probably be a revelation to most Canadians.
