Premier GASOLINE
You may pay more but you can't get more.

brings out the best in every motor — brings down the cost

IN 1858 the first oil well in North America was brought in at Oil Springs, Ontario. For a brief period this little district in Lambton County produced enough crude oil to meet the country's requirements. Canada's demands, however, soon exceeded this supply and since then it has been necessary to draw upon foreign fields, not only in the United States but in South America and Mexico.

Cannot Canada again develop sufficient petroleum production to supply her own needs? That question remains unanswered. Imperial Oil Limited has been a pioneer in a relentless search for oil and continues to spend heavily in the effort to locate further sources of supply. Geologists are constantly studying and charting every formation that suggests the probability of oil. Expert well drillers following their trail keep steadily at work, continually seeking to discover pools of oil which may some day make Canada independent of foreign supplies.

"Facts Worth Knowing" is a booklet which tells more fully of Canada's oil industry and deals particularly with the subject of gasoline. If you have not already received your copy, address **IMPERIAL OIL LIMITED, 44 Church Street, Toronto.**
