CHOLERA IS HELPING TO END THE WAR

Many Cases Among Turkish Troops and the Refugees

DANGER IN CONSTANTINOPLE

Fear That Contamination of Water Supply May Come to Add to Horror—Twenty Corpses Taken Off One Train

(Canadian Press)

London, Nov. 15.—Rifles for military transport or on account of the cholera which is spreading rapidly at Hadzemeti, the government, the Constantinople correspondent of the Daily Telegraph declares, is prepared to make large concessions in order to prevent the Balkan armies from entering Constantinople.

An uncorroborated despatch dated November 12 from Constantinople to the Reuters Telegram Company, says that the cholera is extending alarmingly among the troops. The cases are reckoned by the hundreds, while among the refugees there are even more victims.

In Constantinople, adds the despatch, the disease is more difficult to control. One train alone brought 166 patients from Sofia. They were conveyed to the lazaretto at Brusa on the Bosphorus. The bodies of twenty soldiers who had died from the cholera were taken from the same train.

Many trains have returned from the front with soldiers who are not wounded but are in a state of physical collapse, owing to exhaustion due to exposure and lack of food. The sights at some of the stations near Tchtalja are unenviable. Cholera victims crawl to the stations for water or in the hope of getting to Constantinople. They can be seen lying about in every stage of the infection.

Water May Become Contaminated

The greatest danger threatening Constantinople is that the water supply from Lake Serik may become contaminated. Only a few cases have been reported up to the present among the people of the capital, and it would seem that the disease is still in its early stages. As, however, the disease is so contagious, it is asserted that sixty per cent. of the cases are recovered.

The authorities are doing their best to rid the capital as quickly as possible of the cholera. The bodies of the dead are being buried at the rate of several thousand a day. The bodies of the dead are being buried at the rate of several thousand a day. The bodies of the dead are being buried at the rate of several thousand a day.

Fortunately the Moslem population is naturally charitable, and will share the last crust with the wandering fugitives. "One thought, and that an obscure one, is that of seeing this people migrating back to their ancient homes," says the correspondent, "namely how little altered after 500 years are the wanderers returning practically in the same manner in which they came into Europe five centuries ago. The same rough wooden carts dragged by bullocks or buffaloes, and covered with straw matting which covers the houses hold lumber, and the female members of the family hunched into the smallest conceivable spaces, peering with sad eyes at the unfamiliar sights, while the sheep and goats are prevented from straying by the younger members of the family."

(Constantinople, (By Way of Kustendje). The cholera epidemic among Turkish troops holding the line of fortifications at Tchtalja in front of Constantinople is rapidly becoming worse. More than 300 cases are reported daily and the total number already exceeds 6,000. Whatever hope the Turks may have had of maintaining the State of Belgrade at Tchtalja have been dissipated by this outbreak of cholera. An eye witness declares that he saw 200 corpses buried in one big trench at Hadzemeti, the headquarters of the Turkish commander in chief, on Tuesday. The bodies were dragged to the spot on hooks and dropped into the trench, which was not nearly deep enough for the purpose.

Checks Bulgarian While cholera is undermining the Turkish defenses it also at the same time constitutes a most formidable opponent to the Bulgarian advance and it is generally believed here that the outbreak has disposed of the question of even a temporary occupation of Constantinople by the Bulgarian troops. It is thought unlikely that King Ferdinand of Bulgaria will risk the lives of his soldiers in this way if he can avoid it. It is said on good authority that cholera has already appeared among the Bulgarian troops.

The Bulgarian army on last Sunday occupied the town of Derkos at the Black Sea end of the Tchtalja line and thus controls the water supply at Constantinople. This, however, has not yet been interfered with. The steady and unrelenting series of overwhelming disasters deserves commendation. It is a true severe application of martial law prevents public expression of any criticism or demonstrations of resentment. The great mass of Moslems however is inclined to bow to inevitable and to accept without violent opposition what they regard as the dictates of fate.

Againt Payment of M. P's London, Nov. 15.—The payment of members of parliament was heartily condemned at this morning's session of the conference of Unionist and Conservative members in London. A resolution was carried inviting the "next house of commons" to restore the principle of gratuitous parliamentary service.

ARE SURROUNDING CONSTANTINOPLE

Bulgarians Creep Around Forest of Belgrade and Are On Outskirts of Capital

Turkish Troops Surrender to Servians After Conflict—Graphic Tale of Fighting at Adrianople Reaches London

(Canadian Press)

Constantinople, Nov. 15.—Bulgarian troops have reached the vicinity of Kiles on the Black Sea coast at the entrance to the Bosphorus. The men belonging to the Turkish life boat station have left.

London, Nov. 15.—The announcement that the Bulgarians had reached the vicinity of Kiles came in a single line telegram from Constantinople this afternoon. It lifts a corner of the veil which has been baffling observers for some days regarding the movements of the victorious invaders in front of the Ottoman capital.

Their appearance at Kiles shows that they have managed to creep round behind what is known as the forest of Belgrade on the outskirts of Constantinople, and are now in close proximity to Thrapsia, the summer resort of the residents of Constantinople.

From Thrapsia a good road leads to within a few miles of Kiles. Nothing has yet come to hand to show whether the Bulgarians at Kiles are in strong force or merely a detachment of cavalry scouts making a new route of approach to the Turkish capital. There is a strongly defended fort at Kiles, but this was captured by the Bulgarians in the place from which they are now advancing.

SURVIVORS DRIFTED ASHORE, A COFFIN WAS THEIR LIFE RAFT

Barry's Bay, Ont., Nov. 15.—The ill-fated Mayflower, the old passenger ship which sank on Tuesday night with the loss of nine lives, was floated last night in Kaminog Lake, near the site of the wreck, in twenty feet of water.

The cause of the terrible accident was the sudden storming of the vessel. With a light breeze blowing from the west, the ship was driven into the rocks. The vessel was driven into the rocks. The vessel was driven into the rocks.

"BLIND BANKER OF PARIS" CONFESSES MISAPPROPRIATION

Creates Sensation by Giving Himself up to Police—Says Sum is \$2,000,000

Paris, Nov. 15.—Augustin Max, known throughout France as the "Blind Banker of Paris," has created a mild sensation in financial circles here by surrendering himself to the police and confessing that he has misappropriated \$2,000,000 of his clients' money.

Max declared that he had invested the depositor's funds in copper and nickel mines in New Caledonia. The enterprises were complete failures.

Max, who enjoyed the highest reputation in banking circles here, declares he had decided to commit suicide, but was persuaded by his family to give himself up to the police.

The Bulgarian army on last Sunday occupied the town of Derkos at the Black Sea end of the Tchtalja line and thus controls the water supply at Constantinople. This, however, has not yet been interfered with. The steady and unrelenting series of overwhelming disasters deserves commendation. It is a true severe application of martial law prevents public expression of any criticism or demonstrations of resentment. The great mass of Moslems however is inclined to bow to inevitable and to accept without violent opposition what they regard as the dictates of fate.

DAGO FRANK CALLED TO WITNESS STAND

Not Likely New York Gunmen's Trial Will Be Concluded This Week

New York, Nov. 15.—"Dago Frank" Crofci, the fourth of the gunmen on trial for the murder of Herman Rosenthal, was to take the stand in an attempt to corroborate his pals, "Lefty Louis," "Whitey Lewis," and "Gyp the Blood," who testified yesterday that the shots which killed the gambler had not been fired by them, but by Vallon and Webber, informers for the state, and a man as yet unidentified.
