These are essentials of the satisfactory underwear. The look and feel of a shirt depend more on the maker than the fabric. Two shirts may be of the same material—but one will have a look of distinction and a feel of comfort that the other lacks. We have lines which look and feel just right.

MESSRS. SIMMS GET SITE; WILL DOUBLE PLANT

Buy Four Acres of Provincial Hospital Land in Lancaster—More Property Matters

By the purchase of a four acre block of land in Fairville this morning, Messrs. T. S. Simms & Co., Ltd., have at last secured the site for their new building, which has been made necessary by the rapid expansion of their business. Not only will the new site facilitate the handling of their present large business, but it will give them room to double the size of their plant, as they wish to do, and the change will therefore be of as much importance to the community as the opening of a new industry of size equal to the present one.

The new site comprises the large block of land opposite the Provincial Hospital between the Suspension bridge road, the Union Point road and the C. P. R. tracks, with the exception of a few lots which had been sold previously. The land belonged to the provincial government, and was vested in the commissioners of the Provincial Hospital, Lancaster.

In order to prevent the land being bought for speculative purposes, the terms of the sale required the purchaser to commence the erection of buildings for a manufacturing industry to employ at least 100 hands, within eight months, and in completion within two years on penalty of the forfeiture of one-third of the purchase price.

The property was sold at auction at Chubb's Corner, at noon today, by Auctioneer F. L. Potts. There were only two bids—the first was at \$5,000 and the property was sold on the second bid of \$5,100 to T. S. Simms & Co., Ltd.

The Simms company have been looking for a site for some time, and as they had difficulty in fulfilling all their requirements and as attractive offers from other places in the province, there was some fear that they might possibly move away. The fact that they have settled upon this site and will be able to go ahead with the necessary expansion of their plant will be a matter of considerable gratification to the citizens.

The company will go ahead immediately with their plans for the new building, and it is expected that they will be ready to start operations in the coming spring. The work will then be rushed as much as possible in order that they may get into the new plant during the next year. The building to be erected will have at least double the capacity of the present plant. The company now employs about 200 hands, and in the enlarged premises this number may be doubled.

The two family dwellings owned by A. W. Suits at 208 Duke street, was also sold this morning by Auctioneer Potts. The tenement at 436 Main street was withdrawn at \$1,100.

The White Candy Company will take over the present large building of the Simms Company as their own plant in Union street is not big enough for their business.
