LOCAL NEWS

RAIN INTERFERES

The rain has held up the work of re-newing water mains around the city and is causing some collapses in the excavations.

NOVELTY SHOWER

Friends of Miss Olive Canning of 39 Paradise row tendered her a delightful novelty shower at her home on Wednesday evening. Games and music were enjoyed and dainty refreshments served. Miss Canning is to be married in the near future.

THE STEAMER DREAM

F. S. Heans has sold the steamer Dream to Captain C. C. Taylor. The steamer has been practically rebuilt and is in first class condition. She has carrying capacity of one hundred and eighty people. Captain Heans in reply to question said he intended to use the Dream in river service next season.

ARE IN BOSTON

Word was received in the city this morning that H. C. Groat and party had arrived in Boston where they will remain until Monday. They left St. John a couple of weeks ago and motored to Quebec, thence through to Montreal and from there to Cowansville, to the White Mountains and to Boston.

BASEBALL

The Pirates and All Stars will play a game of baseball on the South End diamond on Monday afternoon (Thanksgiving Day) at 2.30 o'clock. The game will decide the championship of the South End League and should be keenly contested. Both teams will have their strongest line-ups in an effort to clinch the championship.

REMANDED FOR SENTENCE

Mary Halliday, charged with stealing articles from Mrs. McAllister elected to be tried before Judge Armstrong without a jury this morning. The accused pleaded guilty. G. E. Egan, who appeared for the defence, asked for leniency. His Honor remanded the woman to jail for sentence. C. H. Ferguson appeared for the crown.

POST OFFICE HOLIDAY

The postmaster requests that as the 18th instant, is to be observed as a public holiday—Thanksgiving Day—in order that as many as possible may enjoy its features in acknowledgement of the many services rendered, the public will take notice that there will be no letter carriers' delivery on that day and be governed accordingly. The general delivery window and registration windows will be open the usual hours for public holidays, 9 to 10 a. m. and 2 to 4 p. m. The money order office will not be open.

BYE-LAW MATTERS

Miss H. G. Hunter, Brussels street, was charged in the police court this morning with keeping a ferocious dog. Henry Gamet, who made the report, said that the dog is a fox terrier and attacked him on two occasions. The magistrate ordered that the animal be muzzled and if necessary it must be muzzled.

APPLES GOING TO WASTE

"Send up the barrels and I will give you all the apples you want," was the generous offer of a farmer to a St. John man who was coming down on one of the river boats the other day. The farmer said that the growers could not get enough for the apples to make it worth while shipping them to the market and they were feeding as many as they could to the pigs and letting the others go to waste. These waste apples were of a quality which commands forty cents a peck in St. John.

HON. DR. ROBERTS HOME

Speaks of Dominion Health Council Meeting in Ottawa

After having attended meetings of the Dominion Council of Health in Ottawa this week, Hon. W. F. Roberts, M. D., minister of public health, returned to the city at noon today. He said the work of the council was expected to prove of importance in matters pertaining to the general health of the dominion as it had been a representative gathering and its programme filled with subjects of current interest.

Regarding the question of recurrence of the "flu," Doctor Roberts said that it was the feeling of those at the conference that should this happen this winter the province would be better able to cope with it and it would not be expected to be so widespread if some cases did occur.

New Brunswick is the only province in Canada which has a minister of health upon its legislative executive, which gives it a decided advantage in dealing with general health matters, but the doctor said that Ontario and British Columbia were now establishing a health ministry. They saw the advantage of having such an office. United States was adopting legislation to provide for an under secretary with authority on health matters but New Brunswick could take the credit of being the first in the field in this respect.

'PRENTICE BOYS TO HAVE FAIR FOR PROTESTANT ORPHANS' HOME FUND CALL LOUDLY TO CITY HALL TO PUT AN END TO THIS

The 'Prentice Boys of West St. John are getting ready for a fair to be held in their hall, Guilford street at the end of October and running into November. The total receipts will be given to the new Protestant Orphans' Home Fund. The 'Prentice Boys hope to have a good big sum to hand over for the benefit of the orphans.

The committee is composed of: Chairman, Wm. Smith; secretary, E. C. Clark; treasurer, W. W. Donohue; printing, E. E. Kelton; E. C. Clark; Wm. Smith; decorations, Wm. Belyea; in charge prizes, C. Price; S. Sewell and Wm. Mc-Aulay; refreshments, G. Smith; O. Taylor and J. Flannore; music, Wm. Smith; W. W. Donohue; R. Anderson; and Wm. Mc-Aulay. The I. O. B. A. members will have charge of the upper floor, with games and sales of fancy articles.

REVIVE PLAN FOR BOULEVARD

Road Engineer Has Suggestion for King Street East—Ornamental Strip Down Centre

When the city gets around to dealing with paving problems in King street east, as it must before very long, the road engineer will have an attractive proposition to submit for consideration. This is, naturally, one of the finest streets in the city, with a stretch of one hundred feet from side to side, but no effort has been made to take advantage of its fine proportions, and sidewalks and roadway are in a condition which has called forth vigorous complaints at regular intervals. On account of its width, with a sixty-foot roadway and twenty-foot sidewalks, the cost of keeping up the surfaces has discouraged the various public works heads from attempting anything adequate, and it has been neglected consistently.

In order to eliminate as large a proportion as possible of both the first cost of permanent pavement and subsequent upkeep as well as to improve the appearance of the street, the boulevard system has been advocated.

Wherein which the engineer has outlined in his spare moments calls for an ornamental strip twenty feet wide, running down the middle of the street, except at street intersections, cut with foot paths at several places in each block. This would be surrounded by concrete curbing and could be sown with grass and planted with shrubs, adding greatly to attractiveness of the street, eliminating that much paving, and leaving that much less room for the development of

On each side there would be a twenty-foot roadway, which would be more than sufficient for the traffic, as the vehicles would be traveling only in one direction on each side of the street.

For the sidewalks, there are alternative plans, either a walk placed in the middle of the side areas with grass on either side, or a sidewalk located next to the curb with the remainder of the area forming a fair-sized lawn between the sidewalks and the buildings. The latter plan would make it easier to keep traffic off the grass, would give each householder a plot worth taking care of, and, by having any trees which might be planted inside the sidewalk, there would be nothing to obstruct the light from the street lamps.

IN WEST END

The asphaltic concrete pavement in Germain street, West End, a total of 2,800 square yards, was completed yesterday and the street now presents a vastly improved appearance.

In Ludlow street there still is considerable work to be done before the asphalt macadam pavement will be completed in the blocks between Tower and Rodney streets, a stretch of 900 feet. The biggest part of this job is the work of bringing the streets up to the required grade, the fill being eighteen inches in some places. The material used for this purpose is the waste from the stone crushers. The street car tracks have been raised to the new grade and placed upon a stone foundation.

The laying of asphalt sidewalks in these streets will be the next step.

SANITARY INSPECTORS ARE ADDED TO STAFF

Appointments at Minto and Chipmen—Dr. J. F. L. Brown Speaks of Conditions

Dr. J. F. L. Brown, district medical health officer, returned yesterday from Minto and Chipman. This morning he said there was some typhoid in Minto, and the prospects were that there would be more. He said he was visiting the fifth case in one family. There had been two deaths from the disease in that family. He said that the sanitary conditions, water supply and drainage in Minto were not as satisfactory as they might be. He said owing to the efforts of E. C. Alexander, a member of the Queens County board, he had succeeded in getting William Lyton appointed sanitary inspector for the parish of Canning, resident in Minto. It is expected that sanitary conditions will be improved.

Dr. Brown at Chipman found everything satisfactory. Also in Chipman Mr. Alexander was instrumental in having Harry C. Darrah appointed sanitary inspector for the parish of Chipman, resident in Chipman.

One of the objects of Dr. Brown's visit was to confer with G. D. Norrington, secretary for the Board of Health in Moncton, regarding the milk situation. It seems that some of the milk dealers on the line were not allowed to ship their milk to St. John on account of unsanitary conditions and it was thought that perhaps they would send the milk to Moncton. In order to make this impossible, Dr. Brown conferred with Mr. Northrup, of Moncton, and all necessary steps will be taken to put a stop to it should this happen.

The typhoid situation in Alma, Albert County, is much improved. Dr. Brown said he was in communication by telephone with H. B. Coonan, secretary of the board in Alberta and he said that there was no typhoid there but a short time ago there had been a few cases.

The health regulations in the southern district are being well carried out and much benefit is already being felt from the new act.
