Prospects of a Terrible Famien in Some of the Districts of Ireland.

Bleak drowned by the capsizing of a boat. are the Irish tenant's prospects and desperate his straits. The correspendent of the conservative and reliable Manchester Guardian declares that no such appalling prospect has presented itself during the present generation. curring reports show that the prolonged and continuous rains in the autumn have ruined the crops from north to south. Rich lowlands have been flooded for weeks at a time, when harvest ought to have been proceeding. Stacked corn and hay stacks have been submerged and potatoes are rotting in the fields. In the peorer kill lands the small farmer and cottage population will again have to face one of those failures of the potato crop, which has too often brought the utmost horrors of starvation and disease among them. Up to ter Castle was found not guilty of the present the government is doing shoplifting, while his wife was sennothing. Farmers on many of the largest estates have appraised the landlords' agents that no rent can be paid this year, as no rent has been earned. But the landlords under the Land Act are applying for ejectment decrees by the thousand, and an eviction campaign, such as has rarely been witnessed even in Ireland is now in progress in many of the districts. As soon as the rigors of the winter set in the demand for relief will be clamorous. Before parliament opens the government will be compelled to intervene or face the accusation of reckless indifference to suffering, such as might serve to overwhelm any English ministry. With this famine pending, combined with the revelations of the financial relations commission, showing how Ireland is annually bled of millions of money, to the advantage of Great Britain, it will be no wonder if Irish discontent assumes a more active form in British politics than the mere magpie chatter over the legislation

DODD'S KIDNEY PILLS.

The Despair of Imitators-The Admiration of All Users.

We were the leaders—the first in the world to keep a distinctively kidney pill treatment on the market, and this was named Dodd's Kidney Pills.

This was a trifle less than a dozen years ago. We said then that Dodd's Kidney Pills would cure any curable kidney disease, and that they had come

to stay. We now say that Dodd's Kidney Pills will cure any kidney disease, and we have testimony from thousands of persons cured at various stages.

Yes, Dodd's Kidney Pills have more than kept every promise. We have advertised for two years for the particulars of any case wherein they had ever failed, but thus far without a single reply. We have constantly aimed to reach and benefit the masses. We want every sick man and woman in Canada to know that all but one in every twenty who are sick can be cured by kidney

treatment. Comparatively only a few of the millions have as yet learned the truth as to the cause of all their sufferings. The death rate of the Dominion has been lowered, and to the extent that Dodu's Kidney Pills become known as life savers, it will be lowered further still. Mr. Castle bore up well through the terrible ordeal, and devoted himself to trying to console his wife, promising to come and take her away as soon as it was possible. The doctor ordered special diet for Mrs. Castle and asked to have the chief medical assistant at the prison summoned in the morning to take charge of Mrs. Castle's case. She was clad in hospital garb and given a comfortable bed, the nurses in attendance being specially instructed to treat her with great care. She became more calm later in the evening, and although she constantly relapsed into hysterical outbreaks, crying "Why don't some one take me home? Where am I? I don't

After Mr. Castle had been found not guilty, Mr. Avory, for the prosecution, recounted the case as it presented itself against Mrs. Castle, and in so doing he rehearsed the general statement as it was made at the Marlborough street po-

lice court. He described the articles stolen and gave the details of the arrest, not omitting what Mrs. Castle had said to the officer who arrested her. Mr. Castle at this stage of the proceedings, descended a little staircase to the cells in order to comfort his wife. About the same time, Mr. Hodson, representative of the United States embassy, entered the court room in order to watch the case for the United States representatives here. On Wednesday evening last Calvary Baptist church was the scene of a very pleasant affair, the event being a reception tendered to Rev. R. W. Trotter, the pastor, on his return from the East. The various committees, ably assisted by the sister church, perfected all arrangements to the satisfaction and enjoyment of the very large and enthusiastic gath-

Nothing was left undone to make the welcome one of the fullest and heartiest that could be given. It was not confined to the Calvary church only, but Emmanuel rejoiced with her sister church on the return of her pastor. The tist Church Extension Society, had their representatives present, this being not only the recognition of the eminent services of Rev. Trotter but also the marking of a new era in the history of the denomination.

Gardens and conservatories, for which Victoria is noted, were lavish in their floral contributions and deft fingers arranged the same with taste and effect. At the hour of opening the audience room was filled. Rev. J. H. Best, pas-C. E. S., presided. His tact, pleasing ner to his work in this church during sacrifice the church had made in allowing their pastor to go east for the sum-mer in behalf of the denomination.

After an anthem by the choir the chairman then called on Rev. P. H. McEwen, of Emmanuel Baptist church, the Baptists of Victoria, Mr. McEwen's words were those of a loving brother and Christian co-worker. He welcomed him not only to his work but also to the hearts and homes of the Baptists of the city, assuring Mr. Trotter that he would stand with him shoulder to shoulder in the great battle for King Emmanuel.

Rev. W. A. Gunton, of Nanaimo, representing the Baptists of the province. extended him a most cordial greeting. Mr. Gunton being a schoolmate, and having succeeded Mr. Trotter in Barrie, Ont., was pleased to be able to speak in the highest terms of his pastoral work. He referred to Mr. Trotter's mission bors. He therefore tendered him the

Dear Pastor:—We, the members of the Calvary Baptist Church, are rejoiced to welcome you home after a prolonged visit to the east, whither you were sent on a most important mission. We are deeply thankful to God for bringing you back to us in safety, and we feel that our friendship as pastor and people has been strongly cemented during the month of your absence. You have returned to us in renewed health and strength, for which we are deeply grateful; and as a church we pray that God may put His loving arms around you and spare your life for many years to work for Him in this city and province, and to be the instrument in His hands of bringing many to the knowledge of His bringing many to the knowledge of His

It was a pleasure to be associated with his brother. At one place four costly diamond ear-rings were put on the plate, and again a lady who had no money gave a gold bracelet, this being an old family relic given her by her nother. The audience agreed to establish a memorial fund named after the lady, to purchase the bracelet and then

return it to the donor. Mr. Trotter then outlined the policy of the society, on which he based his appeal. With regard to church buildings, the plan is to build cheap, neat and commodious buildings that can be paid for on completion. Church debts are to be a thing of the past. With reference to the pulpit great stress was placed on the kind of men to be invited to the province. Second rate men need not apply.
