Son of the King of Dahomey, Seeking Created a Small Sized Panic—He Wore a Breezy Costume and Rode About Among the Stalls.

ALGIERS, July 28.—From sheer boredom and lack of facilities for amusement, Prince Quinlo, son of the exiled ex-King of Dahomey, attempted to commit suicide at Algiers by dringing a decoction of match heads. He shares his father's exile, and as the French Government has kept the family short of funds, the young Prince moped all day for want of something to do.

He finally got sereral hundred matches, cut the phosphorus heads off, and boiled them down. Then he swallowed the decoction, but the pain was so great that he could not bear it in silence.

His cries brought help just in time to save his life, and he is now out of danger. He said his life was not worth living without amusement.

His father, ex-King Behanzin, suffers from Bright's disease, and the doctors declare that the Algerian climate does not suit him. It is probable that the Minister of the Colonies will consider whether the King and his son cannot be permitted to return to their
