You Should Advertise.

"Back to the woods, for you haven't got the goods," they say to the man who won't pay on his way. "Though you did the best you could, yet you couldn't quite make good."

And it's so wherever you go if you haven't got the goods. Education counts a lot, but it's money that you've got. That will pay right away and will grow from day to day. So, if doubt ends in rest and you're almost down and out, do not fear, help is near, if you try a want ad here.

Here is a way for you to earn plenty of side money during your spare moments at home.

Every day hundreds of people advertise in the Want Columns of the Sun and Star. They need some one to do a little extra work for them. For instance—such work as addressing envelopes, writing short stories, knitting or sewing. These people will pay you well for your services. Why not take this opportunity of making extra money during your spare moments? It certainly will come in handy. Don't miss these valuable opportunities. Start reading Sun and Star Want Ads to-day.

SEE DICTIONARY AND GET LIGHT

The chap who patronizes cheap restaurants picks up numerous inordinately wrong notions which he persists in repeating to such acquaintances as sit at his feet and swallow his ipse dixits. "Now," he will sport, "everybody knows that rabbit is vegetable, while rabbit must be either flesh or fowl. So we have Long Island rabbit—hare, and Long Island rabbit—a fowl. A restaurant man is lucid if not right." But he doesn't feel where the rabbit is, the cheese, the sauce and the baking powder come in. Nor does he feel why this delectable dish is called "Welsh." There are famous Welsh hares, the finest of hunting, but why should cheese and toast, etc., make a Welsh rabbit? Why not a Scotch rabbit? Why not a Texas rabbit? Why not a Jack rabbit, the noblest animal of his race? More light, more light! This thing is hazy.

AMUSEMENTS

A TRIP TO BRITANNY AT NICKEL

Travel, sport and drama will be most interestingly mingled in the Nickel new bill for today and Thursday. The being exemplified more early each day in this enterprising theatre and the new list of pictures will bear out this assertion quite fully. For instance, it will be the privilege of mid-week patrons to be taken into the jungles of Africa and there hunt the wild leopard with a party of noble sportsmen and Italian photographers. This is an Ambrosia film from Italian laboratories. The next specially fine feature will take St. John folk across the ocean to quaint, little Brittany and its humble fisher folk, with whom a day of the sportsman's life is spent in the nets. The riotous feature of the bill will be the Peasany dramatic entitled "Brothers," full of stirring situations and intensely dramatic climaxes. Miss LeRoy will delight her hearers with some dainty, little musicals, and Master Packer has a new illustrated song. The orchestra has prepared a bill of exceptional worth. Altogether this is one of the best bills the Nickel has been able to print to date. It is a good many weeks, and now that the weather has settled down to its winter permanency, specially large crowds are expected.

LA TOUR SPORTS AT THE VICTORIA TONIGHT.

The first sports of the season always draw bumper crowds at the Old Vics and those of the La Tours tonight will be no exception to this rule. The fast skaters who have done so much to give St. John its pre-eminent position in the sporting world are again in evidence, and will fight for supremacy on the smooth surface of the big ice. And these series of contests will be brimful of interest, and the large number who will gather to see them cannot but secure an evening of exciting entertainment. In another column the full list of entries will be found.

BARBAAU FAMILY DRAWING RECORD AUDIENCE AT ORPHEUM.

Those who attended the Orpheum after eight last evening were surprised to find hundreds waiting to buy tickets for the first night of the new show. The ticket price is a dollar, and a good many had been sold since their first appearance Monday evening. The act made even a greater success last night than on its first appearance. Two clever children than those with this talented aggregation have never been on the stage in this city, and the little ones have made so many friends and admirers during the past two days that it will be difficult to accommodate all who will want to see their clever act during the next few days. Remember that with this big show is given ten acts in one, and all for the small sum of ten cents.

QUEEN'S RINK.

Cook and Peas at the Queens in a five mile dash would prove a drawing card no doubt, that is if the Queens required a draw for the rule of state. The prize money for the race is a handsome one, and the Queens of Boston and his associates, was announced tonight by W. W. Davies of Lawson's. The race will be held on January 20th.

LAWSOON GOING INTO TOBACCO BUSINESS.

LExINGTON, Ky., Jan. 11.—That a Royal million dollar tobacco manufacturing concern to take over the entire holdings of the Burley Tobacco Society, to be formed by Thomas W. Lawson of Boston and his associates, was announced tonight by W. W. Davies of Lawson's. The race will be held on January 20th.

THE GEM.

A complete change of subjects will be shown tonight at the Gem—subjects which patrons cannot afford to miss. The programme is of a lighter vein than is usually shown at this popular house. The management are reserving an extra strong bill for the week's closing show. The pictures tonight are sure to please. "The Game of Bluff" being one of a series which Guimont Co. control. This series deal with the middle ages. The continuing of the piece has cost a small fortune. The scenes are laid in one of the most ancient castles in France.

A comedy drama, "The Man," contains acting of unusual merit, and lovers of art should see this work. The force entitled "A New Kind of Athlete," is sure to be a winner, as it is one long laugh. Two other subjects are also in the programme.

The management has engaged a film which has been the rage of the western states. The name of which will be announced later. This picture film has been sought after so much that for months ahead dates have been booked. Wherever this film has been shown it has proven to be a sensation.

In the meantime remember that the Gem is offering daily the best show of any theatre in the city. Tonight Mrs. Gibson will be heard in New York's latest hit. A programme worth while, don't fail to see it.

THE RAIL AND THE SWAN.

During a dreadful storm, when the river Tyne had flooded the country all around, a number of people were assembled watching the huge masses of hay swept along in its rapid course. At length a swan came in sight, struggling sometimes for land and at others sailing in its stately manner along with the torrens. As it drew near a black spot was observed on its smoky plumage, which attracted the attention of the spectators. The bird was a male and it is probable it had been borne from its dwelling in some hayrack and, seeing the swan, had hastened to it for a refuge. On the swan's back was a small black spot, and a man having no respect for the sagacity which the rat had displayed killed it with a blow of his staff.

POLICE RESERVES TO QUELL GIRL STRIKERS

PHILADELPHIA, Jan. 11.—Increased detentions and charges of police brutality made by the striking shirt waist makers and their suffragette allies, marked the progress of the strike today in this city. Alterations between girls doing picket duty and workers were numerous. More than a score of arrests were made by the police, and on two occasions it was necessary to call out the reserve squad from City Hall. Among those arrested was Oscar Dornheims, the local strike leader, who was taken into custody while escorting Miss Eleanor S. P. Pae, a prominent young society woman investigating strike conditions. She declared the manner of his arrest was an outrage.

Mrs. O. H. P. Belmont is expected here tomorrow when she will be the guest of honor at a meeting arranged by the Pennsylvania's Women's Suffrage Association in the interest of the strikers.

WINS THE INSURANCE AFTER 3 YEARS FIGHT

SYRACUSE, N. Y., Jan. 11.—After a fight for more than three years in the courts, Mrs. Frank A. Wilcox has won her suit against the supreme council of the Royal Arcanum. Justice William S. Andrews today directed a verdict in her favor for the full amount of the insurance policy carried on the life of her husband, with interest. The outcome is of interest to thousands of members of the order.

Mr. Wilcox was expelled from the organization because of his attacks upon supreme officers for the increase of rates of insurance. He instituted proceedings for reinstatement, but before the termination of the action. The suit was continued by his widow, Mary C. Wilcox, who was given a verdict of \$3,127.50.

COST OF BEEF FIXED BY EXPORT PRICES

DENVER, Colo., Jan. 11.—President H. A. Jastro of the National Live Stock Association and Murdoch MacKenzie, vice-president, today, in speeches delivered that there is a danger of a shortage of beef in the United States. They declared that so long as \$200,000,000 worth of beef is exported from America each year there is no danger of a shortage.

The price of beef in Chicago is regulated by the price received for our surplus cattle shipped abroad," said MacKenzie.

The howl that present prices are putting beef beyond the reach of the poor man is unwarranted. It is true that if the consumer demand the choice cuts he must pay for them, but good beef is not scarce.

"At present prices, stock men are just beginning to realize fair return on their investment. What we would advocate is better cattle, not more of them. It is a terrible mistake to urge farmers and nonfarmers to enter the cattle business."

LAWSON GOING INTO TOBACCO BUSINESS.

LExINGTON, Ky., Jan. 11.—That a Royal million dollar tobacco manufacturing concern to take over the entire holdings of the Burley Tobacco Society, to be formed by Thomas W. Lawson of Boston and his associates, was announced tonight by W. W. Davies of Lawson's. The race will be held on January 20th.

Lawson today left for the east after a brief conference with executive officers of the Burley Society.

Mr. Davies said that a deal for the formation of the Lawson corporation, to take over the Burley crop, amounting to 115,000,000 pounds, had been virtually agreed upon. He declared that memoranda covering all details had been left with the Burley Society attorneys and that it was expected that the deal with the society would be formally closed at a meeting to be held within a few days.

Officers of the Burley Tobacco Society refuse to confirm or deny the statements.

The annual meeting of St. John District Lodge, L.O.L., was held last evening in the hall of the Germania Hotel. Reports submitted showed the lodge to have just completed the most successful year in its history. Officers were elected as follows: District Master—Charles M. Lingley. Deputy Master—McArthur. Jr. Chaplain—William Rogers. Recording Secretary—A. E. Hamilton. Treasurer—Christopher White. Financial Secretary—N. J. Morrison. Director of Ceremonies—Isaac Mercer. Lecturer—Charles Stevens. Inside Tyler—Armstrong Clifford.

CAN PHOTOGRAPH OVER TELEPHONE

Wonderful invention by Young Frenchman at La Rochelle.

PARIS, Jan. 11.—Simultaneously with the researches of a German professor on television a young French inventor, M. Georges Signoux, assisted by chief of the municipal laboratory of La Rochelle, M. Fournier, has been making very successful studies of the same subject, and has devised an apparatus by means of which, it is said, one may see the person to whom one is telephoning at a distance.

The mechanism consists of a concave parabolic mirror, which focuses a light of some 3,000 candle-power on the object of which the image is to be transmitted. The image is projected on a screen of selenium, composed of sixty-four separate cells, which constitutes an artificial retina. As the selenium acts under the influence of light, an electric current in each cell transmits a luminous wave in proportion to the intensity or variation of the light. The only inconvenience caused by the irritation of each cell, making sixty-four wires in all for one apparatus. This makes it impossible to use it for commercial purposes.

A rotary mechanism, however, has now been devised by the inventor, which, it is stated, will enable them to transmit the impression of the sixty-four cells over a single wire successfully, but with sufficient rapidity to give the illusion of instantaneousness. The receiver is composed of a set of tiny mirrors which reflect the luminous waves at given points and remain dark in others, thus giving the light and shade of the image.

The inventors believe that they may eventually also succeed in transmitting colored images by a system of cells with the three fundamental colors and that the telephone will give the illusion of a living picture.

BODY COVERED WITH EGZEMA

Yet Zam-Buk Cured Him

Mr. A. M. Brooks of Wellington St., St. John, says:

"Ten months ago I contracted eczema, which at first appeared on my neck, later spreading to my chest and back. The doctor thought this was danger of a shortage of my shirt collar and the poison and steam from the pulpit, as I was then employed at the pulp mill, began doctoring, but instead of the disease being checked it showed signs of becoming worse; my neck, chest, and my whole body was soon in a frightful condition. The skin actually peeled off leaving the flesh raw."

"I suffered cruelly from the terrible itching and soreness, and was completely confined to the house. Not seeing or feeling any improvement, I next resorted to the ordinary salves and ointments recommended for skin diseases, but although I gave each prescription a fair trial none seemed to do me any good. What was my surprise when I began using Zam-Buk. I had some relief, and as I persevered with its use daily the soreness was by degrees drawn out and the intense itching and aching completely vanished. Scabs or scales of all sorts of things before Zam-Buk. Zam-Buk soon cleared away all these, and although the cure was naturally gradual, it was complete."

"If you suffer from any skin disease don't make the above mistake, and try all sorts of things before Zam-Buk. Get Zam-Buk first! Eczema, ulcers, abscesses, poisoned wounds, cuts, cold sores, scalp sores, face eruptions, chaps, red, rough patches—all are healed and cured by Zam-Buk. Best balm for babies' rashes. All druggists and stores at 50c. box, or post free from Zam-Buk Co., Toronto, for post."

COWS LIKE BAND MUSIC.

Twelve or thirteen cows in a herd were grazing in a large field opposite Cornwallis house. One day a German band began playing on the road dividing the house from the field.

No sooner did the cows hear the music than they came from the farther end of the field and, standing with their heads over the dividing stone fence, quietly listened to the music.

On the departure of the musicians the cows followed them as far as they could on the other side of the wall. When they could go no further they stood looking pleasantly. Some of them became so excited that they ran round and round the field, seeking to get out. Finding no outlet, they returned to the corner where they had lost sight of the band and remained there for a long time.

CANON HORSLEY'S BLACK MUSEUM.

The new mayor of Southwark, Eng., Canon Horsley, possesses a very extensive knowledge of crime and criminals. For ten years he was chaplain of one of the largest prisons in England—the old Clerkenwell House of Correction, and during that time over a hundred thousand offenders passed through his hands. Of his prison days he has numerous souvenirs at the rectory, Walworth, including burgled implements of various kinds. His knowledge of the ways of the wicked, indeed, led one convict to remark to another, after a homily from the chaplain, "Why, Bill, he must 'bin one of us himself." In addition to his Black Museum, the canon has established at the rectory a small zoo, which is the delight of the children of the parish. Natural history is the canon's favorite hobby.

BRIDGET'S BEATITUDES.

Blessed are the drippings of bacon grease, much better than lard for frying. Use it, too, to put over the meat.

Blessed are the fishy plates and silver put immediately into cold water. Afterwards wash with hot water, and then ammonia has been added.

Blessed are the baked potatoes which are first pared, and then put into a very hot oven. It saves the waste next to the hard skin.

"I say, do you think that Wiggins is a man to be trusted?" "Trusted?" "Yes, rather. Why I'd trust him with my life." "Yes, but with anything of value, I mean."
