

Stirring Address On Social Welfare

Mrs. MacDonald of Edmonton, Alberta, Delivered Eloquent Appeal to Congregation in Carleton Methodist Church Last Evening.

A stirring address on Social Welfare and what is being done in that line of endeavor in her own home town was delivered in the Carleton Methodist church last evening by Mrs. MacDonald of Edmonton, Alberta, a delegate to the National Council of Women.

Mrs. MacDonald delivered a most interesting and eloquent appeal to the large congregation, Christ, she said, was the leader and standard of social service and it was the duty of all to endeavor to the best of their ability, to live up to the standard He had set. It was not enough that one should save one's self, another duty remained that of saving one's fellows. The greater the sacrifice the greater the reward. Service was not judged by quantity but rather by the sacrifice made in the work.

An essential which should be required of every candidate for public office should be experience in social work. He who possessed not a knowledge of humanity who did not know through association what the masses feel, and how they live, was not fit for office.

She urged religious instruction in the school. A Catholic woman had said to her that the public school of Alberta was the only place in the Province in which God was not allowed to enter. It was the duty of the Church to see that the ears of children who had never heard His name but in blasphemy, should learn of His love and their debt to Him.

The head of the Catholic Social Service of her Province, Bishop Legal, had said that it was of no benefit to place delinquent girls in institutions to feed them and clothe them alone, their souls, too, must be fed. Mrs. A. Law, leader of the Protestant Social Service said that girls who knew of nothing but wrong and who had lived lives which were absolutely wrong, after being taken into the Home, guarded and protected from evil, returned to the outer world good citizens and changed girls.

An important department of social work had been established in Edmonton in a home for children with broken homes, children who had been deprived of one of their parents. Children in that home had never been before the police court. The work was one of prevention, for at the present time the state takes no heed of fatherless or motherless children until they have broken the law, the aim of the home is to care for the children and prevent them from ever breaking the law. It is an object lesson to the State.

The W. C. T. U. was another institution with a power for much good. They had established a home in the center of the foreign population and appointed a nurse to instruct the children in those things which would turn them into good citizens of the morning.

The speaker said although woman's place is the home, in the present age it was necessary for women to go out from the hearth and assist the men in fighting those forces of evil, that attack the young from without the home.

In closing Mrs. MacDonald made a strong plea for Prohibition. Since its introduction in Alberta much good had been accomplished. A home that had been kept open for broken down men, was now closed. It was no longer needed. Old clothes which in other days had been gathered for the poor children was no longer necessary. The money in the pay envelope went to clothe the family, and children who had before presented a starved and worn appearance in the school, now appeared fat and rosy.

She urged her hearers to register and vote for Prohibition in the coming referendum. They should remember that material loss was as nothing to the saving of the coming generation from the curse of all its predecessors.

Mrs. MacDonald was succeeded by the Rev. Mr. Henney, who made a brief appeal in the cause of Prohibition.

VOTE FOR PROHIBITION JULY 10th

ELECTION INFORMATION

The Act In Brief—

The present Prohibition Act legislates against the sale of intoxicating liquors for beverage purposes, and only allows it for manufacturing, sacramental and medicinal uses.

The Act also provides for enforcement of the law and penalties for violation.

This Act was a war-time measure, and the Government now wish to know from the electors whether they want Prohibition continued or not.

We Know Its Faults—

The Act is weak in that it allows too much latitude in the case of Doctors, Druggists and Vendors who have practically the dispensing of liquor within their own hands.

Further Legislation Depends on You—

Application has already been made by the Temperance people to have the Act amended in regard to recognized weaknesses and the Government is sympathetic — BUT NOTE THIS—the Government put off granting of these improvements to make the Act more effective, until the result of this election PROVES that the people want Prohibition, and by the majority of the vote the Government will know just how badly the Electors do want it. Your vote at this election may have very important influence on the future action of the Government.

Are You Aware of This?—

In 1919 an Act Passed the House, providing that the Government shall take over the entire liquor business within the province, for the three purposes contained in the Act, and also giving them more stringent control over the sale of extracts, essences and tinctures — But mark you, the Government has refused to take action on this amendment, until the voice of the people has been heard at the coming election.

Stop Importation Our Next Move—

Authority to Prevent the Importation of Liquor into the Province does not rest with the Provincial, but with the Dominion Government, which has already stated that a vote may be taken on the question in New Brunswick, on the recommendation of our Legislature. If the result of the coming election satisfies them that the people actually want Prohibition—we are sure to get it!

What Your Ballot Can Do July 10th—

- First Provide the way for necessary Amendments to the Act that will make it really effective.
- Second Show the Government that the people demand Prohibition and want the laws enforced.
- Third Hasten the election that can shut out the importation of liquor into the Province.

Women Must Register by June 24th

PROHIBITION HEADQUARTERS—CONGREGATIONAL CHURCH, 100 UNION STREET, will supply all necessary information. Affidavits and Justice of the Peace will be procurable in the office, so that it will require only a few moments to complete the necessary details.

DR. BERNARDO'S APPEAL.

The Bernardo Homes are sending out their annual appeal for half-crowns toward the feeding of the children in the various homes maintained. All contributions should be addressed to William Baker, 18 to 26 Steppay Causeway, London, E. I. The following letter gives some pertinent facts in connection with the work:—

Reference "Food Fund."

Dear Sir—Will you send us 2 shillings and sixpence for food? Think for a moment of the responsibility of a family of 7,300 children in these times of high prices and I know you will help us in our annual appeal for half-crowns to feed the largest family in the world.

Last year generous friends sent us 23,718 half-crowns as birthday gifts in memory of the late Dr. Bernardo, and this year our needs are greater. Eighty-nine thousand children have been rescued by these national homes. Ten thousand seven hundred and fifteen Bernardo boys fought for you on land and sea in the Great War. Will you remember their brothers and sisters? I know you will help us to feed the little ones.

THE ST. JOSEPH PLAYERS COMING

St. John theatre goes may shortly expect to enjoy possibly one of the best amateur theatrical performances that has been staged in this city for some time, as the students of the University of St. Joseph's College propose repeating the annual college play here in the near future. The play will be performed in the St. Vincent's Auditorium for the benefit of the St. Vincent's High School. The majority of the cast are St. John boys, and all members of the St. Patrick's Literary and Dramatic Society of the University. As it is the aim of that society to develop the latent histrionic talents of its members, in which it has met with so marked a success that the St. Joseph boys have become noted for their acting ability, it may safely be said that the play will appeal strongly to all who are fortunate enough to attend.
