IF YOU CATCH COLD.

Many things may happen when you catch cold, but the thing that usually happens first is a cough. An inflammation starts up in the bronchial tubes or in the throat, and the discharge of mucous from the head constantly poisons this. Then the very contractions of the throat muscles in the act of coughing helps to irritate so that the more you cough the more you have to cough. It is, of course, beyond question that in many cases the irritation started in this way results in lung troubles that are called by serious names. It is in this irritated bronchial tube that the germ of consumption finds lodgment and breeds.

Great numbers of persons disregard cough at first, and pay the penalty of neglect. Cough never did any one any good. It should be dispensed with promptly. Adamson's Botanic Cough Balsam is a well-known remedy, and it is the surest and quickest cough cure known today. It does not deceive by drugging the throat. It soothes the irritated parts and heals them, then the cough stops of its own accord. The action of this medicine is so simple that it seems like nature's own provision for curing a cough. Every druggies has it. 25 cents. Be sure to get the genuine, which has "F. W. Kinsman & Co." blown in the bottle.

Surface I hieves Shoot and Steal.

Victor, Col., Jan. 16—A desperate battle, four hundred feet under ground, be tween ore thieves and officers and trusted employes, occurred in the Independence mine on Battle Mountain today. Between 50 and 75 shots were exchanged between the parties. Lee Clokner, a member of the company's force, was shoot twice; but not seriously injured. The fight was most determined, but the thieves finally gained the upperhand and forced the company men to retreat toward the big shaft, giving the thieves an opportunity to escape.

The management of Stratton's Independence Company, of London, England, which owns the Independence mine, has been aware for a long time that rich deposits of sylvanite in the mine were being systematically robbed, the stealings amounting to thousands of dollars a month. Detectives were employed and it is said the thieves were detected in the act of looting a rich seam of ore.
