Consider Hydro Radial
Possibility of Taking over Radial Service at Hamilton—Refuses to Discuss Cataract Power Co.
London Ont., Jan 14—Sir Adam Beck to-day, refused to discuss a report to the effect that the Hydro Electric Power Commission may take over the Cataract Power Company now serving Welland, St. Catharines and Hamilton, as well as its associated enterprises, the Hamilton Street Railway and radials operating out of that city.
Sir Adam indicated however that now that the war is over the commission is prepared to consider the needs of Hydro Radial service, particularly in connection with the Hamilton and Burlington dilemma.
He would not say whether the authority which the commission holds to build and operate a radial between Hamilton and Toronto is sufficiently wide to make possible the purchase, under its terms of the Burlington and Oakville line.
"The situation in connection with the suspension of service on the Burlington radial is acute," said Sir Adam. "I understand that the municipal council are meeting in Kingston to-day to pass resolutions authorizing the Hydro Commission to proceed with negotiations to acquire the present line which the new Hydro Radial will parallel, or to proceed with the construction of the Hydro Radial, we have authority to build a Hydro Radial from Hamilton to Toronto, but the work has heretofore been deferred on account of the war."

IMPORTANT LINKS
Hygiene, rest, pure air, sunshine and a well-balanced diet, plus
SCOTT'S EMULSION
to improve the blood-quality, increase body-weight and build up resistance, are important links in the logical treatment of incipient pulmonary affections. To a child or adult with a tendency to weak lungs or tender throat, Scott's brings a wealth of rich tonic-nourishment.
A little of Scott's Emulsion today may do you a world of good tomorrow.

More Direct Route.
"The Hydro Radial will parallel the private line from Hamilton to Burlington, and we could make use of that section in our scheme, but we would not use the private line from Burlington as an entrance for the Hydro Radial to Hamilton. We have a more direct route, paralleling the Grand Trunk, and that is what we intend to use. If we should take over the Burlington line we would continue to operate it for the accommodation of local passenger traffic immediately along that line, as well as for light freight and express business. We would also rehabilitate it and equip it as a standard unit of the Hydro radials system."

the Hydro radials system.
"If we do not acquire the Burlington line, the people want us to go ahead right away with the construction of a Hydro radial as they are greatly inconvenienced, and the situation is acute."
Trustees of People.
"Are you agreeable to the adoption of either of those measures?" he was asked.
"We are the most agreeable people in the world," he replied. "We are simply the trustees of the people, and of course, we will do whatever they wish."

Please, Mother! It's Nasty!
Give Me a Candy Cascaret!
TO MOTHERS! Instead of the dreaded dose of castor oil, drops, calomel or pills, give your children Cascarets and save money, worry and trouble. Children love Cascarets because they taste like candy. Nothing else acts so gently but surely on the child's little stomach, liver and bowels.
When one of the kiddies has a white tongue, tainted breath, sour stomach or a cold; when cross, bilious, feverish, constipated, remember, a Cascaret to quickly "work" away the nasty bile, sour fermentations and poisons should always be the first treatment given. Cascarets never gripe the tender bowels, never injure, and never disappoint the worried mother. Each 10 cent box of Cascarets contain directions for children's dose from one year old and upwards. Also for adults.

"First to Serve—Last to Appeal"

The Record of The Salvation Army In Peace and War

Fifty-three years ago a man so loved the world and his fellow-man that he consecrated his life to the relief of distress and the service of the Master.
The world scoffed at his Salvation Army toiling to raise outcasts from the gutter, but General Booth lived to see scorn turn to reverence, and when he died, kings sent their representatives to his funeral.
His greatest memorial is the Salvation Army laboring in 63 countries, speaking 40 languages, serving behind the trenches since the twelfth day of the war, with Huts, Hostels, Rest Rooms, in addition to the work among soldiers' families here at home.
And now comes the crisis. With the homecoming of 300,000 soldiers, and all the many problems that involves, the additional strain on the Salvation Army will be enormous. But the Salvation Army faces the mighty task ahead, confident that the necessary funds will be forthcoming.
The work the Salvation Army will be called upon to do is a vital factor in Reconstruction. Notwithstanding all the work the Government has undertaken, including the granting of pensions, there is still need for the organized effort and the uplifting influence of the Salvation Army, and, with confidence, business men's committees ask your earnest support of the

Human Evidences of the Work
Here a returning soldier sees his baby for the first time. In the Salvation Army Maternity Home the mother received the best of care and medical attention. The Salvation Army Lassies found her struggling along without help. Two lives in all probability saved.
Picture a discharged soldier, out of a job. He is unable to provide maternity attendance for his wife. Imagine his relief when he finds the door of the Salvation Army Maternity Home is open to her.
Multiply these cases by hundreds and thousands and you will not be wide of the mark. Then consider the case of other mothers—
Who would deny the right of even the "love child" to enter the world surrounded by the loving care of the Salvation Army workers, nurses and doctors in the Maternity Home?
The Salvation Army is one of the organizations whose objectives extend beyond material comfort. Everything it does is ultimately directed to the extension of the Kingdom of Christ.
It approaches very practical problems in a very practical way, and achieves RESULTS. If you approve of its aims—spiritual as well as material—you will gladly give your help to raise the fund, without which much suffering must remain unrelieved—suffering among those particularly who offered their lives a living sacrifice to our comfort and protection.

Among the Soldiers' Families
A soldier at the front received a letter from the Salvation Army to say that his wife was getting along nicely after a severe illness in which she had been found alone in the house. The letter did not tell how the Salvation Army Lassies turned to, scrubbed floors, set the house in order, and nursed the woman back to health.
The wife of another soldier was utterly unable to keep her home together and look after the six children. The Salvation Army workers found her, too proud to ask for help, but not too proud to accept guidance and assistance with the children when lovingly offered.
Many soldiers will find it hard to settle into civilian life. Distress among soldiers' families is inevitable, but while the home can be kept intact there is a solid foundation for the Salvation Army to build upon. The soldier will be helped to find a job. The children will be clothed so that they can go to school. Food will be forthcoming. And there will be that Cleanliness which is next to Godliness, the spirit which actuates the work.
