

What do You Know about the Opportunities on your Railway?

The lines of the Canadian National and affiliated railways serve the nine provinces of Canada, its principal towns and cities, and a vast undeveloped area containing unmeasured natural resources that offer unequalled opportunities.

The Industrial and Resources Department is in possession of a large amount of valuable data and information on the economic and physical character of the country served by the line which is yours for the asking.

Firms considering industrial development should consult this department and secure the benefit—special data compiled for enquirers.

MINES AND MINERALS

Those interested in raw materials should write for pamphlet just off the press, "Mines and Minerals" on the Canadian National Railways, which contains a fund of information including new uses for a number of economic minerals.

C. PRICE-GREEN,
Commissioner,
Canadian National Railways,
Toronto, Ont.
