

### The Peerless Woven Wire Fence

Farmers of Canada will be interested in the founding of a new Canadian company for the manufacture of woven wire fences. Among those in this new company are to be found the oldest and most practical fence men in the Dominion. The company, which will be known as The Banwell Hoxie Wire Fence Co. of Hamilton, Ont., starts its career under favorable circumstances.

The Peerless woven wire fence, when the company is just starting to manufacture, is the same fence that you prefer to satisfactory and serviceable to the farmers of the United States. One of the chief differences from other makes of woven wire fences is the lock. The Peerless lock is of very simple formation, but in its simplicity lies its true merit. It holds the lateral and vertical wires securely, and yet without damaging them. This makes it most in line with Bessemer steel wire, which is known to be the best obtainable for the manufacture of fence wire.

## PAROID

### IT PAYS TO FEED "INTERNATIONAL STOCK FOOD."

Centreville, N.B., June 12th, 1904.  
International Stock Food Co., Toronto, Ont.  
DEAR SIR—Your Stock Food is all you said it was. I can well  
understand I purchased a team horse last fall before getting your Food  
and was thin and rough-skinned, but by feeding your Stock Food, he  
gained rapidly. He looked all in put on fifty pounds of flesh in  
thirty days, and his coat was glossy and smooth.  
I can and will recommend it to all horsemen and stock raisers.  
Yours truly,  
G. H. HARTLEY.

## Why throw good grain on the manure pile?

If you only know the amount of money you could save every year by using INTERNATIONAL STOCK FOOD, it feeds for One Cent, we would have to think the sale of one twenty cent of the next twenty days. You will know sooner or later but we want you to make a trial. If your neighbor tells you an article is good and a money saver you would probably make a trial of it. Now the party whose testimonial we print above is just as honest as your neighbor would be and he is a general stock raiser. His credit is a large part of his success to INTERNATIONAL STOCK FOOD. It has helped him and we know it will help you. Its cost is almost only three cents for one cent and is purely concentrated medicinal preparation composed of roots, herbs, seeds, bark, etc., and is fed to stock in small quantities. In addition to this the regular grain ration for the purpose of aiding digestion and insuring perfect assimilation. It is not the amount of grain that the animal eats that fattens and builds up the body but it is the part of that grain that is taken into the system.
