

We do not say "BEST" Because Mostly every Maker does

But we do say, that a Cream Separator should be built with the best supported at both ends giving perfect balance.

Its driving gear should be on the spur or square principle which is the only kind that should be used on a fast running machine.

A SIMPLE ONE PIECE SKIMMER

giving perfect separation of the butter fat from the milk, at the same time easy to clean. A perfect ball race that runs easy and will not wear out. A strong solid frame to set the parts, giving steadiness and therefore durability.

Now the MAGNET has all these good points in its construction and is the only CREAM SEPARATOR that has, and we make it

Investigate these points of superiority in
THE MAGNET

You want a good Separator and this is the way to get it. Write for our 1908 Catalogue of Childrens Testimonials

Big Fortunes Are Being Made In Minnesota Iron Lands

Yes. Not only big fortunes but little ones. The smaller people are getting a "share" at the great profits. Farmers, merchants, and others who have money in the iron-bearing lands of Crow Wing County, Minnesota, are getting profits in cash that exceed their fondest hopes. These iron-bearing lands are money makers for those who take out ore. They are situated in the Cuyuna Iron Range which lies along the Northern Pacific Railroad between Deerwood and Brainerd.

End of Ore in Some Old Sections

Although \$2,500,000 in dividends were distributed this year to the stockholders of only one company in Northern Minnesota, still the indications are that the iron-ore in older sections is getting scarcer and scarcer every year. New mines will have to be opened in greater numbers than before in other sections.

Your Opportunity—Our Proposition

This then is your opportunity. Many consider it the chance of a lifetime. We control a quantity of iron-bearing land in Township 46, Range 20, Crow Wing County, Minnesota. It is but 36 miles from Deerwood, a town on the

Northern Pacific Railroad between Duluth and Brainerd.

A Rich Strike Nearby

A short distance North of this property a iron-ore company has sunk a shaft and is now mining. In every direction drills have disclosed valuable finds of iron ore. Within 80 rods of this land drills have blocked out forty million tons of iron ore. The above ore company referred to has offered to supply us with money and take half the profits. We prefer, however, to develop it ourselves and divide the profits among those who invest with us in this valuable land. Consequently, we believe it will be an excellent opportunity for you to receive good dividends on your investment.

We are an organized corporation, capital \$200,000. The price per share is \$10.00 each. Our prospectus and other literature give full description of the property with pictures, guarantees, references, map, and everything that it is possible to put on paper which reflects an honest, straight-forward and reliable investment.

A visit to these lands will well repay you. Send for above prospectus quick, and ask us any questions if you feel inclined to. We will give you an honest, straight-forward answer.
