

HAPPENINGS IN THE WORLD OF SPORT

Twenty-Eight Entries Were Made for the Dominion Boxing Championships

RICHMOND DEFEATS ROYALS

Dr. Lachapelle, Who is Going to the Front, Was Presented With a Purse of \$200 in Gold by the N. A. A. Directorate.

Richmond went after the Royals again yesterday and defeated them by a score of 10 to 6. The local team is now in second in last place, with 2 wins and 4 losses. Rochester is in the cellar.

For the Dominion boxing championships on Friday and Saturday at the Arena twenty-eight entries have been made. What is lacking in numbers is more than made up for in class. The boxes coming from Boston are selected from practically the New England State and will be a hard lot to beat. The Canadian representatives are also particularly good.

The big Seagram string from Waterloo is now at the Woodbine, sixteen horses in all being included.

The ultra in esprit du corps to our way of thinking is for a man on the bench to yell "nice swingin', old boy!" when the batter strikes out.

That our own "Scotty" Bedding is no slouch at the big pins is again proven by the fact that he is sixth among his team mates in Class "C" bowling, with a total of 1360 pins in nine games and an average of 151.1.

The King's Plate will be run at Woodbine two weeks from next Saturday. There are 23 candidates left among the entries, and it is such an open race this year that at least half a dozen have a chance to win.

Broken noses from divers causes are quite the thing. Cree, Ferritt and Herzog have had the offensive organ damaged in that manner.

Doctor Lachapelle, the well-known National lacrosse player, who leaves shortly for the front, was presented with a purse of \$200 in gold by the executive of the National Amateur Athletic Association last night. The executive of the N.A.A.A. have also made arrangements for a big reception for Doctor Lachapelle, which will take place to-night.

A cable from London says: The Chester Vase race run at the Chester meeting yesterday, was won by Eplanaduan at 100 to 8. White Prophet at 7 to 4 was second, and Laxford third.

Charles Herzog, manager of the Cincinnati National League Club, has been suspended for five days for his altercation with Umpire Rigler, at St. Louis last Saturday.

Quartermaster-Sergt. S. W. McConnell, physical instructor of the Montreal Amateur Athletic Association, who was formerly a member of the physical training corp of the British Army, has received word recalling him to England to assist in developing Kitchener's forces for service at the front.

The Toronto Star says: The Toronto boxers to represent Ontario at Montreal on Friday and Saturday in the Canadian championships should make a good showing. They are all clever and game, and with the necessary experience to do their best away from home.

It's an ill wind that blows nobody good. Good judges believe that if Fred Brainard gets his chance he'll make good and become a star. At present he is doing capital work at first for the Giants in Merkle's absence. And, by the way, it isn't Brainard, it's Brainard.

George Greene, of Toronto, who was a professional runner in England, has been informed that he can never compete as an amateur.

Johnny Ertle, of St. Paul, outpointed Eddie Coulon, of New Orleans, in a ten round bout at Milwaukee, in the opinion of newspaper men at the ringside. The men are bantam weights.

Connie Mack is looking for a third baseman. He says so himself. "No, I haven't found him yet," said Connie yesterday. "For just as soon as I do I'll have him out there."

The application of Frank McCarthy of Cobalt for an amateur card has been refused. He is regarded as a disqualified amateur in hockey.

Johnny Schiff, the aggressive California lightweight, has been signed up as one of the contestants in the feature bout at the opening show of the Hochelega Club at the Jubilee rink on May 17th. Schiff expects to oppose either Kilbane or Eddie Wallace.

ALBANY MAY REQUIRE LOAN. Albany, N.Y., May 5.—At the State House it was said on Tuesday night that the general fund would be exhausted before June 1 and that a temporary loan of between \$5,000,000 and \$6,000,000 may have to be negotiated to pay the running obligations of the State. If this occurs it will be the first time since 1894 that the State has had to borrow money for pay rolls and departmental expenses.

RITZ-CARLTON HOTEL Special Winter Apartment Rates: Luncheon, \$1.25, Dinner, \$1.50

NOTES ON PUBLIC UTILITIES

Organization of the Southern Telephone Co. of Indiana with a capital stock of \$3,000,000 has been perfected and the new company has taken over the holdings of the Cumberland Telephone Company of Indiana.

It is understood the Canadian Niagara Power Co. will shortly begin work on improvements to its plant in Niagara Falls, Ont., costing upwards of \$3,000,000. One of the improvements will be a new forebay to combat ice.

The Dayton Gas Co. announces that negotiations for an ample supply of natural gas for its 28,000 consumers has been successfully completed with the Union Natural Gas Corporation. The tentative agreement calls for an annual supply of not less than seven billion cubic feet, which is much more than required.

Mayor William H. McKeighan, of Flint, Mich., says that the city will not be arbitrary with the Michigan Light Co. gas franchise of which has been declared forfeited. "We will give the company a reasonable length of time to apply for a new rate," says the Mayor. "If such a rate is not satisfactory we will notify them to vacate the streets. If they do not offer us any rate we will begin charging them a rental for occupying the street."

Valuation of \$88,500, set by a jury on the Olympia water system, owned by the Washington Public Service Co. was not satisfactory to the owners and a motion for a new trial was filed immediately. If the new trial is denied an appeal will be taken to the Supreme Court, attorneys for the company, said. The valuation was placed on the plant in the action brought by the city of Olympia to condemn the property and operate it as a municipally owned plant.

According to a dispatch from Columbus, O., the Athens Electric Company has been authorized by the State Utilities Commission to issue \$75,000 common stock and \$75,000 in three-year 7 per cent. notes. The stock is to be sold at par, \$25,000 to be used to make the initial cash payment on the telephone plant in Athens, which is being purchased by this corporation, and \$50,000 to be used for betterments and improvements. This company has just been organized to take over the telephone plant in Athens, which the Commission also gave the Athens Electric Company authority to purchase.

DENIES RAIL ORDERS.

New York, N.Y., May 5.—It is stated by the U. S. Steel Corp. that the report that Russian Government has ordered 150,000 tons of rails from the Steel Corporation is without foundation.

The Russian Government, according to consular reports, has been contemplating for some months past the creation of a new seaport on the north coast of Russia, about 150 miles from Archangel. A double track railroad from Petrograd to the proposed new port is also contemplated, and it is learned that Russian authorities have been negotiating with American steel makers for a large tonnage of rails. The order, however, has not yet been placed.

Reports that the Steel Corporation had secured foreign and domestic orders totalling \$150,000,000 are also declared by the corporation without basis in fact. The corporation has been getting and will get orders for steel from concerns in this country which have taken orders for shrapnel and other war munitions.

NIPE BAY COMPANY BONDS SOLD.

Boston, Mass., May 5.—Nipe Bay Co. has sold \$3,500,000 5 per cent. 10 year first mortgage, and sinking fund gold bonds, to Lee, Higginson and Co. They will be offered by the bankers publicly at 94 and interest to show an income return slightly better than 5.75 per cent.

The new bonds are dated May 1, 1915. The importance to the United Fruit Co., of the financing is that it liquidates the debt of Nipe Bay held by the United Fruit Company and gives the parent organization a good cash balance.

N. Y. CURB IRREGULAR.

New York, May 5.—Curb market was irregular. Prairie sold at 139, off 3/4. Prairie Oil sold from 315 down to 312; Anglo American, 18; Crescent, 40, off 2; Ohio Oil, 14 1/4 off 1/4; So. Penn., 32, off 1/2; Standard Oil Calif., 299, off 1; Standard Oil, Indiana, 446, up 5; Standard Oil, N.J., 408, off 3; Standard Oil N.Y., 188, off 2 1/2; McCrory sold from 55 to 54 1/4, and preferred at 97 1/4.

FOREIGN EXCHANGE.

New York, May 5.—Foreign exchange opened steady with demand sterling up 1-16. Sterling, cables 479 1/2; demand 479 3/4. France—Cables 532; demand 532 1/2. Marks—Cables 82 7-16, plus 1-32; demand 82 1/2, plus 1-32. Guilders—Cables 39 1/2; demand 39 7-16, plus 1-32.

SILVER IN NEW YORK.

New York, May 5.—Zimmerman and Forsyth quote silver 50; Mexican dollars 38 1/2.

TIN QUOTED QUIET.

New York, May 5.—Metal exchange quotes tin quiet, five ton lots offered at 39 1/2 cents. Lead, 4 1/2 to 4 1/2. Spelter neglected, no quotations.

AMERICAN BANK CLEARINGS.

New York clearings \$408,493,709, inc. \$93,320,626. Philadelphia clearings \$28,004,457, inc. \$2,484,553. Boston clearings \$28,068,574, inc. \$3,178,485.

DIAMOND MATCH CO.

Chicago, Ill., May 5.—Diamond Match Co. declared regular quarterly dividend of 1 1/4 per cent. payable June 15 to stock record May 31.

PERSONAL.

THE REV. M. O. SMITH, B.A., instructor in the Languages and Mathematics After April at No. 544 Sherbrooke St. West. Or apply at Miss Pool's 45 McGill College Ave., Tel. Uptown 210.

LAKE OF THE WOODS MILLING COMPANY, LTD.

Dividend Notice. Notice is hereby given that quarterly dividends of 1 1/2% on the Preferred Stock and 2% on the Common Stock of Lake of the Woods Milling Company, Ltd., have been declared, payable on Tuesday, 1st of June, 1915, to Shareholders of record at the close of business on Saturday, May 22nd, 1915. By order of the Board. R. NEILSON, Secretary.

Heard Around the Ticker

War orders already placed in the United States by Great Britain exceed \$500,000,000, while a prominent American banker states that by the end of the present year the French Government will have spent \$450,000,000 for war supplies in the adjoining Republic. In addition to that Russia, Italy and other countries have been spending large sums in the States. Recent estimates made by the Journal of Commerce place the amount of war orders in Canada at close to \$250,000,000. Undoubtedly these war orders placed in Canada and the United States have been a big factor in keeping the wheels of industry going.

Ten thousand straw hats, the season's first crop, were seen on the boardwalk at Atlantic City. But so far this season in Montreal only one heroic citizen has had the temerity (dared to this act by a thermometer that flirted around the 80s) to turn out so adorned.

The British Columbia Electric Railway Company, Limited, is meeting with strenuous opposition from the Jitneys in the city of Vancouver. So popular have these latter contrivances become that the company has been compelled to reduce its fares, selling eight tickets for twenty-five cents. When transfers are demanded, however, the tickets are refused, and the fare becomes five cents straight. The company in question has been financed largely by British capitalists, and in its various lines (for all the traction companies in the province are under this control) over \$20,000,000 have been sunk. The company now possesses 324 miles of railway. Eight large cities and towns are served, besides a number of smaller municipalities.

When the militaristic juggernaut is so disregardful of human life one could scarcely expect the Germans to do other than stimulate the truculence of China in its attitude toward Japan. Nobody knows better than the Teutons that the Chinese would prove only a light lunch for the Japanese.

In the past bulls and bears were divided on the progress or lack of progress made by industrial corporations catering to the arts of peace and commerce. Now the stocks of companies supplying munitions of war are the leaders in the bull movement. Bethlehem Steel, which had a sensational rise, is a case in point. Another good example is found in the shares of Colt's Patent Firearms Company, whose shares advanced 20 points in the last few days. The stock is now selling at 325 per share, while four years ago it sold at 125.

Arrangements for a loan of \$135,000 from the Molson's Bank with which to start the construction of the Center Street Bridge, at Calgary, Alberta—a large structure connecting the north and south sides of the city, which are separated by the Bow River—have just been completed and work on the bridge started. Another sum of equal amount will probably be borrowed from some of the other banks later when needed for the completion of the work.

Mr. C. H. Cahan, K.C., the president of the Western Canada Power Company, who has latterly, owing to his large business connections, been compelled to spend much of his time in New York City, will make a special effort to be present in person at the annual meeting of the Western Canada Power Company, Limited, which takes place to come before the shareholders in recent years devoted a great deal of his eminent abilities was incorporated at Ottawa in May, 1909, for the purpose of taking over the hydro-electric developments which were under way on the Stave River. Long term charters for the supply of power are held in Vancouver, New Westminster and other rapidly growing municipalities throughout British Columbia.

That the average German in war-time is a liar as well as a sneak and a thief is seen from the following extract from the Hamburger Fremdenblatt, which remarks: "No one in Germany, from the Kaiser down to the lowest man, ever wished for this war, but we have been forced into it by England and Russia. Whoever is fighting in self-defence has only one object—to come out victorious. When we are that, the war will end."

The A. Macdonald Company, which held its annual meeting in Winnipeg yesterday and re-elected the retiring directors, has had a somewhat checkered career. Founded first by Mr. A. Macdonald it made rapid progress and kept pace with the sensational growth of Western Canada. It then fell into the dragnet of the professional mergers who injected some aqua pura into its finances. Despite the watering of the stock and the financial stringency which swept over the West and which interfered with business, the company has, everything considered, been able to show a satisfactory statement.

The Journal of Commerce received a message yesterday stating that Captain J. G. Ross, in charge of the Machine Gun Section of the 5th Royal Highlanders, had come through the recent fighting unscathed. Captain Ross is well known on the local street. He was a mining engineer by profession and a member of the firm of Milton Hersey & Company. He has a brother in France, while a third member of the family is now on his way to the front.

That is a very nice little order which has just fallen into the lap—if a soulless corporation can be said to have a lap—of the Smart-Woods Company, Ltd. The Department of Trade and Commerce at Ottawa has awarded a contract for the supply of 323,334 bushels of wheat to be sent to New Zealand. It is understood the contract price is in the neighborhood of \$50,000.

The New York Sun, referring to the action of C. P. R. in Wall Street on Monday, says: "The bears who have been nibbling consistently at Canadian Pacific during the past few months gained courage when the price broke rather badly yesterday. The ostensible cause was another poor earnings statement. But general conditions in Canada and the fact that Canadian Pacific is so largely held abroad have created an impression that whatever happens there is bound to be heavy selling by the European investor. There was, of course, no way of knowing the exact source of yesterday's selling. It might have been for the account of Europe on cable orders. It might also have been for the decline in anticipation of liquidation, for which orders have not yet been given."

GLEANED FROM MANY SOURCES

Frisco crop report shows wheat and oats in splendid condition.

Monday was the ninth million share day this year in New York market.

Japan is to send an ultimatum to China, and Peking is preparing for a defence.

The average price of 12 industrials 89.22 up 0.43. Twenty railways 96.16 up .19.

U. S. exports for the week ended May 1st amounted to \$47,783,756. Imports \$34,460,552.

The British War Office admits the loss of the village of Zonnebek near Ypres to the Germans.

Alaskan coal lands will not be available for leasing until the beginning of the season of 1916.

The New York State Association of Master Bakers opened its twentieth annual convention at Rochester, N. Y.

About 33,000 cases of New England made boots, destined for Russian army, will be shipped from Boston within a short time.

Government investigators have found that orange tree in Middle West will yield valuable yellow coloring matter for dyes.

Stockholder of New York Central has applied for an injunction to restrain the company from issuing \$100,000,000 6 per cent. debentures.

The Russians claim successes at various points over the 60 mile front of the battle in West Galicia, and do not admit a general retreat.

The aggregate output of Youngstown, Ohio, steel mills during April is estimated to have been 10 per cent. greater than during March.

A cat climbing a pole at Port Arthur, Ontario, short-circuited an electric current and plunged the town in darkness. The cat was killed.

Petrograd admits that the German forces have succeeded in crossing the river Dunajec in Galicia, but says that desperate fighting continues.

Boston Opera Co. is expected to file voluntary petition in insolvency. Claims are said to be \$100,000. The house may be leased to a New York syndicate.

Anaconda Copper Co. has placed contract for improvements at Washoe smelter, calling for 3,100 tons of structural steel, with Minneapolis Steel and Machinery Co.

Over 2,000 British laborers on construction work in connection with Woolwich Arsenal, largest gun manufacturing plant in Great Britain, went on strike for higher wages.

More than 1,700 weavers employed in the seven factories of the Borden Mills at Fall River, Mass., went on strike on Monday, refusing to work longer than union hours.

Frank A. Munsey, denied the cable from London that he was the actual bidder of \$50,000 for a portrait to be painted by John S. Sargent, the money to go to the British Red Cross.

Announcement was made in London by the Peruvian Corporation that the Peruvian government has cancelled its order terminating the corporation's right to work certain guano deposits.

Ministers of various denominations throughout Great Britain have formed a reserve corps and are drilling preparatory to offering their services to the Government. They held their first rifle practice in Glasgow.

Henry C. Frick, the purchaser of Holbein's famous portrait of Thomas Cromwell, which arrived on the Philadelphia from Liverpool, Sunday, the painting was purchased from Sir Hugh Lane at a price said to be \$250,000.

Jitney service in Providence, which has increased from 50 to almost 1,000 automobiles, took \$2,331 a day from the Rhode Island Co., in March. Deficit of the trolley company was more than doubled, being \$56,215 as compared with \$20,708 in March, 1914.

Ward & Gow, advertising firm, are preparing to sue Brooklyn Rapid Transit Co. for ripping out all firm's advertisement in surface and elevated cars and stations on Saturday, when two parties were unable to agree on terms of a new contract. Heavy damages will be asked.

NEWS OF WORLD TOLD IN BRIEF

Threatened With Japanese Ultimatum China Concentrates 100,000 Troops to Defend Peking

BRITAIN'S DEBT DOUBLED

War Costing \$5,000,000,000 a Year—Canadians Reported in Action Again—Germans' Gas Clouds Blow Away and Enemy Suffered Severely.

A despatch from Tokio says that the Japanese Cabinet has decided to send an ultimatum to China. It will accord a brief time limit for China's compliance with Japan's demands. Military preparations are being made for the defence of Peking. According to Chinese officials, whose statements have been corroborated in other circles, the Government is making no preparations elsewhere than at the capital for defence, considering that the Chinese will be unable to oppose the Japanese should they make an attack. It is asserted in high quarters that one hundred thousand troops have been concentrated in the environs of Peking, but with sufficient ammunition for only a brief resistance.

In one of the shortest budget speeches on record, he being on his feet a little over an hour, the Rt. Hon. David Lloyd George, Chancellor of the Exchequer, yesterday gave the British public further insight into what the war is costing the nation. The expenditure at present, he said, was \$2,100,000,000 daily, and he added that if the war continued for a year Great Britain's bill would be upwards of \$1,000,000,000 sterling (about \$5,000,000,000). The debt of the country already had been almost doubled and stood well over the \$5,000,000,000 mark.

Reports received from Dunkirk, via Amsterdam, claim that the Canadians have again been in action, and that on Friday last they had to surrender their trenches. "On Friday morning," says the message, "the Germans began an attack aided by a north-easterly gale for the use of gas clouds. Although the Canadians gallantly fought with their bayonets, the Germans finally took possession of the trenches, but only at the price of very heavy losses.

Two attacks by Germans launched against the Allies on Sunday night, one against the French on the Yser Canal, the other against the British, north of Ypres, in the neighborhood of St. Julien, both ended in failure. In each case the Germans employed asphyxiating gases from projected tubes in their trenches, and some thrown by exploding bombs into the trenches to achieve its object. The Germans were exposed to the severest punishment owing to the wind changing and dissipating the gas clouds.

Speaking in the British House of Commons yesterday afternoon, Mr. H. J. Tennant, parliamentary secretary of the War Office, said Great Britain had under consideration the question of "employing similar expedients" against the use of German troops on the battlefield of asphyxiating gases.

An official communication issued in Petrograd admits that the Austro-German forces have crossed to the right bank of the Dunajec River in Galicia. It says, however, that desperate fighting continues. The Germans and Austrians claim that in the fighting around this region thirty thousand Russians were captured, and that a large number of guns were taken. There is no mention in their reports, however, of any towns, such as Gorlice and Tarnow, which were close to the front, being captured, which leads the British military critics to the conclusion that, while the German allies have won important local successes, they have not driven the Russians very far back.

A memorial service for fallen Canadians will be held in St. Paul's Cathedral, London, on Monday evening next, May 10, when the Bishop of London is to deliver an address.

INTERNATIONAL DEVELOPMENTS KEPT COTTON LOW IN LIVERPOOL.

New York, May 5.—Cables indicating uneasiness in Liverpool over the China-Japan situation caused a reactionary tendency at the opening here and cotton prices were barely steady at the decline of 10 to 14 points. Liverpool also reported Continental selling, which was probably a direct result of the German successes in Flanders, Galicia and the Baltic provinces.

THE WEATHER MAP.

Cotton Belt—Partly cloudy, light to moderate precipitation in parts of Texas, Mississippi, Louisiana and North Carolina. Temp. 48 to 68. Winter Wheat Belt—Cloudy light scattered precipitation in parts of Kansas, Iowa, Illinois and Indiana.

AMERICAN TOBACCO CO. DIVIDEND.

New York, May 5.—American Tobacco Co. dividend is payable June 1, to stockholders of record May 15.

LONDON SAVINGS BANK

SCOTIA SECURES LARGEST FOR SHELLS YET PLACED

New Glasgow, N.S., May 6.—The Scotia Steel and Coal Company has order with the Imperial Government and a half of shells. It has been run time that a big order was pending for shells, but it was definitely and officially a public.

This is without a doubt the largest placed with any Canadian concern, that it is not only for eighteen pieces other shells, which range in size from 10 to 12 inches, but also for the largest and most modern type of war shells. The largest shells have a diameter of half inches, and already new machinery is being installed to handle this vast order.

It might also be mentioned in passing that the Scotia plant is already working. Speaking to an official of the company, it was informed that the work had been completed some time before the end and that a very large force of men will be employed to handle the order.

"Over capacity" was the term which of the Scotia Company employed who the activities promised for the company's future.

To complete this order by March, 1st, by the contract, it will be necessary to average over eleven thousand and in order to do this extensions to the plant will have to be made so that the plant will become a veritable Eisen in the manufacture of big shells.

However, this is not all. It has also announced to your correspondent that subsidiary plant, the Eastern Car Company, received an order from the Russian which calls for two thousand steel rods and which will be manufactured at once to Russia.

The two companies are already engaged in full blast turning out cars for the Government and shells for the Imperial.

A great wave of industrial prosperity never known before in the history of New Brunswick is sweeping over the province, and prognostications of those who are close with the situation here.

CHINA-JAP. CRISIS MAY BE AVERTED—SITUATION

Toronto, May 6.—A sudden change for the situation involving China and Japan this afternoon. It is now regarded as war between the two countries can be a general sentiment in official circles seen a timelier.

A long despatch was received by the Japanese Legation at London, which was immediately transmitted to Premier Balfour, but not confirmed that shown indications of yielding.

It was announced that all details of the situation between the two countries would be made public simultaneously. The Cabinet will vindicate Japan's position.

JAPAN'S ULTIMATUM EXPIRES SATURDAY.

Peking, China, May 6.—The time limit in the ultimatum, is said to expire at 5 p.m. Saturday, according to various reports, that China on this occasion has acted in a manner contrary to interests involved in the recent negotiations. The acceptance of the proposals made by the Japanese.

CANADIAN CONTINGENT HAS LOST OVER

London, May 6.—Replying to Donald Maclean's statement to-day, the Under Secretary of State for the Colonies said that the casualties of the Princess Patricia's Light Infantry, 208. In the Canadian Division, 22; other ranks, 6,024.

SWEDISH STEAMER VANADIS SUNK.

London, May 6.—Swedish steamer Vanadis was sunk in the Baltic Sea by the German submarine U-15. The British schooner Earl of Leatham, by a German submarine eight miles off Kinnaird Head, on Wednesday. Her crew landed at Kinnaird Head.

RUSSIAN PRISONERS NUMBER 50,000.

Vienna, May 6.—Austro-German forces in Galicia have already taken more than 50,000 prisoners and the number is still growing. Officially announced. Seven hundred men were taken near Stryl on the slopes of the Carpathians.

SITUATION HIGHLY FAVORABLE.

Rome, May 6.—It was stated at the German Embassy that the situation involving Austria was "highly favorable to the success of negotiations."
