# NOTICES.

"The Reaper King."—With the above words a writer in the Philadelphia Saturday Evening Post heads a graphic article on Cyrus H. McCormick and the great McCormick reaper works of Chicago, being one of a series of sketches of "American Kings and Their Kingdoms." It traces back the development of the modern binder to the old reaper invented by the late Cyrus Hall McCormick and successfully operated on a farm near Steel's tavern, Virginia, 1831. The present workshops cover an area of 57 acres, from which 1,200 machines per day are said to be turned out and find their way to every part of the world where the golden grain waves and the green grass grows. Good for Enlarged Tendons.

St. John, N. B., April 29th, 1897.

The Lawrence-Williams Co., Cleveland, Ohio: The bottle of Gombault's Caustic Balsam you so kindly sent me in November, 1896, I have used on my horse for enlarged tendon, and found it to work to my entire satisfaction, and would recommend it to all horsemen instead of using the firing irons, as it has an even better result. R. O'SHAUGHNESSY.

The Reliable Feed Cooker advertised in this issue by Rippley Hardware Co., Grafton, Ill., seems to be winning its way to popularity wherever introduced. It is inexpensive, economical of fuel, and convenient. It is in use on several Canadian stock farms, where its merits are highly proclaimed. The following testimonials from reliable men speak volumes for the cooker:

Rippley Hardware Co., Grafton, Ill.:

Dear Sirs,—We have given your reliable feed cooker quite a thorough trial, and are highly pleased with its working. It takes very little fuel to run it, is very easily operated, and so far as we have been able to discover, is very safe as regards fire from sparks, never having seen any come from the smokestack.

J. J. EDGERTON, Farm Foreman and Instructor in Agricultural Physics, Iowa Agricultural College.

Rippley Hardware Co., Grafton, Ill.:

Gentlemen,—After using your cooker for over a year, I can say that it is all right and will do all you claim for it. I use it every day to warm milk for the calves and heat water to wash cans and pails in, and by turning the steam into them they are thoroughly cleaned. Can boil water in a few minutes to scald hogs in. I cook feed and warm water for the hogs at a distance of 50 feet from the cooker. I use 3-inch gas pipe to carry the steam where I want it. My cooker takes the place of two tank heaters, as I heat the water in two stock tanks with it; one of them is 130 feet from cooker and it works all right, and did when the thermometer stood 22 degrees below zero. I am well pleased with the cooker and do not see how I could get along without it.

S. M. HENDERSON, Breeder of Polled Durham Cattle. Waterman, Ill.

# GOSSIP.

Mr. F. Martindale, York, Ontario, reports the recent sale to Mr. W. D. Flatt, Hamilton, Ont., of three very fine Shorthorns of the Missis family, and the four-year-old cow Queen Ann 29031, by Aberdeen (imp.), of the Fair Queen tribe. Of the bunch, Mr. Martindale says they were a splendid lot, full of quality. Of Missies, Mr. Flatt selected the seven-year-old cow, Missie of Neidpath 10th 23993, and her heifer calf at foot; also the two-months heifer calf, Missie of York, by Kinellar of York.

ANDREW ELLIOTT'S OXFORD SHEEP, COLLIE DOGS, AND BRONZE TURKEYS.

Some six miles south-east of London, Ont., brings one to the farm of Mr. Andrew Elliott, whose specialties are Oxford sheep, collie dogs, and Bronze turkeys. The Oxford flock (80 head) was founded on selections made from the flocks of Arkell, Tolton, and Evans, and as Mr. Elliott has exercised care in the selection of his rams, he is seldom without some choice young things of his own rearing. The present stock ram was selected from Mr. Smith Evans' imported prizewinning ewe of some three years ago, and is a big, strong sheep, with a good fleece of the best quality. Consequently, his stock is the desirable kind. When we called recently, we found a very strong bunch of lambs, which Mr. Elliott has for disposal this fall; in fact, he considers he now has the most promising bunch he ever raised, although he was able to win the best offerings on some of his young things last fall at the Provincial Fat Stock Show. The bunch of shearlings are well matured and an even lot. A dozen or more ewes and two rams were in the lot.

About 60 Bronze turkeys were successfully hatched this season, and will be offered at the proper season, and as care was exercised in the foundation selections from the most noted prizewinning pens at the World's Fair and the other big shows, it is not unreasonable to expect good stuff to be reared amongst them. The collie dog stock was rather lower than usual when we called, yet a very choice young bitch is held for sale. The kennels were first stocked from Beattie and McEwen breeding, and have found their way into almost all parts of the world. Watch Mr. Elliott's advertisement.

W. S. CARPENTER'S SHORTHORNS, SHROPSHIRE, AND YORKSHIRES.

"Shorthorns, Shropshires, and Yorkshires in the future," says W. S. Carpenter, at Simcoe, when we met him at his homelike residence a few days ago. We learned from the enterprising proprietor that it was his intention to establish his herds and flocks in keeping with his beautiful farm, which a few years ago won the gold medal in the farm competition. At the head of the Shorthorns we found the young bull, Ambassador (26075), by imported Sittytan Stamp, and out of Ambrose, by Vice Consul (imp.), carrying a combination of Cruickshank and Duthie breeding and running straight to the noted Strathallan family, and as we saw we are able to foresee in him the requisite growth and quality to warrant his purchase to head the herd of an enthusiast whose ambition is directed towards the pinnacle.

In Shrops, Mr. Carpenter laid his foundation by purchasing the descendants of importations made by Mr. W. Pettit, the ewes being in lamb to Mr. Pettit's imported Flashlight. A choice, well-covered bunch of lambs are offered through the F. A. advertising columns, for sale.
